

Acegas

Fact Sheet

About Acegas

AcegasApsAmga, part of the Hera Group, is the leading multi-utility in the Northeast where it operates in environmental and water services, in the distribution of gas and electricity, and carries out energy requalification projects and public lighting networks throughout the country. For the planet, for people and for prosperity: this is, in short, our reason for being, our goal and the social role we want to play.

Key project

AcegasApsAmga leverages Siemens' Gridscale X to build digital twin of Trieste's energy grid
