**SIEMENS**

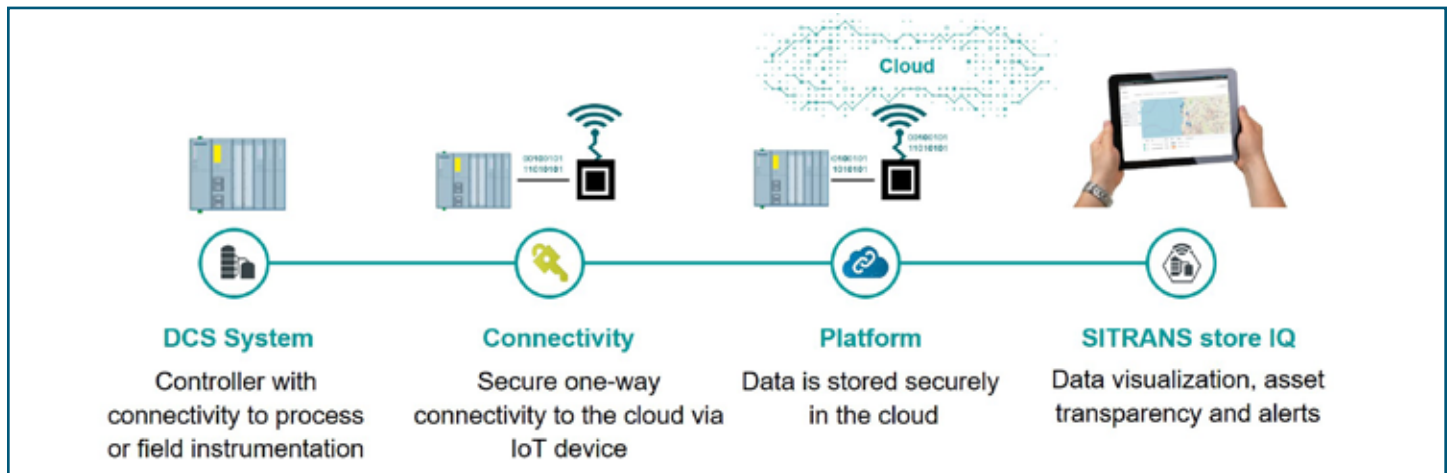

# Simple and Secure Connectivity

## Supplier Managed Inventory Solution

Siemens Supplier Managed Inventory solution is designed around securely giving external stakeholders a view of their relevant data. By using the Siemens store IQ application, suppliers have visibility into current inventory levels and know when a delivery can be made, optimizing the supply chain. This solution can also be configured for any external stakeholders that need to view important process data. To get started contact the Engineered Instrument Solutions Team (EIS) by sending an email request to: [eis.solutions.us@siemens.com](mailto:eis.solutions.us@siemens.com)

## Securely Share Inventory Information with Key Stakeholders

## Typical Performance Measurement

- Supplier Managed Inventory
- Outsourced Maintenance
- Secure external resource access

## Advantages & Benefits

- Improved Supply Chain Management
- Reduction in operation / maintenance cost
- Secure Remote Access
