

SIEMENS
Ingenuity for life

Process Automation Innovation Tour

The Siemens Process Automation Innovation Tour is making its first stop in Houston, and you're invited. You won't want to miss this opportunity to participate in user-led breakout sessions, get your questions answered by technical experts, explore our state-of-the-art technology showcase and network with your peers. It's a two-day event with three tracks each day so that you can customize your experience for maximum return. We'll kick off the event on Wednesday with the Keynote Session presented by Dow Chemical and end that day with a fun evening networking

event. Thursday will provide you with additional time for educational sessions and demonstrations of our latest innovations. Content choices include:
Track 1 & 2: Breakout sessions led by process experts and end users about hot topics in the industry.
Track 3: Live demonstrations of the latest networking, instrumentation, process control and cyber-security technologies.

Upcoming locations:

Charleston, SC - April 2020
Chattanooga, TN - June 2020
Park City, UT - August 2020
St. Louis, MO - October 2020

Who should attend?

I&C engineers, plant engineers, operations and management professionals

Cost:

No cost, but registration is required

Learn best practices

How are others in the industry improving efficiency and reducing costs with automation?

Interact with the latest technology

Experience the latest process automation technologies all in one place, in our newly remodeled Mobile Showcase.

Meet with process experts

Technical and industry experts will be leading demonstrations and breakout sessions. They will also be available to talk with you about your questions.

Network with peers

You'll have plenty of time to meet face-to-face with others in the industry, in your region.

Earn professional development hours (PDH)

Participating in this event makes you eligible for up to 14 PDH.

Stay informed about your industry

Understand what your peers are doing to compete in challenging economic times. Industry-specific sessions will cover pertinent topics such as operational strategies and how to best meet new regulatory requirements.

Live demonstrations of the latest technology

Network with your peers and process industry experts

Participate in sessions led by users in the industry

Join technical sessions led by process automation experts
