Cerberus® DMS Planning Tool

Making building protection smarter, easier, and more flexible

usa.siemens.com/cerberus-dms

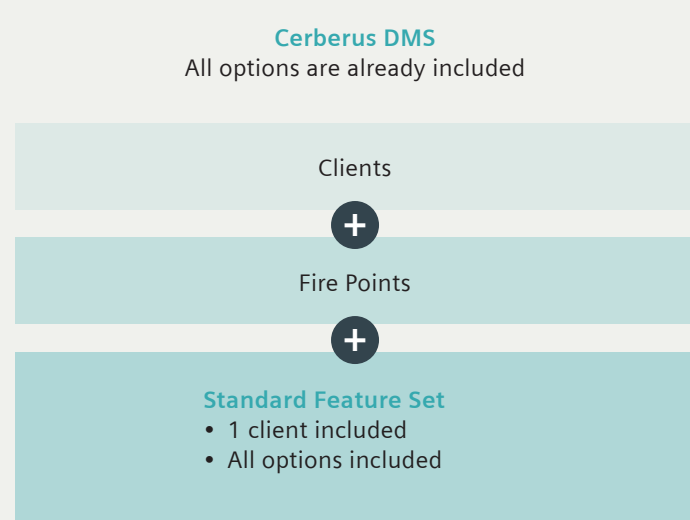

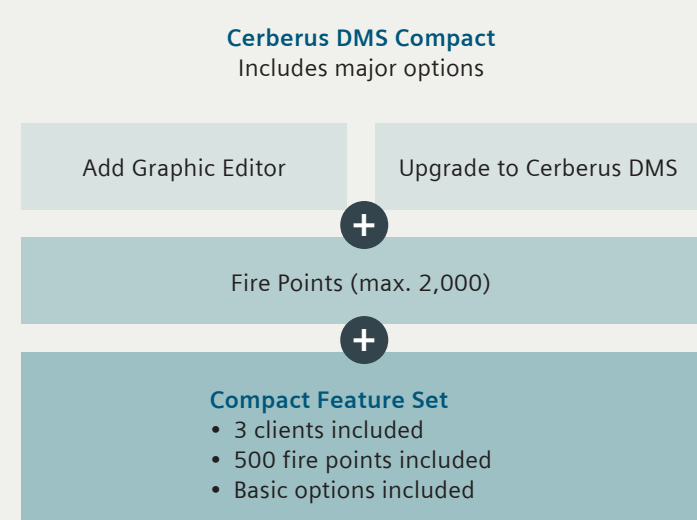

Cerberus DMS architecture

Refer to the System Description document for a full list of subsystem versions supported by Cerberus DMS v3.0.

Licensing: Understanding your options

Cerberus DMS v3.0 is available in the Cerberus DMS Compact version that features select options or as the full Cerberus DMS suite with all options included.

Software upgrades: Annual Subscription or One-time Upgrade

Your Cerberus DMS comes with a one-year Software Upgrade Service (SUS) program with options to renew. You are encouraged to keep Cerberus DMS software up-to-date with the latest software version through the Software Upgrade Service program:

- Maintain an Annual Subscription
- Purchase a One-time Upgrade

Annual Subscription

- Latest version of software free of charge
- State-of-the-art features
- Best performance
- IT security updates
- Support of latest version of operating system

Every new Cerberus DMS installation includes free 12 month Software Upgrade Service subscription, which entitles the site to optionally install any new version within the first 12 months after the software is activated.

Annual Subscriptions are renewed for 12 months at a time by purchasing Service Upgrade Renewal (SUR) licenses that match each license installed on the Cerberus DMS.

Renew during the active subscription period or within 12 months of the subscription expiration (grace period) to receive the latest version of software and maintain your Software Upgrade Service subscription.

After the expiration of the grace period, the subscription is inactive and upgrades can only be obtained by purchasing One-time Upgrade licenses.

One-time Upgrade

- Remain on current version and upgrade at your convenience
- Continuously receive high level of maintenance and support of existing software version
- Best performance
- IT security updates
- Upgrade your software and receive support of the latest version of operating system

Every new Cerberus DMS installation includes free 12 month Software Upgrade Service subscription, which entitles the site to optionally install any new version within the first 12 months after the software is activated.

A Cerberus DMS with an inactive Software Upgrade Service subscription, where the subscription period and the grace period have expired, can purchase a One-time Upgrade.

Purchase the Software Upgrade and Subscription (SUS) licenses that match each license installed on the Cerberus DMS to receive the latest version of software and start a new 12 month Software Upgrade Service subscription.

Example: Site with active subscription for Software Upgrade Service

A site with a valid subscription automatically gets all new software releases without any additional charge. The subscription stays valid as long as it is purchased within the 12 month grace period. The site has all the new versions (V2.1, V3.0 and V3.1).

Example: Site with inactive subscription for Software Upgrade Service

The initial subscription for the software upgrade service was not renewed within the grace period and V3.0 was not automatically delivered at the time of the release. With the purchase of a software upgrade and subscription, the upgrade service gets reactivated and versions V3.0 and V3.1 become available for the site.

Please note that software upgrade programs are managed using specific part numbers.

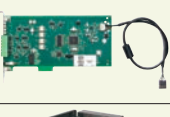

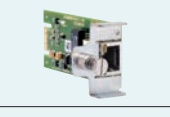

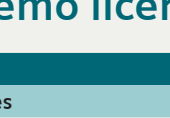

Building your Cerberus DMS Management Station

Addressing your immediate system needs & accommodating for the future

| Included | Option/feature included |
| — | Option not available/orderable separately |
| + | Option available as orderable license |

| BUILDING STEP SUMMARY | Part number | Cerberus DMS Compact | Cerberus DMS Standard |
|--|------------------|----------------------|-----------------------|
| 1. Select feature set & options | | | |
| Feature set & options | | | |
| Compact feature set (CCA-CMPT-DMS) | P55802-Y110-A100 | Included | — |
| Standard feature set (CCA-STD-FSET) | P55802-Y114-A100 | — | Included |
| Summary Bar & Event List, Journaling, Macros, Time-based Reactions, Scheduler, Long-Term Storage, Reports, Standard Drivers (BACnet, OPC DA, Modbus, SNMP) | — | Included | Included |
| Graphic Viewer | — | Included | Included |
| Graphics Editor (CCA-OP-GRAPH-ED) | P55802-Y127-A300 | + | Included |
| Remote Notification (E-mail, pager, text message) | — | Included | Included |
| Assisted Treatment | — | Included | Included |
| Mobile App and Web Service Connections | — | Included (max. 5) | Included |
| Scripting Engine and Event/value-based Reactions | — | — | Included |
| Log Viewer | — | — | Included |
| Distributed Systems | — | — | Included |
| OPC DA Server | — | — | Included |
| 2. Add additional clients | | | |
| Clients | | | |
| Clients included | — | 3 (max. 3) | 1 |
| Add 1 client (CCA-1-CL) | P55802-Y119-A200 | — | + |
| Add unlimited clients (CCA-MAX-CL) | P55802-Y120-A200 | — | + |
| 3. Add the right disciplines | | | |
| Fire | | | |
| Included fire points | — | 500 (max. 2,000) | None |
| Add 100 fire points (CCA-100-FIRE) | P55802-Y158-A412 | + | + |
| Add 500 fire points (CCA-500-FIRE) | P55802-Y158-A452 | + | + |
| Add 5,000 fire points (CCA-5000-FIRE) | P55802-Y158-A453 | — | + |
| Add 10,000 fire points (CCA-10000-FIRE) | P55802-Y158-A414 | — | + |
| Video | | | |
| Included video cameras | — | None (max. 128) | None |
| Video option for external VMS integration | — | Included | Included |
| Video option for embedded VMS (CCA-V-PLUS) [includes Siveillance VMS 200 embedded, 8 monitors, & 8 embedded camera] | P55802-Y159-A300 | + | + |
| Add 16 external cameras (CCA-V-16EXTC) | P55802-Y161-A401 | + | + |
| Add 128 external cameras (CCA-V-128EXTC) | P55802-Y161-A412 | + | + |
| Add 16 embedded cameras (CCA-V-16EMBC) | P55802-Y162-A401 | + | + |
| Add 16 monitors (CCA-V-16MON) | P55802-Y160-A401 | + | + |
| Add 128 monitors (CCA-V-128MON) | P55802-Y160-A412 | + | + |

| Step 4a: Computer packages | | Selection guide |
|---|--|-----------------|
|  | UL/ULC HW category B computer, 22" LCD monitor, SNC card, Software DVD, (no software licenses included) – (DMS-CATB-PKG-SM) | S54465-C76-A2 |
|  | UL/ULC HW category B computer, 42" LCD monitor, SNC card, Software DVD, (no software licenses included) – (DMS-CATB-PKG-LM) | S54465-C77-A1 |
| Step 4b: Build your own package | | |
| Select a computer | | |
|  | UL/ULC HW category A computer, Windows 10, SNC card, Management Station Utility, (No Monitor, Software DVD, or software licenses included) – (UHW-CATA-01) | S54465-C73-A1 |
|  | UL/ULC HW category B computer, Windows 10, SNC card, Management Station Utility, (No Monitor, Software DVD, or software licenses included) – (UHW-CATB-01) | S54465-C73-A2 |
|  | UL/ULC HW category C computer, Windows Server 2012 R2, SNC card, Management Station Utility, (No Monitor, Software DVD, or software licenses included) – (UHW-CATC-01) | S54465-C74-A1 |
|  | UL/ULC HW category D computer, Windows Server 2012 R2, SNC card, Management Station Utility, (No Monitor, Software DVD, or software licenses included) – (UHW-CATD-01) | S54465-C74-A2 |
| Select a monitor | | |
|  | UL/ULC 22" LCD Monitor, desktop mount – (UHW-0000-22L-L) | S54465-C8-A2 |
|  | UL/ULC 42" LCD Monitor, wall mount – (UHW-0000-42L-L) | S54465-C9-A2 |
| Add the Cerberus DMS DVD | | |
|  | Cerberus DMS Installation DVD & Instructions – (DMS-SW-PKG-3P0) | S54465-C77-A2 |

| Network interfaces | | Selection guide |
|---|---|-----------------|
|  | Serial Network Card interface (XNET) between management station and Cerberus PRO Modular, FireFinder XLS, and MXL – (SNC) | S54400-N1-A1 |
|  | Monitoring Only interface (XNET) between management station and Cerberus PRO Modular, FireFinder XLS, and MXL – (MOSA) | S54400-C62-A1 |
| 6. Select network switches | | |
| Network switches | | |
|  | Multi-mode fiber ethernet switch. UL listed – (Scalance X204-2) | 500-650537 |
|  | Single-mode fiber ethernet switch. UL listed – (Scalance X204-2LD) | S54430-A6-A1 |
|  | Ethernet switch (modular) with CAT5, Multi-mode, and Single-Model Ethernet module options. UL & ULC listed – (FN2012-A1) | S54400-B152-A1 |
|  | Electric/CAT5 Ethernet module for modular Ethernet switch (FN2012-A1). UL & ULC listed – (VN2001-A1) | S54400-A42-A1 |
|  | Multi-mode fiber Ethernet module for modular Ethernet switch (FN2012-A1). UL & ULC listed – (VN2002-A1) | S54400-A43-A1 |
|  | Single-mode fiber Ethernet module for modular Ethernet switch (FN2012-A1). UL & ULC listed – (VN2003-A1) | S54400-A44-A1 |

Engineering & demo licenses

| License options | Orderable licenses | Part number (SSN) |
|--|---|-------------------|
| Option 1 – engineering licenses | | |
| <ul style="list-style-type: none"> Time-limited (12 months), renewable licenses Only available as "dongle-based" All Cerberus DMS software features for all versions (size and options) are enabled | CMD.04 LMS Micro Dongle Physical license key for Cerberus DMS (CMD.04 Micro Dongle) | S55802-Y148 |
| | CCA-ENG CC engineering CC engineering license for 12 months | P55802-Y130-A100 |
| Option 2 – one-shot license | | |
| <ul style="list-style-type: none"> Valid for two months – extendable for an additional month Only available without dongle All option features are enabled excluding the size features; to activate the size features, the customer license is needed | CCA-STARTUP-BASE | P55802-Y131-A100 |
| Option 3 – demo license | | |
| <ul style="list-style-type: none"> Valid for 12 months Standard feature set with all options included Includes 2 clients, 50 fire data points, 100 SCADA data points, 50 security data points, 16 external doors, 8 monitors, 8 external and embedded cameras External systems such as SiPass and VMS are not included | CCA-DEMO | P55802-Y140-A100 |

Estimating a project

Hospital

- Understand customer needs**
- Provide maintenance staff a place a central place to Command & Control the fire system in an efficient manner.
 - Provide key personal fire system notifications while onsite or at home.
 - Site graphics are not needed.

- Identify systems to integrate & point count**
- 6 networked Cerberus PRO modular panels
 - Total of 1423 addressable fire points (detectors, pull stations, I/Os)

- Determine the hardware and software characteristics**
- 1x – Cerberus DMS compact feature set (CCA-CMPT-DMS)
 - 2x – License for 500 fire points (CCA-500-FIRE)
 - 1x – Cerberus DMS Computer Package with 22" monitor (DMS-CATB-PKG-SM)

University campus

- Understand customer needs**
- Manage multiple systems in a uniform way across a geographically extended area
 - Provide maintenance staff a place a central place to manage the fire system and monitor several restricted access areas with video feeds.
 - Provide key personal fire system notifications while onsite

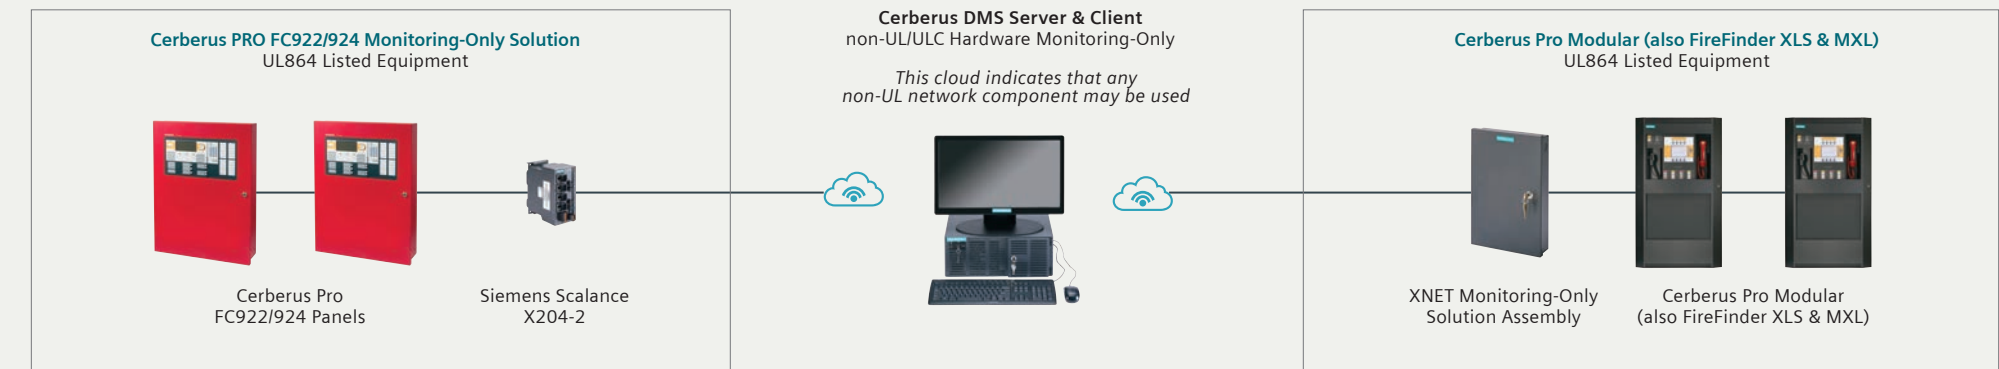

- Identify systems to integrate & point count**
- 10 networked Cerberus PRO Modular panels (Command & Control)
 - 4 networked Cerberus PRO panels (Command & Control)
 - 1 remote stand-alone Cerberus PRO Modular panel (Monitoring-only)
 - Total of 9,130 addressable fire points (detectors, pull stations, I/Os)
 - 5 video cameras

- Determine the hardware and software characteristics**
- 1x – Cerberus DMS feature set (CCA-STD-DMS)
 - 1x – License for 10,000 fire points (CCA-10000-FIRE)
 - 1x – License for Video Option Plus includes SiVMS 200 embedded, 8 monitors, and 8 embedded camera licenses (CCA-V-PLUS)
 - 1x – Cerberus DMS Computer Package with 22" monitor (DMS-CATB-PKG-SM)
 - 1x – XNET Monitoring-only interface (MOSA)
 - 1x – UL-listed Ethernet switch, multi-mode fiber (Scalance X204-2)

Monitoring only solutions

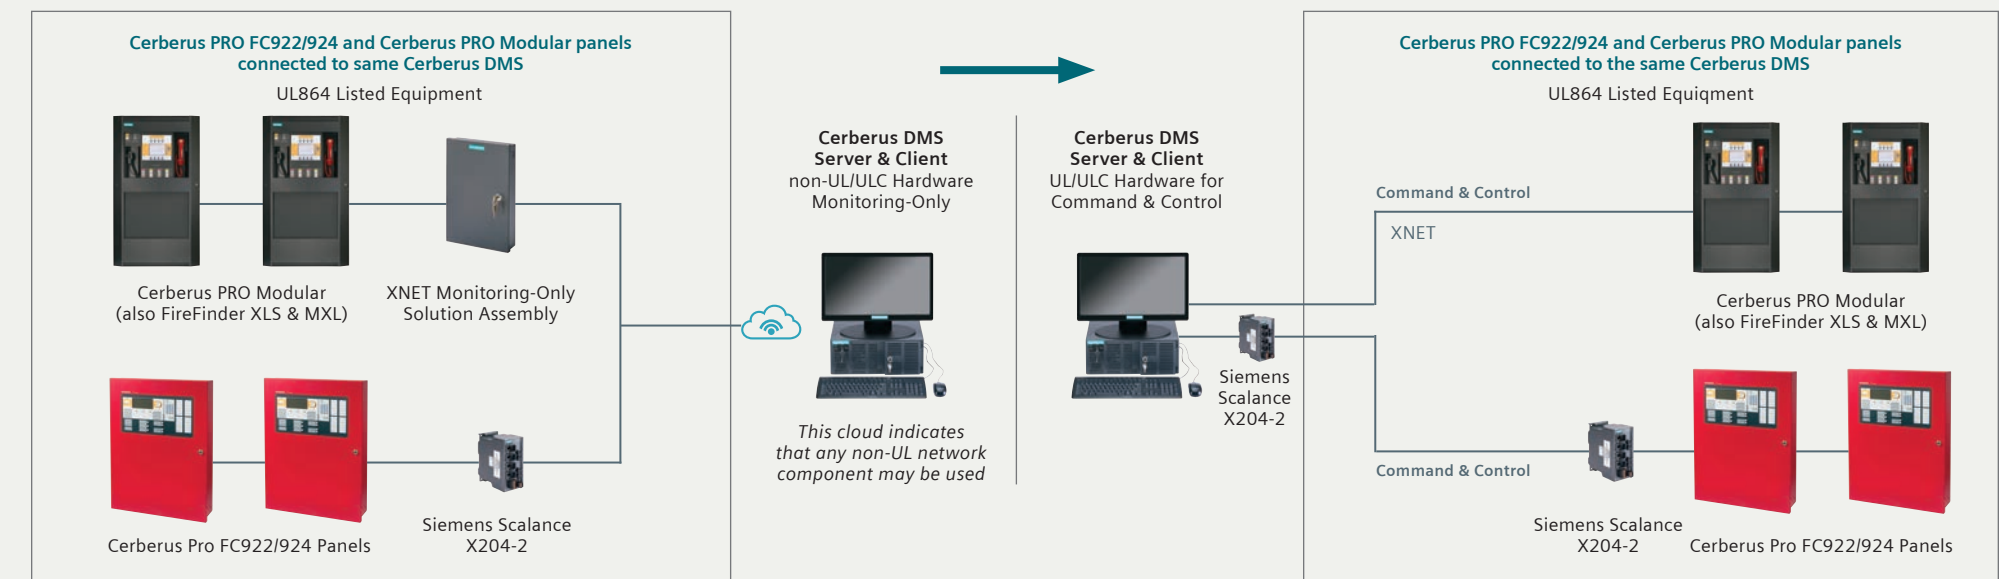

- Cerberus DMS monitoring-only solutions**
- Provide the capability to **monitor one or more fire panels** using the building network infrastructure and commercial-off-the-shelf computers
 - Reduce the cost entry point while providing site-wide situational awareness capabilities and event notifications
 - Provide an entry point to a management station that can grow in size and capability as customer needs expand

More information at: <http://www.brainshark.com/siemens/CDMS-Monitoring-Only-Solutions/>

Start with monitoring only and move to full command & control when customer needs expand!

- Upgrade to UL/ULC server (and clients).
- Cerberus PRO FC922/924 – add additional switch and use dedicated fiber between switches.
- Cerberus PRO Modular – use dedicated copper or fiber with fiber interface modules between server interface card and NIC-C card.

Cerberus DMS migration for NCC and MM8000

Smooth migration with NCC and MM8000 conversion tools

Migration of NCC and MM8000 projects to Cerberus DMS is simple. Cerberus DMS v3.0 provides conversion tools from where it is possible to import MM8000 Composer projects or NCC exported graphics.

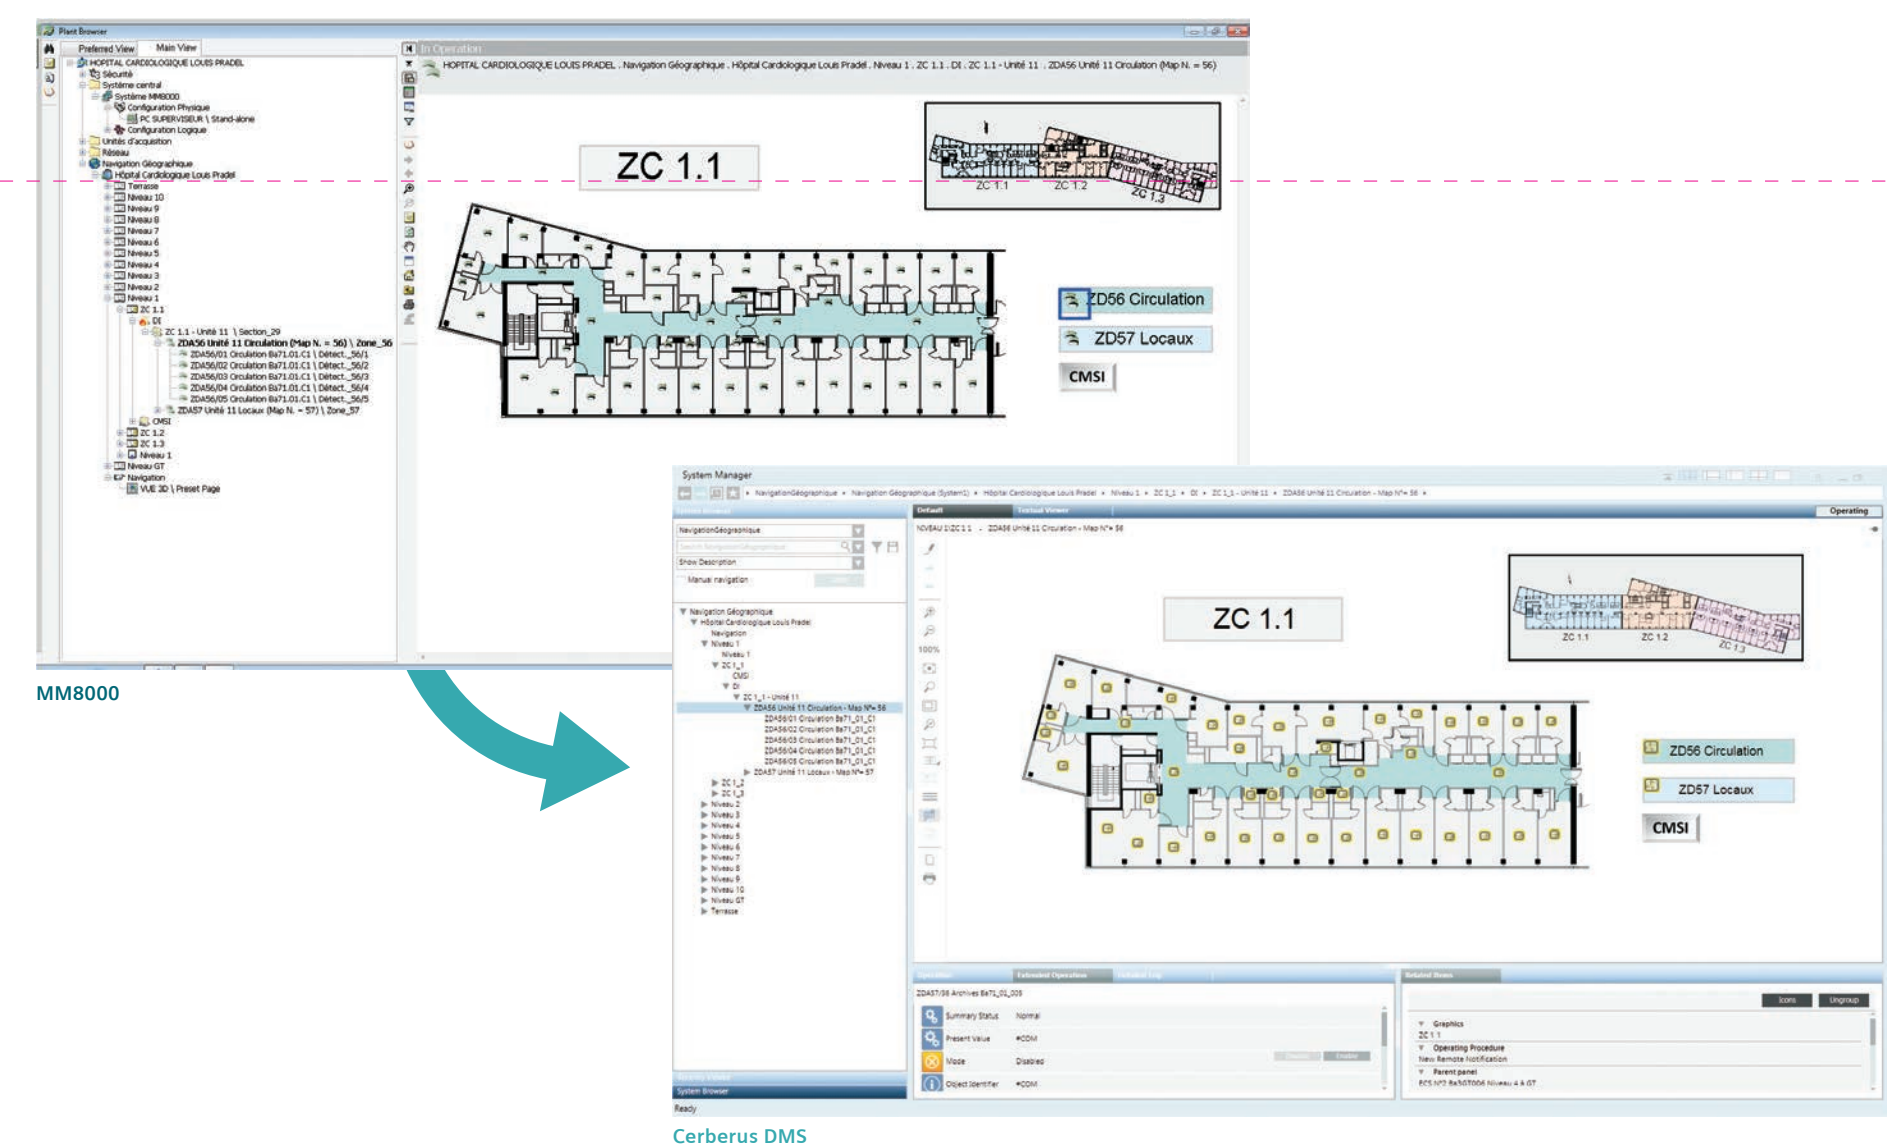

Migration tools available from:

- NCC v8.x and earlier – If migrating NCC graphics, older versions have to be first upgraded to NCC v8.0.
- MM8000 MP4.50 onward – Older versions have to be first upgraded to MM8000 MP4.50 or newer in order to be modernized to Cerberus DMS v3.0.

Enhanced operational capability with Cerberus DMS

- Remote notification (email, SMS, mobile app) for enhanced awareness
- Remote access for offsite diagnostics
- Monitor, command & control multiple fire networks with one system
 - Cerberus PRO FC922/924
 - Cerberus Pro Modular
 - FireFinder XLS
 - MXL
- Extended site monitoring with multiple XNET connections and monitoring only solutions
- Assisted treatment feature to step operators through the procedure to handle an event

Geographical trees and graphics after migration

1 Import configuration file of subsystems into Cerberus DMS

2 NCC: Export graphics from NCC

2 MM8000: Import MM8000 Composer backup file into Cerberus DMS

3 NCC: Import the graphics into Cerberus DMS

3 MM8000: Select the geographical trees and graphics to be converted

License model to support migration

The migration program gives customers the option to move a site from an older management station from Siemens to Cerberus DMS at an attractive discount rate. There are two discount policies that can be applied based on the type and version of the legacy system to be migrated.

| Product/service | Available for | MM8000 v4.80 and higher | MM8000 project with umbrella contract |
|-------------------------------------|--------------------------|-----------------------------|---------------------------------------|
| Privileged Software Migration (PSM) | NCC v8.0 and higher | MM8000 v4.80 and higher | MM8000 project with umbrella contract |
| Standard Software Migration (SSM) | Any older version of NCC | Any older version of MM8000 | LMS modular (all versions) |
