

Transform mobility for everyone

Today, transport providers face multiple challenges to move more people and goods on tracks. At Siemens Mobility, we enable our customers worldwide to realize sustainable mobility solutions. As a leading technology company, we combine the real and digital worlds like no other in rail.

In an open ecosystem, we bring together rolling stock, rail infrastructure, rail services, and software to provide sustainable, comfortable, and cost-effective rail traffic today. Together with our customers and partners, we move people and goods seamlessly and transform mobility for everyone.

We combine technologies from the real and digital worlds for **sustainable, comfortable and cost-effective rail traffic.**

Optimized lifecycle costs
for rail infrastructure and
rolling stock

100% system
availability

Maximized network
capacity

Optimized customer
experience and
processes

Our Portfolio

Rolling Stock

Short-distance, regional and long-distance rolling stock, product and system solutions for passenger and freight transport

Customer Services

Services for rolling stock, rail infrastructure and turnkey systems, throughout the entire lifecycle

Rail Infrastructure

Products and solutions for rail automation and electrification for mainline, freight and mass transit

Turnkey

Complete rail solutions from project management to system integration of the entire rail portfolio and beyond

Software

Software for train planning, inventory, reservation and ticketing, and Mobility-as-a-Service (MaaS)

Rolling Stock

Is a global supplier of **rolling stock and system solutions**

Locomotives and Coaches

Commuter and Regional

Metros

Components

Light Rail and VAL

Customer services

provides services for rolling stock and rail infrastructure throughout the entire lifecycle, **giving rail traffic a powerful and reliable basis**

Spare part services

Maintenance services

Operation services

Digital services

Qualification services

Upgrade services

Rail Infrastructure

Delivers digital solutions, **products & complete systems** for smart mobility solutions

Mass Transit

Mainline

Products

Electrification

Turnkey

Realizes **impactful rail projects for its customers** – from planning integrated solutions and providing latest technology to financing and maintenance

A metro system for a fast growing city

Network expansion for a megacity

Rail system for decarbonization

A metro system for certified carbon neutrality

Software

Helps traffic operators with digital solutions to **plan, analyze and run their services smoothly**, and enabling them to provide their customers with a travel companion

Train Planning System (TPS)

Mobility-MaaS-Service

Public Transport Ticketing

Demand-Responsive Transport (DRT)

Inventory, Reservation & Ticketing

How we transform mobility in the Middle East and Africa

The world's longest driverless metro in Riyadh

This massive public transit initiative supports the city's rapid growth and the country's 2030 vision

Electrification and maintenance of Metro Al Mashaer

It's the highest capacity metro line in the world with 72,000 passenger movements per hour

First cross-border rail project in the Arab world: Abu Dhabi-Sohar signaling

The new 238 km line significantly reduces travel time within the GCC, and enhances our position as an ETCS pioneer

2000 kilometer long high-speed rail project in Egypt

Anticipated to be the sixth-largest high-speed network in the world that will be accessible to 90% of the Egyptian population in 60 cities

Velaro high-speed trains in Türkiye

19 Velaro trains have achieved a total mileage of 35 million kilometers and transported over 33 million passengers since 2015

A unique tram system: Education City, Qatar

A network without overhead contact lines; 19 Avenio trams that have received multiple design awards; and project that includes signaling, depot workshop equipment, operation and maintenance

Siemens Mobility Türkiye

Recent Highlights in Türkiye:

Velaro Türkiye – Flagship HighSpeed Rail Reference

Siemens Mobility delivered **19 Velaro highspeed trains** to TCDD, establishing one of the strongest Velaro references globally.

- **35+ million km** completed
- **33+ million passengers** transported
- **>99% availability** since 2015
- Deliveries completed **ahead of schedule**
- Full **maintenance & lifecycle services** provided locally

Distance of **35+ million km, as of 2025**

National Rail Infrastructure & Signaling

Siemens Mobility plays a key role in Türkiye's rail modernization with advanced signaling and train control solutions.

- **Marmaray / Bosphorus Rail Crossing**
One of the world's most complex intercontinental rail systems.
- **Halkalı–Ispartakule Line**
ETCS Level 1 signaling for speeds up to **200 km/h**, part of the EUconnected highspeed corridor.

 **200 km/h**
ETCS Level 1 signaling

About us in Türkiye:

Local Presence, Global Expertise

Siemens Mobility Türkiye
Siemens Mobility Ulaşım Sistemleri A.Ş.
Esentepe Mah. Yakacık Cad. No:111 21/2 Kartal
İstanbul, Türkiye

Vectron Locomotives – Growing Freight Footprint

Türkiye is emerging as a future market for modern freight traction.

- Vectron multisystem locomotives** supply.
- Local **maintenance & service activities** by Siemens Mobility Türkiye.
- Longterm footprint and service presence established.

 **Longterm**
footprint and service presence

- **Yerköy–Sivas HighSpeed Line**
-ETCS Level 1 in operation, ETCS Level 2 upgrade ongoing, enabling speeds up to **250 km/h**.
-ETCS Level 1/2 modernization, interlocking & control center integration
-Longstanding partnerships with leading Turkish EPCs.

 **250 km/h**
ETCS Level 2 upgrade
