

Enhancing safety

Scenario

Local alerts

Students, faculty, and staff need to be aware of local alerts, such as severe weather, Amber alerts, and other campus security situations

Significance

Public safety

When people on campus are aware of severe weather or active security alerts, they can prepare and make decisions that enhance campus safety

Partner

LSC Technologies

Rely on exterior lighting infrastructure with LED lighting beacons, which can alert people nearby of public safety events

Integration

LSC Technologies + Desigo CC

In case of severe weather, for example, Desigo CC can trigger the exterior light beacons to alert people nearby of the coming weather event

Benefits

Protecting people

Enhancing the safety of everyone on campus is of utmost importance to administrators and facility managers alike
