Interim Report

Siemens Financieringsmaatschappij N.V.

October 1, 2020 – March 31, 2021

siemens.com/SFM

Siemens Financieringsmaatschappij N.V.

Contents

Introduction

The Interim Report of Siemens Financieringsmaatschappij N.V. (the "Company" or "SFM") has been prepared in accordance with Dutch law and IAS 34, Interim Financial Reporting, as adopted by the European Union (EU). The Condensed Interim Financial Statements of the Company have been prepared in accordance with International Financial Reporting Standards (IFRS), as adopted by the EU. This Interim Report should be read in conjunction with our Annual Report for fiscal year 2020, which includes a detailed analysis of our operations and activities. The Annual Report 2020 of the Company was prepared in accordance with International Financial Reporting Standards, as adopted by the EU and with Part 9 of Book 2 of the Dutch Civil Code.

Interim Management Report

General

Siemens Financieringsmaatschappij N.V. is registered at Prinses Beatrixlaan 800, 2595 BN The Hague, the Netherlands, a public company, founded on September 14, 1977 under the laws of the Netherlands and acts under its legal and commercial name Siemens Financieringsmaatschappij N.V.

The Company acts as a finance company for the benefit of Siemens AG and Siemens AG Group companies (Affiliated Companies). The Company is a 100% subsidiary of Siemens AG Berlin / Munich.

The Company is part of the Group Funding section of Siemens Controlling and Finance Financing (CF F). Group Funding and SFM as an issuer are responsible for safeguarding the Siemens Group's liquidity by establishing the necessary capital market instruments such as commercial paper, medium-term notes and long-term bonds.

Objectives

The objectives of the Company, in accordance to article 3 of the Articles of Association, are participating in, financing and managing companies, enterprises and other business undertakings, withdrawing and lending money and, in general conducting financial transactions, issuing securities and doing all such further actions and taking measures as are consequential or may be conducive thereto in the broadest sense.

Strategy

The Company is a funding party of the Affiliated Companies. Funding is found by borrowing on the money and capital markets by issuing loans, bonds, notes and commercial papers. The Company has no participations.

Given the objectives of the Company, the Company is economically interrelated with the ultimate holding company, Siemens AG, Germany. The Company will continue its activities as financing company for Affiliated Companies.

Risk management

Under responsibility of the Management Board and in cooperation with Siemens AG systems for internal control and for the management of risks within the Company were set up to identify and subsequently manage the credit, interest rate, foreign currency exchange rate and liquidity risks which could endanger the realization of the objectives of the Company. For a detailed description of the risks defined below, we refer to our Annual Report 2020.

COVID-19

The COVID-19 crisis has affected the financial markets worldwide. Key uncertainties of the crisis are its duration and the economic cost of the lockdowns. This high degree of uncertainty makes it difficult to provide a detailed and reliable long-term impact analysis at this moment.

Given that SFM is economically interrelated with its parent company Siemens AG, the Company directly benefits from Siemens AG's own COVID-19 mitigation measures. Throughout the Siemens Group, various task forces and crisis teams have been set up across all functions to diligently monitor and mitigate the diverse effects related to COVID-19, with a focus on securing the health and safety of its employees and business continuity. The Company has also adopted its own measures for the continuation of its activities and business in the current scenario.

Based on the latest developments as well as the fact that all debt instruments of SFM are unconditionally and irrevocably guaranteed by Siemens AG (whose credit rating is A1/A+, which is unchanged since the publication of the Annual Report FY2020), the Company currently expects limited impact on its business.

At the date of issuance of this report, the Company has no reason to believe that the impact of COVID-19 poses a threat to its ability to continue as a going concern.

Credit risk

The Company is exposed to credit risk in connection with its significant size of loans granted to the Affiliated Companies which are located in the Netherlands, Germany and in the United States, and its derivative instruments. Credit risk is defined as an unexpected loss in financial instruments if the contractual partner is failing to discharge its obligations. Valuation and collectability of these receivables and instruments depend upon the financial position and creditworthiness of the companies involved and of Siemens AG as a whole. Receivables from Affiliated Companies are covered by a Limited Capital at Risk Agreement between Siemens AG and the Company, thus mitigating the credit losses of those receivables to a maximum of €2 million.

The Company makes impairment allowances for Receivables from Affiliated Companies according to the General Approach of IFRS 9, which consists of 3-stage model differentiating between 12-months expected credit losses and lifetime expected credit losses.

Interest rate risk

The Company's interest rate risk exposure is mainly related to fixed-rate notes and bonds. It arises from the sensitivity of financial assets and liabilities to changes in market rates of interest. The Company seeks to limit such risks either by lending onwards with the same structure to Affiliated Companies or by entering into interest rate derivative financial instruments such as interest rate swaps, for which hedge accounting is applied. For designated and qualifying fair value hedges, the changes in the fair values of the hedging derivatives and the hedged items are recognized in the Statement of Comprehensive Income in 'fair value changes of financial instruments'. The changes in the ineffective portion of the fair value hedge relationships can create volatility in the result of the Company.
As the Company entered into an agreement with Siemens AG limiting the capital at risk for the Company and ensuring fair, arm's length interest compensation for activities performed, the sensitivity of the Company's results to changes in market interest rates is mitigated. Expected impact of the Interest rate risk is considered to be low.

Foreign currency exchange rate risk

Foreign exchange rate fluctuations may create unwanted and unpredictable earnings and cash flow volatility. In order to minimize exchange rate risks the Company seeks to lend and borrow in the same currency. All such derivative financial instruments are recorded at fair value on the Statement of Financial Position and changes in fair values are charged to net income.
For the six month period ended March 31, the U.S. dollar and British pound positions are caused by several bonds that serve to finance several loans to Affiliated Companies in the same currency. The total of these loans covers approximately the full value of the bonds in the respective currency. Therefore, the remaining foreign currency exposure is low.
In addition to the above, the existing Limited Capital at Risk Agreement takes foreign currency results into account. The sensitivity of the Company's results to changes in currency exchange rates is mitigated and the expected impact of the foreign currency exchange rate risk is considered to be low.

Liquidity risk

Liquidity risk results from the Company's potential inability to meet its financial liabilities when they become due, at reasonable costs and in a timely manner. As the Company participates as potential issuer in different programs unconditionally and irrevocably guaranteed by Siemens AG this risk as well as the impact considered to be low.

Business Review

The Company participates as issuer in a €30.0 billion program for the issuance of Debt Instruments (DIP) and in a US$9.0 billion global commercial paper program, both established by Siemens AG. Siemens AG unconditionally and irrevocably guarantees all debt securities of the Company.
During the six month period ended March 31 2021, one debt instrument with a total nominal value of €1.25 billion matured and was redeemed.

Also in March 2021 the Company issued bonds in 7 tranches with a total nominal value of US$10.0 billion, maturing in 2023, 2024 (one floating rate note and one fixed rate note), 2026, 2028, 2031 and 2041. The net proceeds were on-lent to affiliated companies to finance the acquisition of Varian Medical Systems Inc. by Siemens Healthineers.
In FY 2020 the Company had entered into a €15.2 billion bridge loan facility involving Siemens AG and an external banking syndicate as part of the planned acquisition of Varian Medical Systems Inc. by Siemens Healthineers AG. This facility was subsequently cancelled on 31st March 2021.

In February 2021, the Company signed two new term loans with external banks totaling US$0.5 billion. Both facilities have a term of one year with a one-year extension option.

The Company's balance sheet increased from €39.1 billion to €46.8 billion mainly due to the above-mentioned issuance. Net interest income remained stable during the period, increasing by €1.3 million to €7.1 million for the six month period ended March 31 2021, compared with €5.8 million in 2020.

After taking account of some minor changes in the fair value of derivatives and movements in the currency result, the Company recorded a profit after taxes of €4.5 million for the six month period ended March 31 2021, compared with a profit after taxes of €3.7 million in 2020.

Tax

In fiscal year 2017 a joint German Dutch tax audit was conducted by the German and Dutch tax authorities in order to confirm the transfer pricing policy by the Company for the fiscal years 2017 up to and including 2019. As a result the Limited Capital at Risk Agreement was updated for the Company in fiscal year 2017.
The agreement between the Dutch and German tax authorities expired on September 30, 2019 and the tax authorities have not agreed upon its prolongation. Based on a benchmark research conducted in 2019, it was confirmed that the transfer pricing policy as agreed in the agreement is still at arm's length, as such there is no need to adjust the Limited Capital at Risk Agreement. Therefore, SFM will continue to use the current transfer pricing policy. This was communicated to the German and Dutch tax authorities.

Since October 1, 2019 SFM is part of a fiscal unity headed by Siemens International Holding B.V. As a consequence, the Company is liable for any corporate income tax debt arising from any member of this fiscal unity after October 1, 2019.

Other items

All personnel are employed by the regional company Siemens Nederland N.V.

Notes to Condensed Interim Financial Statements

1. Basis of presentation

Reporting entity

Siemens Financieringsmaatschappij N.V. is a company domiciled in the Netherlands. The address of the Company's registered office is Prinses Beatrixlaan 800, 2595 BN The Hague, the Netherlands. Registration is in The Hague Chamber of Commerce at September 14, 1977, number 27092998. The Company has chosen Luxembourg as its home member state, pursuant to the law on transparency requirements for issuers of securities. The Company acts as a finance company for the benefit of Siemens AG and Siemens AG Group companies (Affiliated Companies). Since September 28, 1992, the Company is a 100% subsidiary of Siemens AG Berlin/Munich, which is also the ultimate owner of the Company. The Company's Interim Financial Statements are included in the Siemens AG Consolidated Interim Financial Statements.

Condensed Interim Financial Statements

These Interim Financial Statements are condensed and prepared in compliance with IAS 34, Interim Financial Reporting, as adopted by the European Union, and shall be read in conjunction with the Annual Report 2020 of the Company, which was prepared in accordance with International Financial Reporting Standards, as adopted by the European Union and with Part 9 of Book 2 of the Dutch Civil Code.

The published figures in these Condensed Interim Financial Statements are unaudited.

Due to rounding, numbers presented throughout this and other documents may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.
This Interim Report was authorised for issue by the Management Board on May 07, 2021.

Significant accounting policies

These Condensed Interim Financial Statements apply the same accounting principles and practices as those used in the 2020 annual financial statements except for the amendments made regarding Interest Rate Benchmark Reform. In 2019, The International Accounting Standards Board has published Interest Rate Benchmark Reform (Amendments to IFRS 9, IAS 39 and IFRS 7) with the aim to provide relief to the expected impact of the interest rate benchmark reform on hedge accounting in two phases. Phase 1 is a temporary relief for transition period and phase 2 is a relief for when the IBOR is replaced with the RFR. The Company is adopting the phase 1 amendments starting from financial year 2021. The impact of various changes is explained below:

a) All of the derivatives have been switched to RFR with no material impact.
b) Furthermore, the Company is in a process to assess the financial impact for bonds and loans.

The relief during the Phase 1 is related to the hedging relationships which are directly affected by the interest rate benchmark reform. Accordingly, hedge accounting requirements must be applied as if the benchmark interest rate, on which the hedged cash flows and cash flows from the hedging instrument are based, were not changed by the benchmark interest rate reform. Consequently, the amendments to IFRS 9 and IAS 39 ensure that hedge accounting is not required to be discontinued specifically as a result of the benchmark interest rate reform.

Adjustments and estimates

The preparation of the Condensed Interim Financial Statements in conformity with IFRS requires that the management makes adjustments and estimates and specifies the assumptions that influence the application of the accounting policies and the reported value of assets and liabilities, and of income and expenses. The actual results may deviate from these estimates.

Unless explained otherwise, the estimates made by the management in drawing up these Condensed Interim Financial Statements are similar to those used by drawing up the Annual Financial Statements 2020.

2. Interest income and expenses

Details of interest income and expenses	Six months ended March 31,	
(in millions of €)	**2021**	**2020**
Interest income on Receivables from Affiliated Companies	318.2	374.3
Other interest income	-	27.5
Interest related income	7.4	-
Interest income	**325.6**	**401.8**
Other financial income	**0.1**	**4.7**
Interest expenses on financial debt	(352.7)	(408.9)
Therein: Amortization of (dis-) agio	*0.8*	*(0.2)*
Amortization of transaction costs	*(7.2)*	*(6.0)*
Interest expenses on Liabilities to Affiliated Companies	(0.0)	(0.1)
Interest related expense	-	(24.4)
Interest result on Interest rate swaps [1)]	38.7	37.5
Interest expenses	**(314.0)**	**(395.9)**
Other financial expenses	**(4.6)**	**(4.8)**
Net interest income (expenses)	**7.1**	**5.8**

1) As the interest rate swaps are used as interest hedging instruments for issued debt the interest income and expenses are displayed as a net value within this position.

The Company receives/pays compensation for loans issued to/borrowings from Affiliated Companies which are early terminated. These amounts are presented in Other interest income and Other interest expenses.

The Company applies the Siemens AG worldwide policy for fixing interest rates for receivables from and liabilities to Affiliated Companies at arms' length prices. The Company entered into an agreement with Siemens AG limiting the capital at risk for the Company and ensuring fair, arms' length interest compensation for activities performed. When the total actual interest result differs from the total agreed interest result the difference is settled following this agreement and stated as Interest related income or Interest related expense.

Some interest rates have been set below zero. This leads to the situation that the Company has to pay interest for bank deposits and Receivables from Affiliated Companies which is presented in Other financial expenses (negative interest income), and receives interest for Liabilities to Affiliated Companies, which is presented in Other financial income (negative interest expenses).

The total interest result varies due to market interest changes, changes in portfolio of loans and borrowings and the agreement with Siemens AG as mentioned.

3. Fair value changes of financial Instruments

Derivatives	Six months ended March 31,	
(in millions of €)	**2021**	**2020**
Change in fair value of hedged instruments	*(96.9)*	*67.1*
Change in fair value of hedged items	*97.7*	*(66.7)*
Ineffective portion of fair value hedges	0.8	0.4
Fair value changes of currency swaps	(0.0)	0.1
Total of changes in Derivatives	**0.8**	**0.5**

The effective portion of fair value hedges consists of the change in the fair values of the hedging instruments (interest rate swaps) and the change in the fair values of the hedged items (hedged part of notes, bonds and loans from banks). The presented ineffective portion is mainly caused by the use of the fixed rate in the hedged item and the floating rate in the hedging instruments. In addition, a credit value adjustment on interest rate swaps is considered.

4. Other general expenses

The other general expenses mainly relate to costs from the regional company Siemens Nederland N.V. related to the staff working for SFM. The total general expenses for the first six months ended March 31, 2021 amounted to €1.2 million. The Company recognized an allowance for expected credit losses for the first six months of €-0.7 million (March 31, 2020: €-0.4 million) according to IFRS 9 in respect of Receivables from Affiliated Companies.

5. Income tax

Income tax expense is recognized based on management's best estimate of the effective income tax rate for the fiscal year. Additional information regarding the tax agreement with German and Dutch authorities is disclosed in the Interim Management Report part of this Interim Report.
Since October 1, 2019 the Company is part of a fiscal unity headed by Siemens International Holding B.V. As a consequence, the Company is liable for any corporate income tax debt arising from any member of this fiscal unity after October 1, 2019.

6. Debt

Debt (in millions of €)	**March 31, 2021**	**Sept 30, 2020**
Notes and bonds (< 1 year)	(5,110.5)	(3,532.4)
Notes and bonds (> 1 year)	(40,136.6)	(34,410.2)
Total Notes and bonds	**(45,247.1)**	**(37,942.6)**
Loans from banks (< 1 year)	(426.4)	-
Loans from banks (> 1 year)	(852,4)	(853.5)
Total Loans from banks	**(1,278.8)**	**(853.5)**
Total Debt	**(46,525.9)**	**(38,796.1)**

During the six month period ended March 31, 2021, the 1.75% 2013/2021 EUR fixed-rate instruments of €1.25 billion (as of March 12, 2021) matured and was redeemed.

In March 2021, the Company issued instruments totalling US$10.0 billion (€8.4 billion equivalent) in seven tranches maturing in 2023, two in 2024 (one floating rate note and one fixed rate note), 2026, 2028, 2031 and 2041.

In February 2021 the Company signed two new term loan facility agreements with external banks totalling US$0.5 billion (€0.4 billion as of February 05, 2021). The new facilities both have a term of one year, expiring in February 2022, each with a one-year extension option.

In FY 2020 the Company entered into a €15.2 billion bridge loan facility involving Siemens AG and an external banking syndicate as part of the planned acquisition of Varian Medical Systems Inc. by Siemens Healthineers AG. The bridge loan facility was cancelled by the Company on 31st March 2021.

During the six month period ended March 31, 2021, an unused syndicated credit facility of €7.0 billion was extended until 2026 by using the last extension option.
An unused syndicated credit facility of €3.0 billion matured in December 2020.

7. Dividends

In December 2020 dividends amounting to €8.4 million, relating to the fiscal year ending in September 30, 2020 were paid.

8. Additional disclosure on financial instruments

In the six months ended March 31, 2021, there were no changes in valuation techniques used and no transfers from one level of the fair value hierarchy to another level.

9. Events after reporting date

Between March 31, 2021, and May 07, 2021, no events occurred that would have resulted in an adjustment to the book values of the Company.

10. Related parties

During the first six months of this fiscal year, the Company lent the proceeds of issuances of notes and bonds to related parties only. The following table provides information regarding loans to, deposits from, interest related income and derivatives with related parties during the six months ended March 31, 2021:

Cash equivalents	Six months ended March 31, 2021	March 31, 2021	Six months ended March 31, 2020	Sept 30, 2020
(in millions of €)	Interest result[1)]	Deposits	Interest result[1)]	Deposits
Siemens AG	(0.3)	17.0	(0.1)	120.1

[1)] Interest income and expenses are displayed as a net value within the Interest result position.

Receivables from Affiliated Companies	Six months ended March 31, 2021	March 31, 2021	Six months ended March 31, 2020	Sept 30, 2020
(in millions of €)	Interest income	Loans	Interest income	Loans
Germany	50.6	5,952.5	94.6	5,534.1
The Netherlands	211.9	35,852.0	226.1	28,514.0
United States of America	55.7	4,440.2	58.2	4,364.8
Total	**318.2**	**46,244.7**	**378.9**	**38,412.9**

The receivable position with Affiliated Companies in Germany relates completely to positions with Siemens AG, the parent. The other positions relate to other related parties.
The total amount of Receivables from Affiliated Companies as of March 31, 2021 includes an allowance for expected credit losses in amount of €4.4 million (Sept 30, 2020: €3.7 million).

Liabilities to Affiliated Companies (in millions of €)	Six months ended March 31, 2021 Interest expenses	March 31, 2021 Deposits	Six months ended March 31, 2020 Interest expenses	Sept 30, 2020 Deposits
