VIRTUAL PROCESS AUTOMATION SOLUTIONS CENTER

Experience the future of process automation

Are you bored with the classic ways to learn about industry information? Do you feel like your learning has plateaued? Do you need something new and exciting to reignite your interest in process automation?

You're in luck! The next evolution of the Siemens Virtual Process Automation Solutions Center is here!

Updated with new interactive features, videos, customer stories, and more, this virtual technology showcase allows you to walk through the world of process measurement and control solutions – without ever having to move your feet. Hear directly from our experts about up-and-coming trends in industry standards as well as innovative technologies such as web-based process control, digitalization, integration of smart instrumentation, remote monitoring support, and more. Navigate around the room and click on the pop-up boxes to focus on the information that's most important to you.

Whether your role is engineering, operations, plant maintenance, or even plant management, we offer tailored information to fit your needs. There are no frequent visitor miles, but you'll be miles ahead.

What are you waiting for? Take a virtual tour today:
