# KPI Management with XHQ

Faster deployment, better solutions

[siemens.com/xhq](https://siemens.com/xhq)

## Rapid Start with Best Practices

**XHQ Best Practices Packages** are pre-customized solution packages that can be integrated into existing XHQ solutions to address common business problems.

### You get:

- Views, tools, and components that plug into any XHQ system
- High-value, best practice approaches based on decades of project experience
- Field-proven scalability for multiple business areas
- Ability to scale from small to even the biggest facilities
- Complete flexibility to tailor to your unique need

Currently there are six XHQ Best Practices Packages available:

- Batch Analysis
- Energy Management
- KPI Management
- Supply Chain Intelligence
- Quality Management
- Maintenance Management

## KPI Management with XHQ

The KPI Management solution package helps continuously improve your processes.

It allows management - indeed, everyone, see how the business is performing in visual, actionable displays.

### Who benefits?

Utilities managers, production managers, plant managers and any stakeholder.

### What is in it:

- Intuitive web based user interface for creating and visualizing KPIs
- Calculation and visualization of KPIs: bar charts, time series, actual vs target, etc.

## The benefits you get:

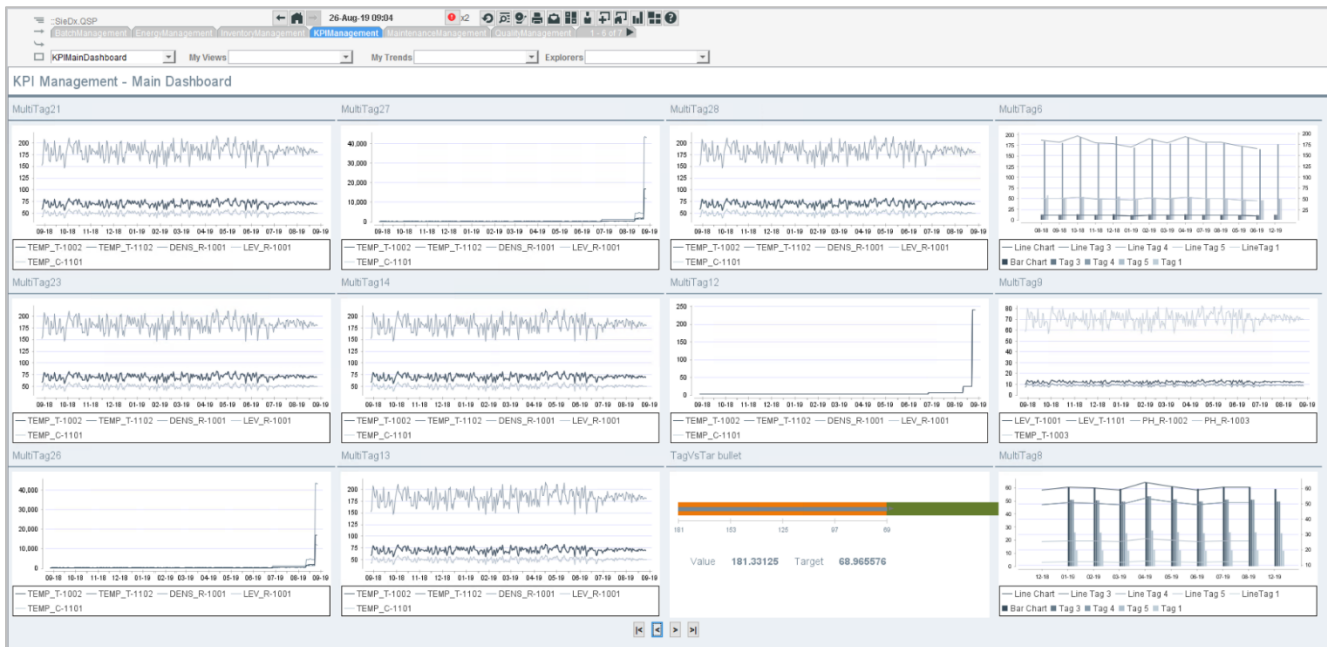

- Enables creation of high value visuals for presenting KPIs in a way that end users will find accessible and understandable
- Ensure high quality, accurate and consistent visuals that can be easily tailored to your corporate visual standards and style guides
- Works with data already available in XHQ
- The KPIs can be correlated with other data

## Use cases: KPI Management

- Quickly put together relevant dashboards with KPIs important to a business unit
- Create relevant KPI dashboards for many levels of a business, from small groups to the enterprise
- KPI visuals enable easy drill-down into details to quickly understand what contributes to poor performance

## XHQ Operations Intelligence Software

- ✓ Simple access to complex data
- ✓ Real-time information
- ✓ Visual integration of data from different sources
- ✓ Situational awareness
- ✓ Collaboration at all levels
- ✓ Faster and better decisions, anytime, anywhere
