The Siemens Industry Mall is your gateway to the convenient world of automation and drive technology. Here you will find comprehensive online information and services relating to more than 135,000 products and systems with more than 30 million variants.

Regardless of the stage you have reached in your procurement process: Siemens offers you a fitting solution. From the selection of products, through the ordering and tracking process, to services and training, the Industry Mall facilitates the complete processing of your purchase. Directly and at any time or location.

Note:

To get the best from the Industry Mall your browser should be at least Microsoft Internet Explorer 7 or Mozilla Firefox 4. We recommend that you always use the latest version of the above browsers.

Whether you are buying contactors, programmable logic controllers, software or motors – with just a few clicks you can easily use any of the following options via the innovative user interface:

- Detailed information with product data, diagrams, certificates and dimension drawings
- Simple system configuration
- Checking your individual customer prices
- Availability check
- Online ordering option
- Order tracking/overview
- Quick access to suitable training offers and services

The Siemens Industry Mall structures your individual processes transparently, efficiently and cost-effectively. This makes e-business easier than ever before!

But see for yourself.
Our guide will explain the key functions to you on the following pages.

Introduction and registration

Industry Mall Homepage

The screenshot shows the Siemens Industry Mall homepage. At the top left is the Siemens logo. Below it, the text 'INDUSTRY MALL' is visible. A navigation bar includes links for Home, Language, Contact, Help, Site Explorer, and a Product Search field. On the left, there is a 'Product Catalog' menu with options like Drive technology, Automation technology, Building technologies, Low-Voltage Controls and Distribution, Safety Systems - Safety Integrated, System solutions and products for branches, Service, and a link to '... and everything else you need'. A 'Minimize' button is next to the menu. Below the menu is a link to 'Configurator Overview'. On the right, there is a 'Register now!' link and a 'Login' link. The main content area is titled 'Industry Mall' and describes it as a 'Product catalogue and online ordering system for the Industry Automation and Drive Technology'. It includes a welcome message, a list of products, and a section for 'International Automation News' with several news items. An orange line with arrows points from the 'Register now!' and 'Login' links to the corresponding steps in the text below.

Even if you do not log in, some functions of the Industry Mall are available to you in the guest catalog, such as information on product details or product configuration. To get the full benefit of the Industry Mall, however, registration is necessary – free of charge, of course.

Simply click on “Register” and you will be guided through the registration process in a few steps.

As soon as you have received confirmation of your approval you can select the menu option “Login” to log in to the Industry Mall using the user data (login and password) assigned during registration.

Introduction and registration

First Login

The screenshot shows the Siemens Industry Mall website. The header includes the Siemens logo and the text 'INDUSTRY MALL'. Below the header is a navigation bar with links: Home, Language, Contact, Help, Site Explorer, and Product Search. The main content area is titled 'Industry Mall' and describes it as a 'Product catalogue and online ordering system for the Industry Automation and Drive Technology'. Below this is a registration form with three steps: 1. Welcome, 2. Access Data, and 3. Company Data. Step 2 is currently active. The form fields include 'Login *', 'Password *', and 'Confirm Password *'. To the right of the password fields, there are instructions: 'The characters: " , & and \ are not allowed.' and 'The password must be at least 6 characters in length and must also fulfill 3 of the following criteria: - Uppercase (A-Z) - Lowercase (a-z) - Numbers (0-9) - Special characters'. An orange arrow points from the text 'Registration in the Industry Mall takes place in four steps...' to the 'Login *' field.

Registration in the Industry Mall takes place in four steps. First you receive the registration instructions on the "Welcome" screen. You can then select a user name and password. Please observe the password criteria that are displayed here.

Once you have entered all the required data, the last step just involves accepting the general terms and conditions of use and then you can submit your registration application by clicking "Finish."

Note: Treat your access data with maximum confidentiality. Anyone with access to your data can log in to the Industry Mall and, for example, view your conditions or place an order in your name.

Introductory Page

The screenshot shows the Siemens Industry Mall website interface. At the top, the Siemens logo is on the left, and the user 'Max Mueller (Test)' is logged in on the right. Below the header is a navigation bar with links: Home, Language, Contact, Help, Site Explorer, and Product Search. A central menu on the left lists categories like Drive technology, Automation technology, Building technologies, Low-Voltage Controls and Distribution, Safety Systems, Safety Technology for Factory Automation, Safety Technology for Process Automation, Drives, System solutions and products for branches, Service, and a catch-all option. The main content area is divided into three sections: 'Current User Tips' with a 'What's new?' sub-section listing updates like the 'technical selection assistant' and 'contact person search'; 'International Automation News' with recent news items; and a 'Configurator Overview' link at the bottom left. Annotations with orange arrows point from the text blocks below to specific elements: one to the 'Configurator Overview' link, one to the 'Current User Tips' section, one to the 'International Automation News' section, and one to the central menu.

Once you are successfully logged in, you have unrestricted access to product, price and availability information.

Regional information keeps you updated about changes or new features in the Industry Mall.

Current news of the Siemens Industry Sector.

Via the configurator overview page you can access a listing of all product configurators available in the Industry Mall. These help you to select your systems and products and customize them individually.

The centrally located menu options lead you quickly to the respective functions in the Industry Mall. And remember, whatever page you are on the central menu options are always located in exactly the same place.

Linkbox

- Presales Info
- Catalog and ordering system online
- Technical Info
- Service & Support
- Training
- Contact & partners

- Navigate through the product tree to find the product category you are looking for.

- Find detailed product information, ordering data, accessories and configurators.

- Wherever you are: access the Industry Mall catalog via the catalog menu.

Expand the main product categories or directly open a product category.

The "breadcrumb" menu bar (directly beneath the main menu bar) shows you how you reached the currently displayed product information and enables you to retrace your steps if so required.

- The Linkbox on the right offers you to get additional product information, support or contact persons. More details are available on page 11 "Linkbox."

Product Search

The screenshot shows the Siemens Industry Mall website. The main navigation bar includes links for Home, Language, Contact, Help, Site Explorer, and a search field containing '6ES7'. The breadcrumb trail reads: Home > Automation technology > CPU 317F-2 DP > 6ES7317-6FF04-0AB0. The product page for 6ES7317-6FF04-0AB0 is displayed, showing a SIMATIC S7-300 CPU 317F-2 DP. The product description includes: SIMATIC S7-300, CPU 317F-2DP, CENTRAL PROCESSING UNIT WITH 1.5 MBYTE WORKING MEMORY, 1. INTERFACE MPI/DP 12MBIT/S, 2. INTERFACE DP-MASTER/SLAVE, MICRO MEMORY CARD NECESSARY FOR USE WITH SOFTWARE OPTION S7 DISTRIBUTED SAFETY VS 2 SP1 AND HIGHER. The list price is 3,336.00 EUR and the customer price is 3,269.28 EUR. The availability status is 'This product is currently available. This result displays the availability situation at this moment in time. Therefore the shown result cannot be guaranteed.' The page also includes links for DataSheet in PDF, Service and Support, and Certificates. A search dropdown menu is open, showing suggestions for '6ES7' and a search history list.

Search History

- 6ES7317-6FF04-0AB0
- cage motor
- test
- 6ES7
- Simatic net

- A further function offered by the product selector is the opening up of the search field in the main navigation. You can enter a part number, the stem of a part number (e.g. 6ES7), product description (e.g. SIMATIC) or your customer article number.
- When entering your search criteria possible suggestions and support will be offered based on the desired product.
- Your search history is saved based on your last queries.

Search Results

The screenshot shows the Siemens Industry Mall interface. At the top, there's a header with the Siemens logo and 'INDUSTRY MALL' text. Below this is a navigation bar with links like Home, Language, Contact, Help, and Site Explorer. A search bar contains the word 'controller'. Below the search bar, there are tabs for 'Product IDs/Descriptions (309)', 'Product Categories (130)', and 'Documents (2430)'. A table lists search results. The first row shows a product with a picture, description, and price. The second row shows a product with a picture and a note about availability. To the right of the table is a 'Filter your search results' section with checkboxes for various product categories. At the bottom right, there's a 'Go to catalogue' link.

Product No. / Product Description	Listprice / Your price
> 5TC8300-0 FLEXCON DALI CONTROLLER-4 ELECTRONIC CONTROLL DEVICE	1.220,00 EUR 1.220,00 EUR
> 5TC9226 DELTA PROFIL, TITANIUM CONTROLLER BREAK C	This product is currently available. This result displays the availability situation at this moment in time. Therefore the shown result cannot be guaranteed.

- In the search result the products including their descriptions and prices will be shown. Clicking on the part number or on the product picture will take you to further information where you can access documents, data sheets or certificates.
- Details of price and availability are retrievable with a click.
- After adding the desired quantity, you can add the article to your shopping basket by clicking on the shopping cart symbol.
- You can restrict the search results further using the search result filter and select, for example, certain product categories.
- "Go to catalogue" takes you to the respective catalogue area. Here you will find further information.

Delivery Address

Requ. delivery date

If you already have finished parts lists, e.g. in Excel or Word format, these can be inserted directly using the "Copy & Paste" option. You can also type in this field several items manually to add them at once to the cart.

If you know the material numbers they can be added directly to the cart using the "Enter" option. Especially the entry of materials with options is supported in this field.

In addition, you have the option of uploading a saved Mall-Excel file, Mall-XML file or a cart created using Catalog CA01.

Recently uploaded articles can be set up as a new cart or added to the current cart.

Replacement Products

The screenshot shows the Siemens Industry Mall - Cart interface. At the top, there's a navigation bar with 'Home', 'Language', 'Contact', 'Help', 'Site Explorer', and 'Product Search'. Below this, a 'Cart: (Projekt Tower)' section shows a progress bar with steps: 1. Item list, 2. Shopping data, 3. Place order, 4. Order acknowledgment. A 'Proceed to checkout >' button is visible. The main table lists items with columns: No., Material ID, Availability, Quantity, Description, Price, Price Discount Unit, and Price p. pos. The first item is '3' with Material ID '3TX7004-1AB10'. A message below the table states: 'The product 3TX7004-1AB10 is no longer current. We recommend the following successor > 3TX7004-1AB11'. An orange arrow points from this message to the first bullet point below. Another orange arrow points from the '3TX7004-1AB11' link to the second bullet point. The right sidebar contains 'Add item(s)' with 'Copy & Paste', 'Enter', and 'Upload File' buttons, and a 'Delivery Address' section with details for 'Test Firma GmbH'.

No.	Material ID	Availability	Quantity	Description	Price	Price Discount Unit	Price p. pos.
3	3TX7004-1AB10		1	OUTPUT INTERFACE TWO-TERMINAL-TYPE COUPLING RELAY 1NO, AC/DC 24V WITH MANUAL-0-AUTO SCREW TERMINAL WIDTH 12.5MM	Price On Request	1	Price On Request

The product 3TX7004-1AB10 is no longer current.
We recommend the following successor > 3TX7004-1AB11

Replace

Delivery Address: Test Firma GmbH, Mühlweg 3, 12345 Testhausen

- When an article is added to the cart, an automatic check will inform you whether there is a newer version of this product or if the product requires further configuration.
- By clicking on the article number of the new product, you can obtain all details on the later version and then decide which product is the right one for you.

If you do require the older version, you can of course order this as before.

Availability Check

The screenshot shows the Siemens Industry Mall cart interface. The cart contains three items:

No.	Material ID	Availability	Quantity	Description	Price	Price Unit
1	6AV7861-1AA0-0-1AA0	Not available (yellow triangle)	22	SMATIC FLAT PANEL 12 INCH TFT-DISPLAY WITH 800X600 PIXEL RESOLUTION 2 V DC VGA, DVI-D INTERFACE INCL. VGA-CABLE 1,8M	1.050,00	EUR
2	3TK2825-1AB20	Available (green checkmark)	4	SIEMENS SAFETY RELAY WITH RELAY RELEASE CIRCUITS (RC), AC 24V, 4 I/O MM, SCREW TERMINAL, R: INSTANT, S: SS, RC DELAYED 0,5, MK 20E, AUTOSTART / MONITORED START, BASIC DEVICE, MAX. ACHIEVABLE SIL: 3, P: E	258,00	EUR
3	3TX7004-1AB10	Available (green checkmark)	1	I/O INPUT INTERFACE TWO-TERMINAL-TYPE	49,52	EUR

A 'Delivery Information' pop-up window is displayed for item 1, stating: 'This product is currently not available on your requested delivery date. Please select one of the following options:'. The options are:

- ☐ Change the requested delivery date to 08.09.2011. This is the date all positions are available.
- ☒ Change the requested delivery date for this position to 08.09.2011. This will switch to requested delivery date on line item level.

Notice: This position is available on 08.09.2011

Keep the original requested delivery date and this product will be delivered as soon as it becomes available.

Buttons: Next, Cancel

Here you can check which articles in your cart are available. The result is displayed in the "Availability" column.

If you move the cursor onto the corresponding symbol, a detailed description of the delivery status appears.

Delivery Address

The screenshot shows the Siemens Industry Mall - Cart interface. The main table lists items with columns: No., Material ID, Quantity, Description, Availability, Price, Discount, and Price p. pos. Two items are listed: a COAXIAL T-ADAPTER CTA F FANNING OUT RGB SIGNAL (Item 7) and a FRONT CONNECTOR FOR SIMATIC S7-300, 20-POLE (Item 5). A 'Manage Addresses' pop-up is open, showing a table of addresses for 'Max Mueller GmbH'. The table has columns: Company Name, Name2, Name3, and Street. Three addresses are listed: 'Mühlweg 3', 'Bahnhofsstr.', and 'Bahnhofsplat 12'. The 'Bahnhofsplat 12' address is selected with a checkmark. The 'Proceed to checkout' button is visible on the right side of the interface.

No.	Material ID	Quantity	Description	Availability	Price	Discount	Price p. pos.
7	6AV1988-0AP00	1	COAXIAL T-ADAPTER CTA F FANNING OUT RGB SIGNAL	⚠	16,67 EUR	1	16,67 EUR
5	6ES7922-3BC50-0AB0	1	FRONT CONNECTOR FOR SIMATIC S7-300, 20-POLE 6ES7922-1A J00-0AAD) WITH	✅	59,00 EUR	1 2,00 %	57,82 EUR

Company Name	Name2	Name3	Street	Price
Max Mueller GmbH			Mühlweg 3	5,20 EUR
Max Mueller GmbH			Bahnhofsstr.	
Max Mueller GmbH Bamberg			Bahnhofsplat 12	

- Types of addresses:
 - Company address
 - Default delivery address
 - Current active delivery address

- You can administrate your delivery addresses in the cart or in the company administration in the section "Addresses." Set a delivery address to your shopping cart or create a new one.

Delivery addresses are maintained for the whole company. Thus delivery address updates will be published in all shopping carts.

The order inquiry lists all your orders in detail and displayed – depending on your requirements – by order number or by item.

Using the filter functions you can filter the orders displayed according to various criteria – e.g. all orders that have not yet been fully processed.

By clicking on the Siemens sales order number or your customer order number you receive further information on the respective order.

The following order states are shown in order inquiry:

- Order placed (Open): Order has been sent from Industry Mall to Siemens sales.
- Ordered (Open): When the Siemens regional company has received the sales order.
- Order at work (Open): Order is in warehouse but not confirmed yet for all items.
- Order confirmed (Open): Order is in warehouse and all line items are confirmed.
- Delivery transferred to carrier (Complete): All line items are handed over to carrier.

- The order update e-mail keeps you informed in case of important order data have been changed by the supplier like:
 - Confirmed date
 - Quantity
 - Or cancellation of items

Note:
This is only for information and does not replace an official order confirmation.

Master Data Request

Would you like to inquire quickly and easily about the product master data of a specific range of products? That is what the master data request offers you. You can select and download the output formats from various standards.

Furthermore, you can download the discount file here for the Siemens Catalog CA01 (offline on DVD).

Hint: In CA01, you can automatically update the conditions with ones from the Industry Mall.

Together with the conditions, the contact persons and delivery addresses are loaded from the Mall.

Request for Quotation

1 Introduction 2 RfQ Content 3 Confirmation

This function enables you to request a quotation through the Industry Mall. Just fill in the shopping cart and press the button "Request for quotation". Your contact partner will receive this information and provide you with detailed cost information. If the button is not active, there is no contact partner set up for you. You may request a quotation for a specific item or for the entire cart. The request for quotation function will be activated by e-mail under "Contact/Online Shopping" from the project navigation under the header "Offer request". If you wish to delete the contents of the shopping cart please click on the button "Delete cart".

☐ Delete cart

Click here to request a separate quotation from Siemens for the contents of a cart.

Once you have performed the steps described, the quotation request is forwarded directly to the appropriate sales partner.

As company administrator, you can use this option to enable specific functions of the Mall for users – the navigation will be adjusted automatically.

The “Compare with” function (not illustrated) offers you the option of comparing the currently selected user with another user in your company and assigning the user rights accordingly.

Managing Customer Article Numbers

As the main user, you can assign your customer-specific article numbers to our products enabling you to search for and order products in the Industry Mall using your own article numbers. You will find this function under the menu option "Administration / Companies / Company Details / Customer Article Numbers."

In addition, you can add your own product descriptions, e.g. "Controller for Machine Type A."

For bulk modifications we recommend using the "Upload List" function: In just one operation you can copy a complete list of your customer article numbers into the Mall.
