

Field service: tasks that require team to work closer than prescribed 2m social distancing measures during the COVID 19 outbreak					Completed by: HSQE&IS								
Location:					Reviewed See BMS								
					Next Review See BMS								
Describe the hazard and explain how it might cause harm	Who/what would be at risk	Likelihood x Severity = Risk Factor / Rating				Control Measures				Likelihood x Severity = Risk Factor / Rating			
		L	S	RF	RR					L	S	RF	RR

Ensure all controls are applied, if you are unable to apply all necessary controls work should STOP and issue escalated to relevant manager.

Health & Safety												
Bio Hazards (Covid-19) - able to maintain 2m social distancing measures	Employees, Public, Contractors	3	4	12	Medium	<p>Refer to risk assessment TS-FIELD SERVICES-RA COVID19. Field Service Team Working</p> <p>Mechanical equipment used to reduce the need for team manual handling activities, consider whether the use of a Hiab and applicable contract hire is required.</p> <p>Reduce the requirement for team manual handling by using equipment provided; including tail-lift, cable stop guard, chocks used to check cable drum, ratchet strap.</p> <p>Look to use all manual handling aids provided; cable rollers, tail-lifts, pit-lid lifter, use tail lifts to move heavier items out of vehicle.</p> <p>Develop working techniques to prevent the need to work in 2m proximity</p> <p>Operative should wear hand protection (anti-cut / Nitrile gloves), and avoid touching your face.</p> <p>When using anti-cut, ensure they are sterilised with an antibacterial wipe before removing them.</p> <p>Use antibacterial wipes to clean items such as push buttons if they are to be worked on, to minimise risk of exposure to Covid-19.</p> <p>Carry suitable refuse bags to place removed items from site into for suitable disposal / quarantine.</p>	1	4	4	Low		
Working less than 2 metres apart. Close proximity with colleague - COVID 19	Employees	4	4	16	High	<p>Only tasks that can be carried out safely should be undertaken.</p> <p>Refer to Close Proximity Method Statement and ensure Toolbox Talk Training has been received</p> <p>Use all necessary PPE, this to include; gloves, goggles, face mask & work wear</p> <p>Ensure hands are clean using either; hand sanitizer, antibac wipes or soap&water prior to team working.</p> <p>Use suitable face mask to prevent inhalation of respiratory droplets, ensure fitted correctly</p> <p>Use suitable goggles, which offer a good seal around eye area</p> <p>The more close fitting the mask, the more effective a barrier it creates. It is therefore recommended to keep facial hair as short as possible, ideally to stay clean shaven.</p> <p>Tasks should be of a short duration, returning to appropriate social distancing controls immediately when task complete</p>	1	4	4	Low
