

Welcome to Siemens TIA the Expressway virtual training.

Siemens TIA the Expressway Online Training is a collection of self-paced training exercises available to all Siemens customers and covers advanced features and options of TIA Portal V17.

Each training exercise requires the participant to use a locally licensed copy of TIA Portal V17 or newer. If you don't already have TIA Portal software, you can request a trial DVD version from your local Siemens distributor or download a 21-day trial version from the Siemens Service & Support website using this link. <https://support.industry.siemens.com/cs/document/109784440/simatic-step-7-incl-safety-s7-plcsim-and-wincc-v17-trial-download?dti=0&lc=en-US>

Each training exercise consists of two primary elements, a video tutorial to explain and guide you through the exercise and a TIA Portal Project archive file that you will use as a starting point for the training module. Links will be provided for you to access the files needed to complete each training exercise. It's important to note that each training exercise is self-contained. Therefore, each training topic is independent and doesn't rely on previous exercises to participate.

To access the SITRAIN LMS and Log in:

- Click the following link to SITRAIN LMS: <https://www.sitrain-lms.com/>
- Select the picture link for "Siemens USA LMS"
- From the menu at the top, click Log In:
- After logging in, choose "My Dashboard" from the menu with your name
- Click to expand the TIA Portal the Expressway to access the training video programs.

Forgot your Password?

- Click on the "Login" link.
- Click on the link "Click here to retrieve your password".
- Enter your User ID: bruno.honorio@liquidconsulting.com
- Enter your email address and the system will send you a link to a password reset page. This page will expire 24 hours after it is sent.
