Outstanding fiscal 2026 performance – Industrial AI to drive future growth

Roland Busch, CEO Siemens AG
Veronika Bienert, CFO Siemens AG

SIEMENS

Notes and forward-looking statements

This document contains statements related to our future business and financial performance and future events or developments involving Siemens that may constitute forward-looking statements. These statements may be identified by words such as “expect,” “look forward to,” “anticipate,” “intend,” “plan,” “believe,” “seek,” “estimate,” “will,” “project” or words of similar meaning.

We may also make forward-looking statements in other reports, in prospectuses, in presentations, in material delivered to shareholders and in press releases. In addition, our representatives may from time to time make oral forward-looking statements.

Such statements are based on the current expectations and certain assumptions of Siemens’ management, of which many are beyond Siemens’ control.

These are subject to a number of risks, uncertainties and factors, including, but not limited to those described in disclosures, in particular in the chapter Report on expected developments and associated material opportunities and risks in the Combined Management Report of the Siemens Report (siemens.com/siemensreport), and in the Interim Group Management Report of the Half-year Financial Report (provided that it is already available for the current reporting year), which should be read in conjunction with the Combined Management Report.

Should one or more of these risks or uncertainties materialize, should decrees, decisions, assessments or requirements of regulatory or governmental authorities deviate from our expectations, should events of force majeure, such as pandemics, unrest or acts of war, occur or should underlying expectations including future events occur at a later date or not at all or assumptions prove incorrect, actual results, performance or achievements of Siemens may (negatively or positively) vary materially from those described explicitly or implicitly in the relevant forward-looking statement. Siemens neither intends, nor assumes any obligation, to update or revise these forward-looking statements in light of developments which differ from those anticipated.

This document includes – in the applicable financial reporting framework not clearly defined – supplemental financial measures that are or may be alternative performance measures (non-GAAP-measures).

These supplemental financial measures should not be viewed in isolation or as alternatives to measures of Siemens’ net assets and financial positions or results of operations as presented in accordance with the applicable financial reporting framework in its Consolidated Financial Statements. Other companies that report or describe similarly titled alternative performance measures may calculate them differently.

Due to rounding, numbers presented throughout this and other documents may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

All information is preliminary.

SIEMENS

Industrial AI – the defining growth opportunity

Siemens is built to win

Why Siemens?

Siemens has been combining the real and the digital worlds for years

+ Unmatched portfolio in hardware & software
+ Real-world industrial data
+ Deep industrial understanding
+ High levels of customer trust
+ Global footprint and coverage of markets

SIEMENS

EXAMPLE

Eigen Engineering Agent

Enabling our customers to fundamentally transform engineering

Customer success

SIEMENS

Strategic growth levers with mutual reinforcement

Expansion of digital strength and domain expertise across attractive verticals and regions

Grow AI

Scaling of proven Industrial AI applications

- Partnership with GlobalFoundries for an AI-enabled control centre; scalable Industrial AI use case for global deployment

Grow Digital

Acceleration of transformation into an AI-powered technology company

- Expand portfolio for semiconductor design and verification with the planned acquisition of Lauterbach
- On-track integration of Altair and Dotmatics; realization of initial revenue synergies

Grow Verticals

Above-market growth through scaling our full portfolio in attractive verticals

- Data Centers: Triple-digit FY26 order growth through a unified Siemens approach and flawless execution

Grow Regions

Market wins through technology, speed, and resilience

- China: Faster innovation and lower costs; FY26 revenue up >25% in local-for-local automation portfolio
- U.S.: Differentiation through SW-defined automation and integrated HW/SW; FY26 revenue up 12%

Grow People

Empowerment through skills, leadership and organization for tangible Industrial AI impact

SIEMENS

We scale industrial AI by combining the real and digital worlds

SIEMENS

Stronger customer focus

Faster innovations

Higher profitable growth

SIEMENS

Appendix

SIEMENS

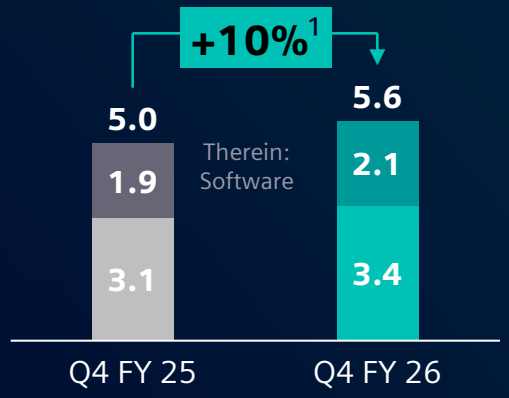

Digital Industries

Orders
€bn

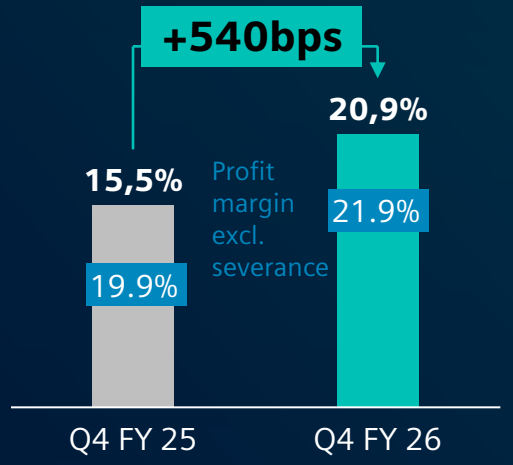

- AUT +16% driven by Discrete
- SW +13% on large contracts in PLM and EDA
- Strong contribution from U.S.
- Book-to-bill at 1.15
- Backlog of €11.0bn (€7.3bn SW, €3.8bn AUT)

Revenue
€bn

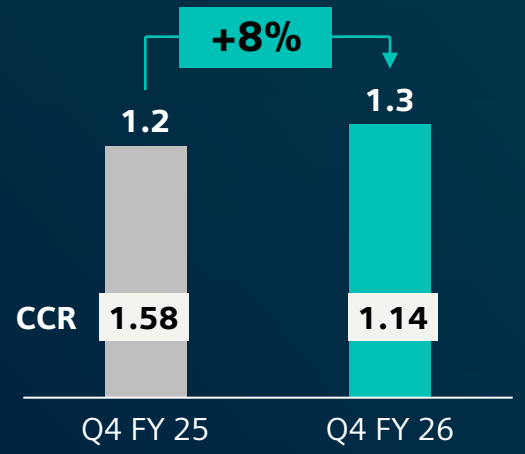

- AUT +8% driven by Discrete
- SW +12% driven by EDA and Simulation
- SW ARR +12%

Profit margin

- Material improvement in AUT, also due to sharply lower severance
- Strong contribution from SW business
- Integration-related costs for Altair and Dotmatics of -60bps[2]

Free cash flow
€bn

- Strong Q4 finish drives cash conversion in FY 26 to 1.06
- Material contribution from AUT in Q4

1 Comparable, excl. FX and portfolio

2 Excl. severance

SIEMENS

Digital Industries – Regions

Broad-based top-line growth

Healthy global activity with strength in the U.S.

Q4 FY26 Key regions – Automation	Orders	Revenue	
China	+8%	+14%	Clear order growth driven by healthy customer demand Strong revenue trajectory driven by discrete automation
Germany	+19%	+3%	Orders up in gradual market recovery, book-to-bill clearly above 1, supported by larger orders Moderate revenue growth led by motion control
Europe incl. CAME, excl. Germany	+12%	+2%	Book-to-bill above 1 Revenue moderately up on tough comparables
U.S.	+61%	+25%	Order strength supported by project business Discrete automation drives revenue growth
Q4 FY26 – Software			
Global		+12%	Driven by strength in Americas and Asia/Australia

Comparable growth, excl. FX and portfolio

SIEMENS

Digital Industries – Verticals

Resilient manufacturing environment

Cyclical improvement in key discrete industries

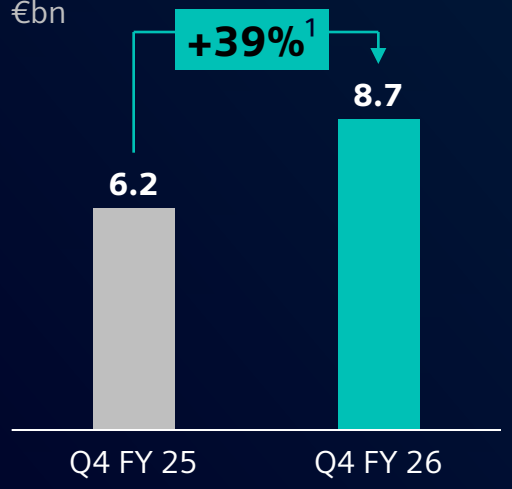

1 Y-o-Y industry revenue development for next 6 months based on industry production data from statistical office sources (e.g. NBoS, US Fed, Eurostat)

SIEMENS

Smart Infrastructure

Orders

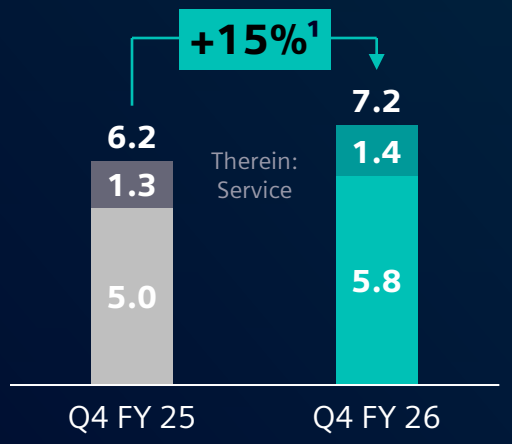

€bn

- Strong book-to-bill at 1.20
  Electrification +62%
  Electrical Products +45%
  Buildings +12%
- Large contract wins from data center customers
- Record backlog of €25.1bn

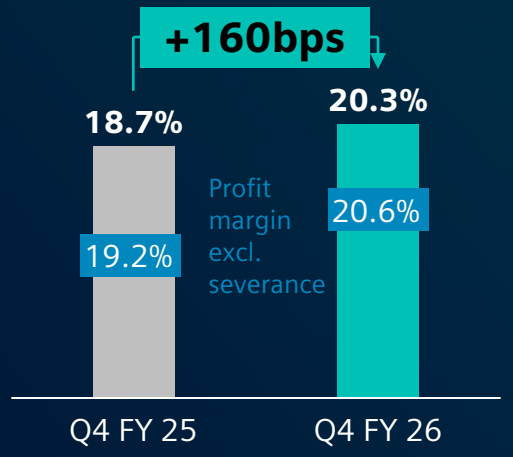

Revenue

€bn

- Accelerating momentum and backlog execution at Electrical Products +21% and Electrification +20%
- Buildings +6%
- Therein: Service +8%

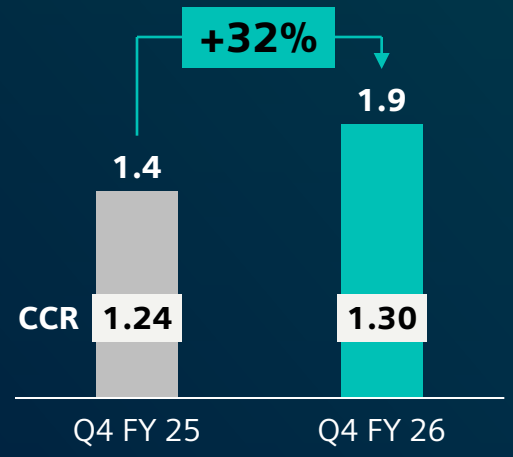

Profit margin

- Further margin expansion across all businesses
- Economies of scale and structural improvements
- Effects of +50bps from tariff refunds in the U.S.

Free cash flow

€bn

- Strong cash conversion
- Operating working capital decreased despite significant topline growth

1 Comparable, excl. FX and portfolio

SIEMENS

Smart Infrastructure – Regions

Top-line growth again driven by the U.S.

Fueled by data center wins and stringent backlog execution

Q4 FY26 Key regions	Orders	Revenue	
 **U.S.**	+70%	+27%	Orders sharply up in Electrification and Electrical Products (EP) fueled by data center wins Revenue growth driven by Electrification and EP
 **Germany**	+13%	+10%	Orders driven by Buildings and EP Revenue substantially up in Electrification, growth supported by EP
 **China**	-3%	+19%	Orders up in EP, softer in Electrification and Buildings Revenue substantially up in Buildings and EP
 **Europe** incl. CAME, excl. Germany	+24%	+6%	Orders boosted by data center wins in Electrification Revenue growth led by Electrification

Q4 FY26 – Service

 **Global**		+8%	Broad-based growth across regions led by Electrification

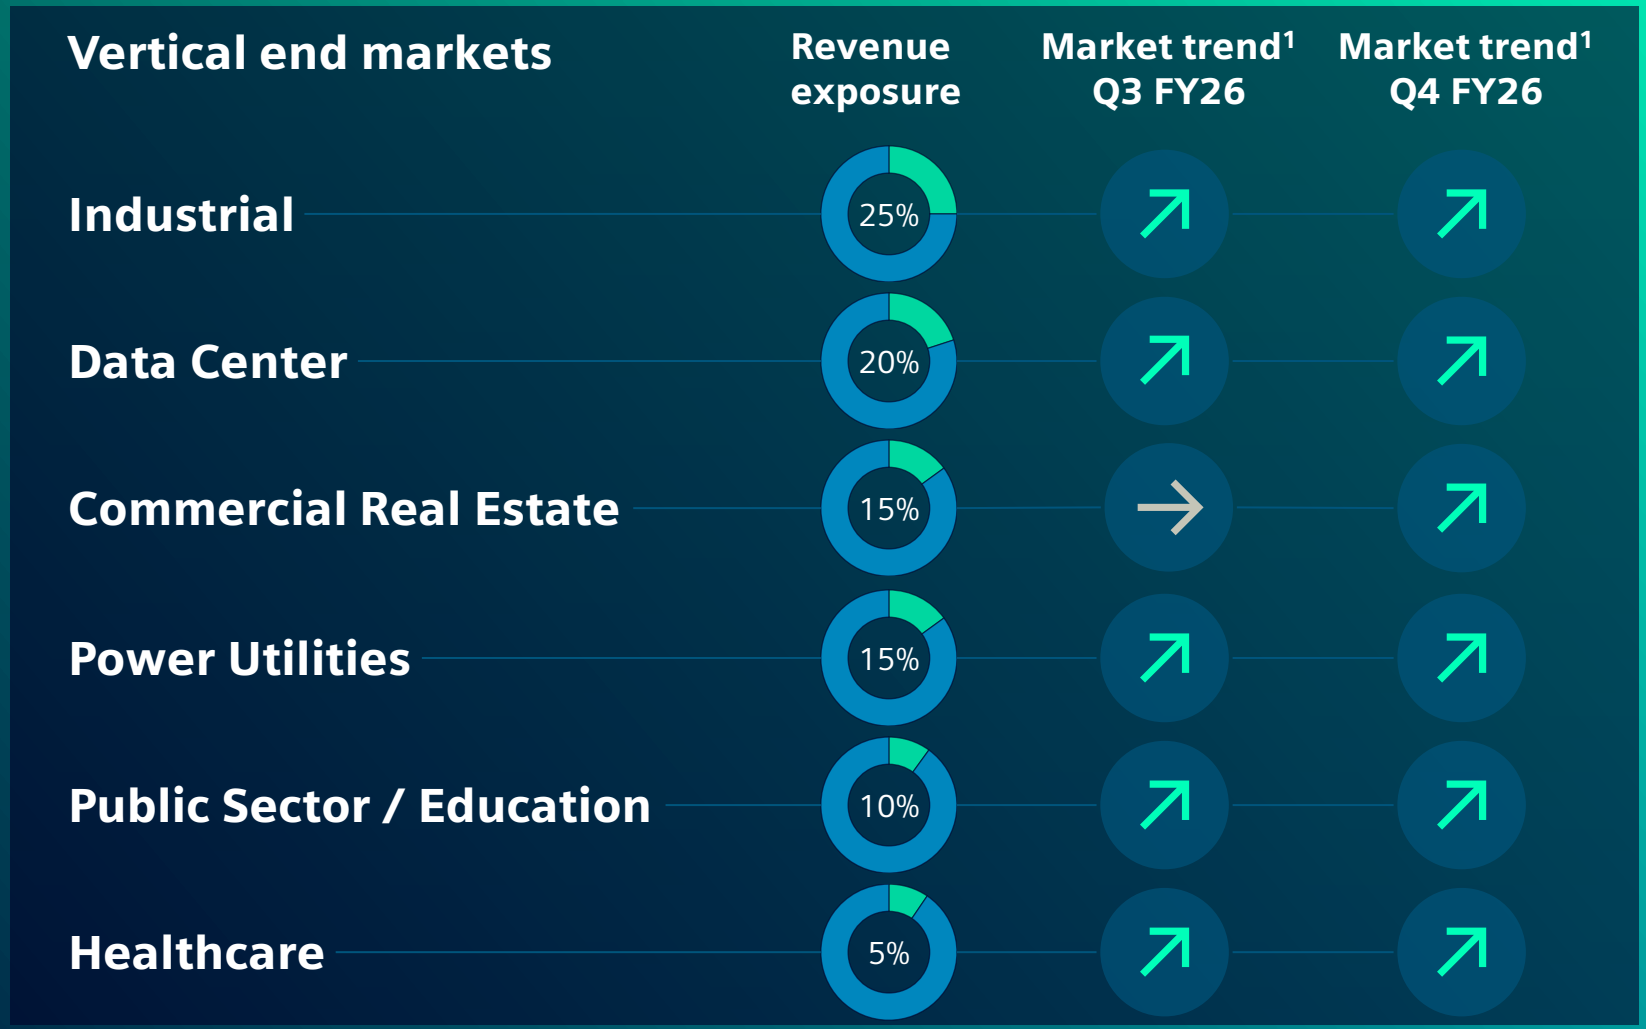

Comparable growth, excl. FX and portfolio

SIEMENS

Smart Infrastructure – Verticals

Strong end markets

Data Center now 2nd largest vertical, sustained momentum driven by AI build-out

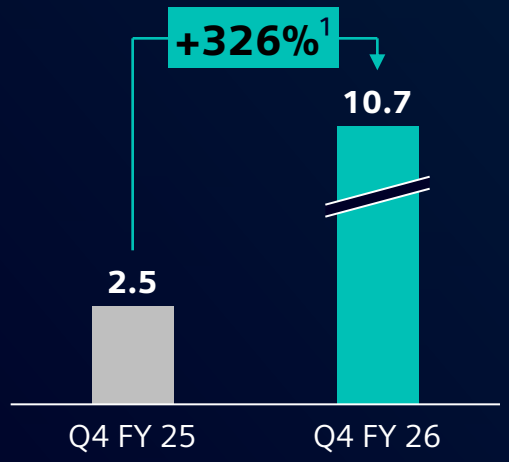

1 Trend for next four quarters, Y-o-Y vertical market development

SIEMENS

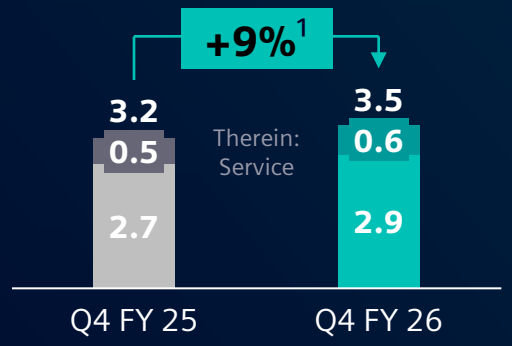

Mobility

Orders
€bn

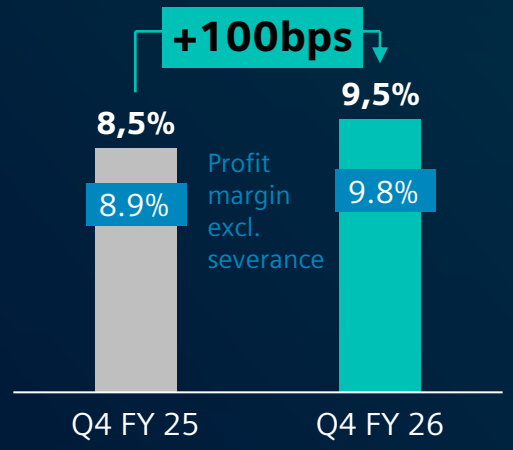

- Book-to-bill at outstanding 3.06
- Quarterly record
- Driven by several large orders in Rolling Stock and Customer Services
- High-quality backlog at €65bn; Therein: €22bn Customer Services

Revenue
€bn

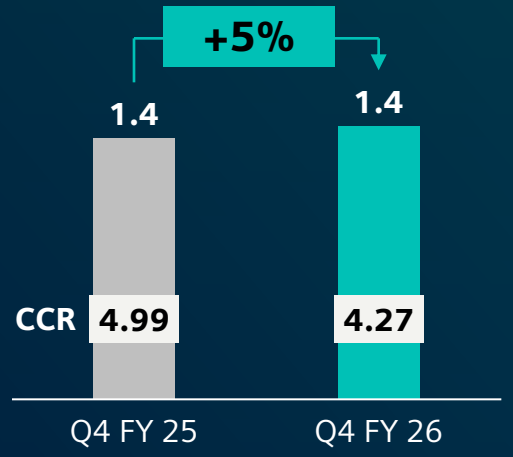

- Rolling Stock +12%
- Rail Infrastructure +4%
- Therein: Customer Services +14%

Profit margin

- Greater share of higher margin business in Rolling Stock and Customer Services

Free cash flow
€bn

- Very strong finish leading to FY26 cash conversion of 1.03
- Material reduction in operating working capital driven by advance payments

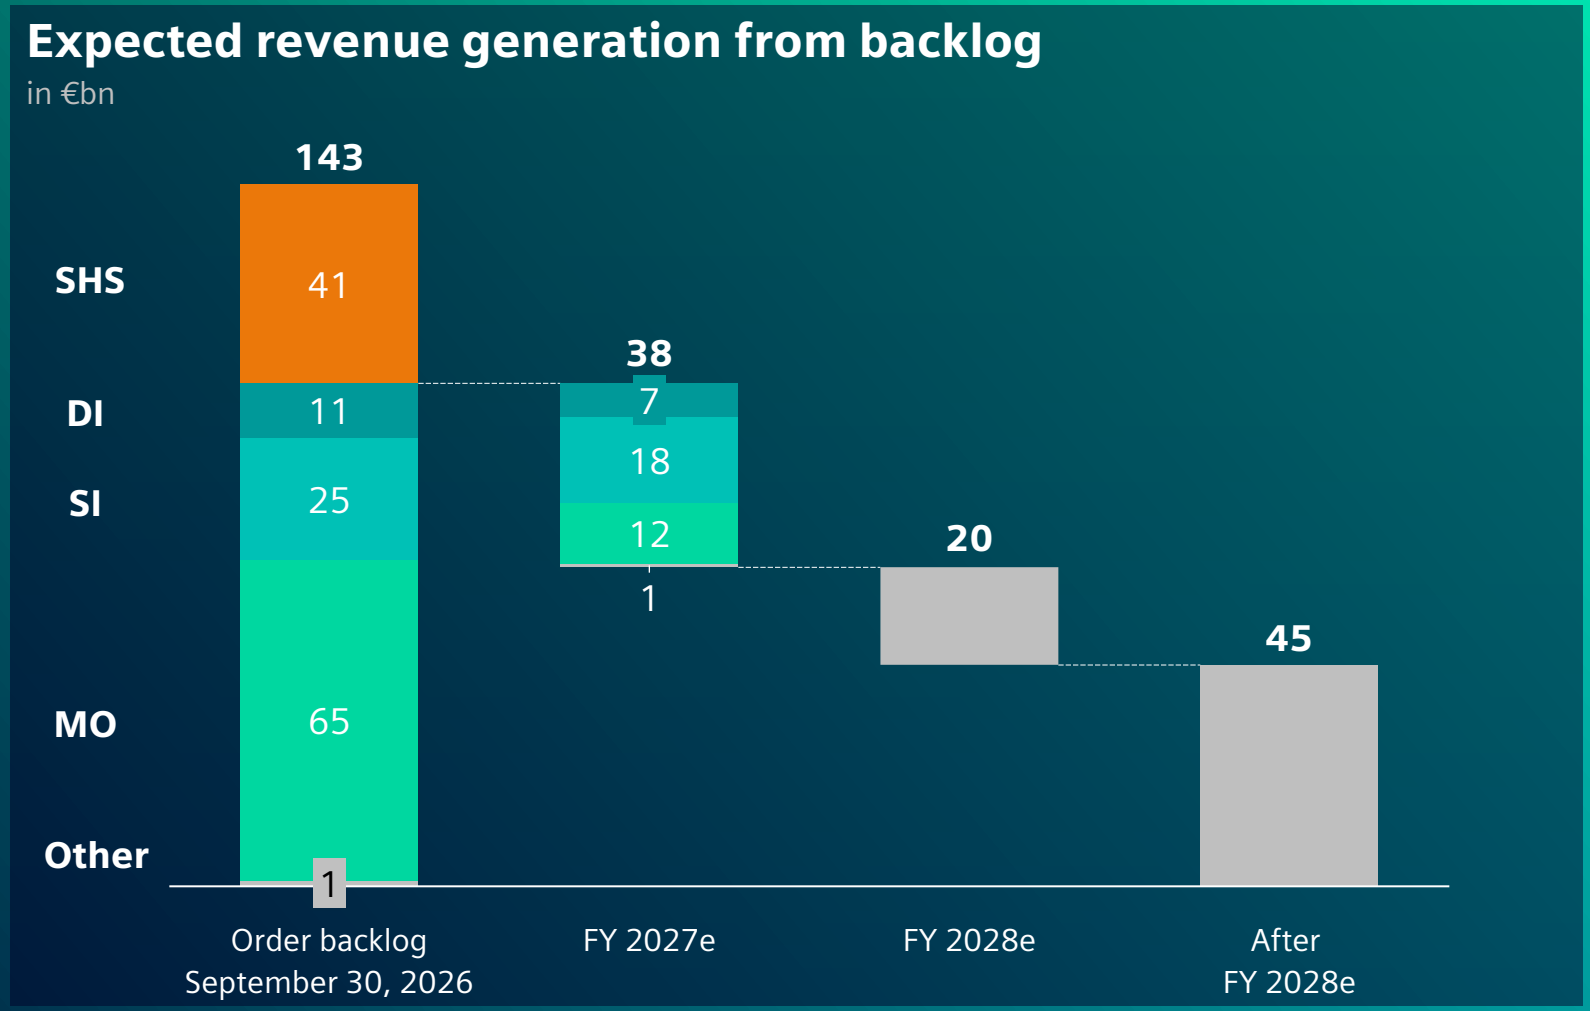

1 Comparable, excl. FX and portfolio

SIEMENS

Backlog

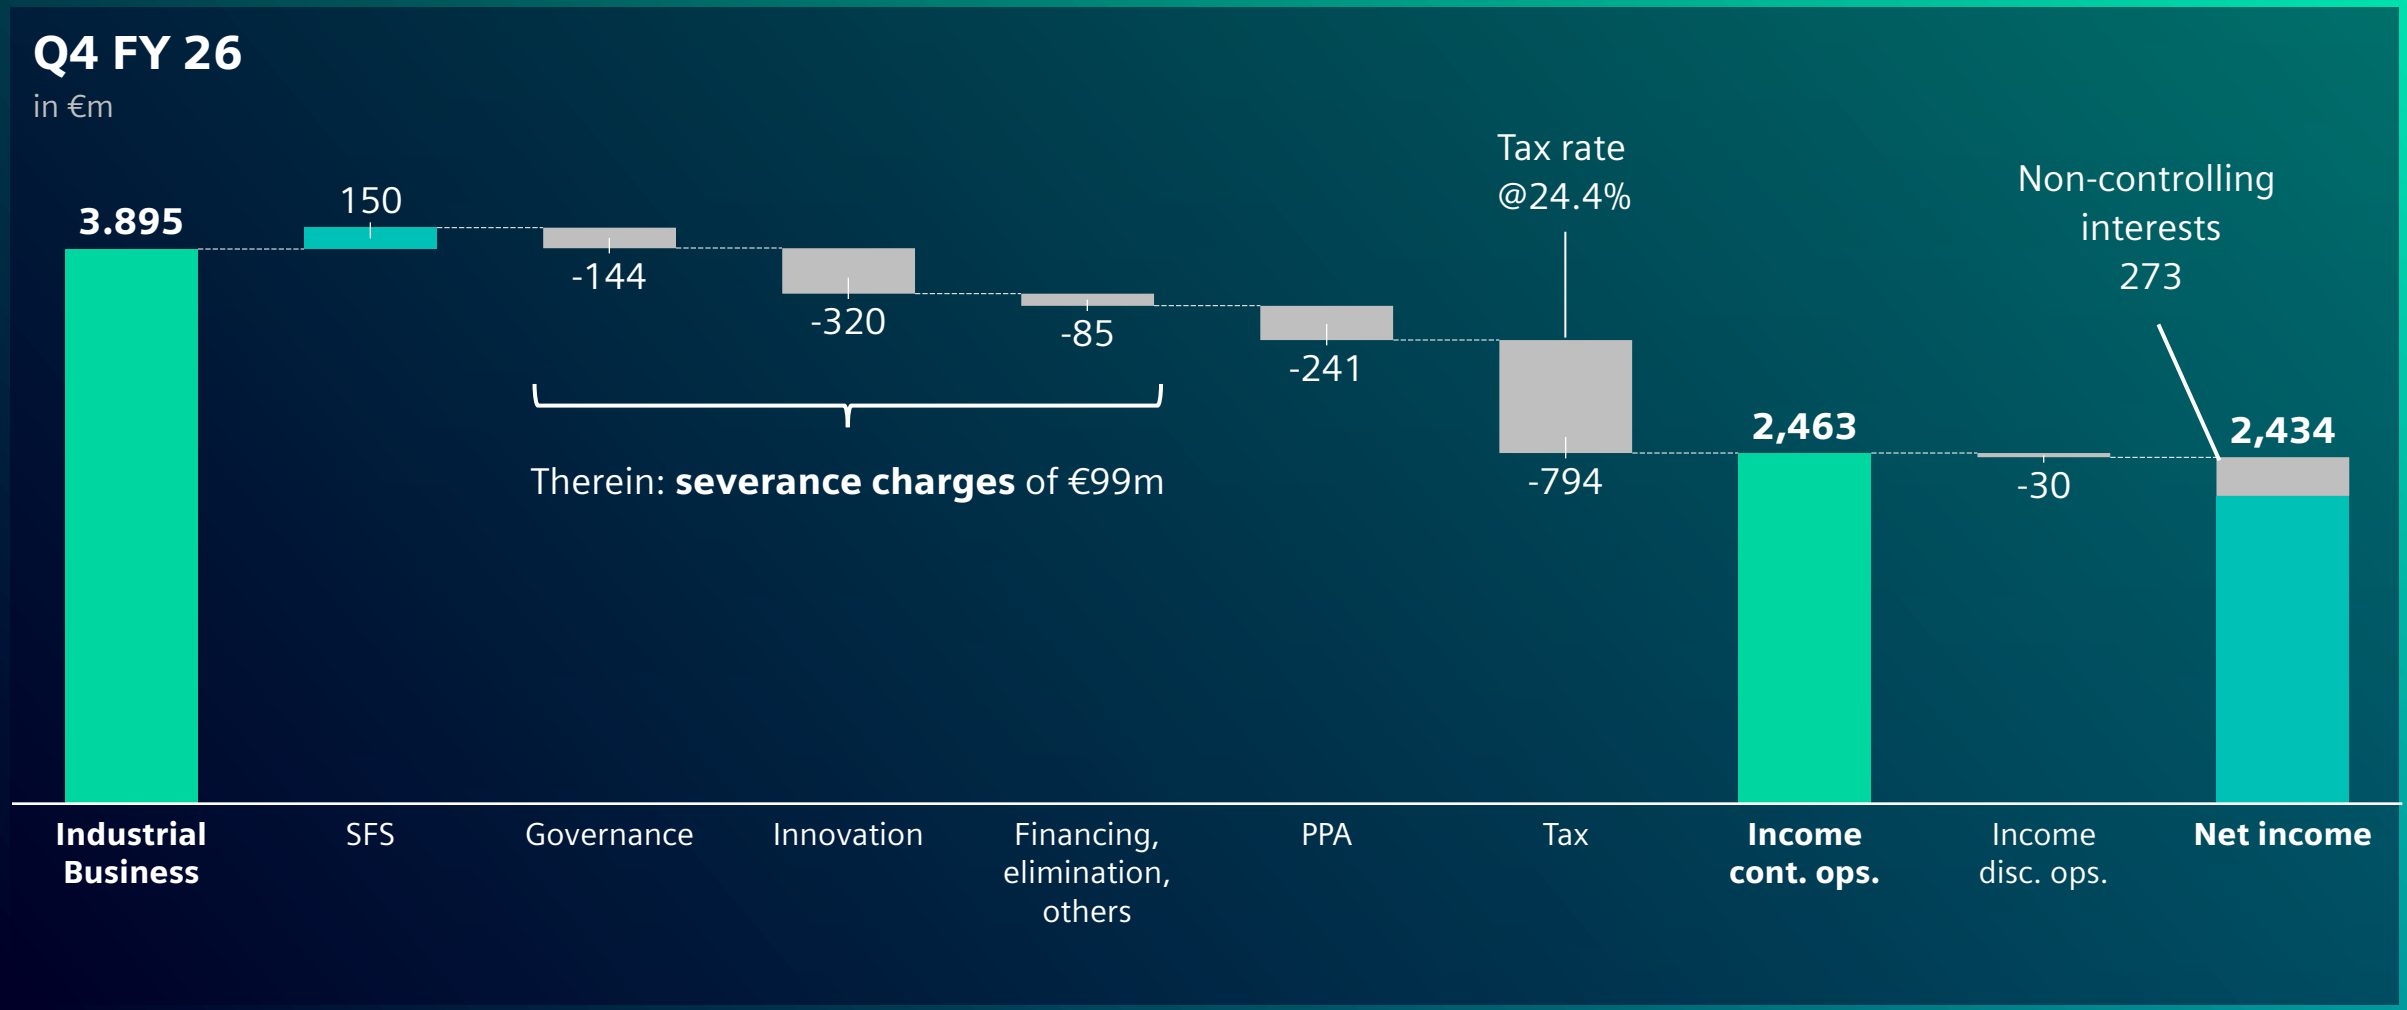

Record order backlog

Source of strength and high degree of visibility

Long term	Short term	Outlook
Aa3	P-1	Stable

S&P Global

Long term	Short term	Outlook
AA-	A-1+	Stable

SIEMENS

Assumptions FY 2027

Excluding Siemens Healthineers

Business environment	Global economy will continue to expand, with GDP growth driven mainly by ongoing investment in AI & digital infrastructure, public investment programs, a further pickup in industrial activity
OPEX	R&D intensity moderately above FY 26 level; SG&A as a percentage of revenue clearly below FY 26 level
CAPEX	Capex ratio[1] materially above FY 26, primarily driven by capacity expansion at SI
Severance	On FY 26 level (~€0.4bn), continuing footprint optimization and productivity
Foreign exchange	No material impact from FX assumed

1 Capex incl. operating leases divided by amortization and depreciation without PPA and depreciation on right-of-use assets from leases

SIEMENS

Assumptions FY 2027 – Below IB

Actuals €m	**FY 2026** as reported	**FY 2027** Expectations excl. Siemens Healthineers Comparable key figures for FY 2026 will be published on December 18, 2026
Profit Industrial Business	**13,292**	
SFS	**619**	On prior year level
Governance	**-18**	Around zero; will be reported under "Financing, elimination & other items" as of FY 27
Innovation	**-821**	~-€0.6bn to -€0.8bn
Financing, elimination & other items	**382**	~-€0.2bn to €0.2bn
PPA	**-956**	~-€0.6bn to -€0.7bn
Tax	**-3,098**	25% to 29% tax rate w/o impact from potential tax reforms
Income continuing operations	**9,400**	

SIEMENS
