Sen to be responsible for Siemens Gamesa Renewable Energy within Siemens' Managing Board

Michael Sen, member of the Managing Board of Siemens AG, will – additionally to his current duties – now be responsible for Siemens Gamesa Renewable Energy within Siemens' Managing Board. Until recently, Sen was a member of the management team of Europe's largest energy supplier and acquired extensive expertise in the management of listed equity investments. Sen is also responsible within Siemens' Managing Board for the company's healthcare business and its global services unit.

Sen was elected a new member of the Board of Directors of Siemens Gamesa Renewable Energy at a meeting of the Board yesterday. In this capacity, he will succeed Klaus Helmrich as one of the Board's five Siemens representatives.

Siemens AG (Berlin and Munich) is a global technology powerhouse that has stood for engineering excellence, innovation, quality, reliability and internationality for more than 165 years. The company is active in more than 200 countries, focusing on the areas of electrification, automation and digitalization. One of the world's largest producers of energy-efficient, resource-saving technologies, Siemens is a leading supplier of efficient power generation and power transmission solutions and a pioneer in infrastructure solutions as well as automation, drive and software solutions for industry. The company is also a leading provider of medical imaging equipment – such as computed tomography and magnetic resonance imaging systems – and a leader in laboratory diagnostics as well as clinical IT. In fiscal 2016, which ended on September 30, 2016, Siemens generated revenue of €79.6 billion and net income of €5.6 billion. At the end of September 2016, the company had around 351,000 employees worldwide. Further information is available on the Internet at www.siemens.com.
