

SCE Guide Trainer Packages

Siemens Automation Cooperates with Education (SCE)

Version 05/2025

Siemens Automation Cooperates with Education (SCE)

Teaching made easy

The SCE program offers a system for sustainable educational support which is unique worldwide.

As a technology leader, we support educational and research & development institutions in the field of automation and drive technology with our industrial know-how and specific services on the way to digitalization.

Overview of SCE services

- Digital learning modules and learning/teaching documents for courses and self-study
- Trainer Packages for practice-oriented education
- Courses for conveying up-to-date technical knowledge
- Support for your projects/technical books
- Partnerships with educators, manufacturers of learning systems and WorldSkills
- Information portal for quick access to all SCE offers
- Offers for trainees and students to deepen automation and digitalization knowledge

Digitalization is changing our world quickly and dramatically

Digitalization

Involves a huge number of new possibilities/challenges

Enables industrial mass production for personalized products

Requires new employee competencies

Challenges for education and teaching

*Keep pace with innovation, e.g.
convey Industry 4.0 knowledge
and additional skills*

Global
Industry
Partner

**Siemens – as the technology leader in automation engineering –
supports educators on the way to Industry 4.0 through SCE**

The SCE digitalization concept

Implemented by Vocational School 2 in Wolfsburg, Germany in a group project

Best Practice: Implementation by BBS 2 Wolfsburg. Not available for purchase!

1. Intuitive TIA Portal engineering of the real automation plant with SIMATIC S7-1500/ET 200SP/Rfid/SCALANCE/SINAMICS
2. Virtual commissioning with the help of the digital twin using Siemens NX-MCD CAD software
3. Cloud connection via IOT2050 for evaluation of production data

Teaching made easy

SCE digital learning modules for simplifying knowledge transfer to students

The modules for automation know-how transfer

SIMIT
for 2D sorting station
Course Automation
for TIA FA with SIMIT

SIMIT with NX MCD
for 3D sorting station
Course Automation for
TIA FA with SIMIT & NX MCD

NX MCD
for 3D sorting station
Course Automation
for Digital Twin

The benefits for teaching at a glance

Practice-oriented
The learning modules are didactically designed for all types learning situations

Versatile use
All content is created that it can be used in a variety for vocational training or Higher Education or self-study

Interactive
We offer each learning modules as a holistic learning package for free download

Learn more: [siemens.com/sce/lm](https://www.siemens.com/sce/lm)

The usages for vocational schools or study

Application range
for lectures/classes; project, laboratory, and student assignments as well as self-study

Content of learning modules:

Guides
Theory documents didactically prepared in DE, EN ES, FR, IT, PT, ZH

Tutorials
Learning Nuggets & interactive Call-To Actions in DE, EN

Projects
for version V19, V18, V16 with SIMIT, TIA Portal, NX MCD

SCE Trainer Packages for educators

Now with Online Software Delivery (OSD)

SCE Trainer Packages are specially priced hardware and software packages specifically compiled for up-to-date educational content in automation and drive technology.

> 90 Trainer Packages for practice-oriented education

- Innovative hardware/software components incl. complete accessories
- Completely and functionally coordinated with one another in terms of content
- Low-cost original industrial components for classes
- Perfectly coordinated with SCE learning and training documents and aligned with teaching curriculums/content
- Innovative trends taken into account

OSD

Online Software Delivery (OSD) – The **OSD software download** can only be done via the e-mail address of the end user, e.g. educator/installer in educational institutions, not of the distributor.

NEW

Why do we provide SCE Trainer Packages?

Assembling individual products requires a lot of know-how and is time-consuming. We have therefore mapped the relevant configurations from practical educational use in hardware & software packages for you

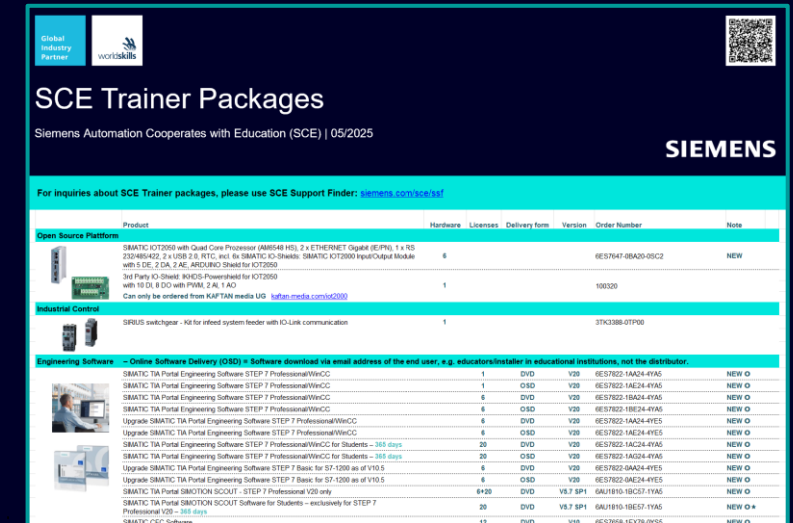

Who are these Trainer Packages for?

- For research, development and educational institutions
- For didactic companies (Suppliers of Learning Systems) for integration into their didactic solutions
- For industrial and initial corporate training → see [order information](#)
- For SinuTrain, there are separate approval/order processes → see [order information](#)

What should be considered when using Trainer Packages?

- The products listed may be subject to European/German and/or US export regulations.
- The [order information](#) must also be observed

For inquiries about SCE Trainer packages, please use SCE Support Finder: siemens.com/sce/ssf

SIRIUS low-voltage devices with IO-Link (3/3)

1 x	Wiring kit, spring-loaded terminal, electrical and mechanical, including mechanical interlock for reversing starters, size S00	3RA2913-2AA2	
1 x	Function module for IO-Link, reverse start, spring-loaded terminal, installation on contactors 3RT2 S00/S0, communication-capable contactor required	3RA2711-2BA00	
1 x	Wiring kit, spring-loaded terminal, electrical and mechanical, including mechanical interlock, for star-delta starter, size S00	3RA2913-2BB2	
1 x	Function module star-delta consisting of basic module and 2 coupling modules with integrated connecting cable, time range 0.5...60 s, 24...240 V AC/DC for contactors 3RT2	3RA2816-0EW20	
1 x	Digital monitoring relay cos phi and current monitoring for IO-Link 90 to 690 V AC, 0.2 to 10 A, overshoot and undershoot, on-delay time, tripping delay time, hysteresis 0.1 to 3.0 A, 2 change-over contacts, spring-type connection system	3UG4841-2CA40	
1 x	Overload relay 1...4 A for motor protection, size S00, class 5...30, contactor mounting main circuit: sprint-type terminal, auxiliary circuit: spring-type terminal, manual-automatic reset, internal ground fault detection	3RB3113-4PE0	
1 x	Operator control block for devices with IO-Link, operator control block for SIRIUS with IO-Link	3RA6935-0A	

Matching: Trainer Package ET 200SP with IO-Link communication module: 6ES7155-6AU00-0AB2

Process control system SIMATIC PCS 7 hardware

Packaging:

- 1 x SIMATIC PCS 7 AS SIMATIC CPU 410E Single ...
- 1 x SIMATIC ET 200SP HA – Station with IO modules...
- Details: [See following slides](#)

Note:

- PCS 7 software licenses must be purchased separately, [see previous slide](#)
- SITOP power supply 20A and SIMATIC NET Industrial ETHERNET TP XP Cord RJ45/RJ45 must be purchased separately
- 2 x 6XV1870-3RH60 Industrial ETHERNET TP XP Cord RJ45/RJ45, CAT 6A, crossed TP cable 4x2, assembled with 2 RJ45 plugs, length 6 m
- 1 x 6EP3336-7SB00-3AX0 SITOP PSU6200 24 V/20 A stabilized power supply
input: 120 ... 230 V AC (110 ... 240 V DC) Output: 24 V DC/20 A with diagnostics interface

NOTE: The PCS 7 AS Hardware Trainer Package consists of two sub-packages. These must be ordered together. Separation is necessary for logistical reasons.

System requirements:	Microsoft Windows 10 (64-bit) Enterprise LTSC 2019 Microsoft Windows Server 2019 (64-bit) Standard / Datacenter
Sales note:	Schools, colleges and universities, for internal vocational company training centers

1 x	SIMATIC ET 200SP HA, terminal block, type N0, 64 push-in terminals, width: 45 mm	6DL1193-6TP00-0DN0	

NOTE: The Trainer Package SIMATIC ET 200SP HA (PROFINET) must be ordered in combination with SIMATIC PCS 7 AS CPU 410E Single (PROFINET). See previous slide.

Virtual commissioning with SIMIT Simulation Platform

Overview

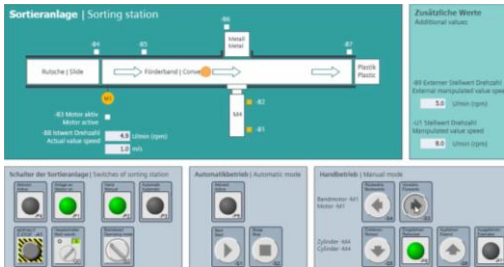

Product	Hardware	Licenses	Delivery form	Version	Order number (MLFB)	Note
SIMIT simulation software: License USB dongle must be ordered additionally (includes SIMIT S & CTE, FLOWNET, CONTEC libraries) – 4000 simulation tags		1		V11.3	6DL8913-0AL31-0AS5	NEW
SIMATIC License Universal USB dongle (must be ordered with every SIMIT package)	1				6DL8900-8XX02-0XB8	NEW
Link to activate the dongle: <u>siemens.com/activate</u>						
SIMIT Simulation Platform, software media package	SIMIT Simulation Platform	1		V11.3	6DL8913-0XL30-0XT8	NEW
Demo version SIMIT Simulation Platform, Software Media Package	SIMIT Ressources	1		V11.3	Download	NEW

SIMIT Simulation Platform – full version V11.3 with dongle (valid for the next 3 versions)

- SIMIT V11.3 Trainer Package has the range of functions of SIMIT Model S
- SIMIT V11.3 cannot be installed “side by side” with older SIMIT versions
- SIMIT 11.3 has a new licensing procedure (with new dongle)
- The limitations in Demo Runtime V11.x are identical to Demo SIMIT Runtime V8.x, V9.x and 10.x

Full version with one dongle (dongle owner = single license)

1. Creating/changing/testing/upgrading of virtual plant models with full range of functions of SIMIT Version SMALL: with max. 4000 simulation tags and CTE and FLOWNET as well as CONTEC libraries
2. The following IO quantity restrictions apply to SIMIT models that are to be used in the demo version (without dongle): 30 bytes each for the input and output area (coupling area), independent of the absolute address.
3. A byte is considered “occupied” when at least one bit of the byte has been used. Max. 4000 simulation tags are usable.

NOTE: SIMIT trainer package consists of three products. These must be ordered together.
The separation is necessary for logistical reasons.

System requirements:	WIN 10/11 (64 Bit) Prof. and Enterprise and Home 22H2 & 23H2; Enterprise LTSC 2019, 2021, WIN Server 2019, 2022 Standard (Full installation)			Coupling with S7-1200 not possible
Sales note:	Schools, colleges and universities, for internal vocational company training centers			
Technical note:	Hardware USB dongle			
Order number:	6DL8913-0AL31-0AS5	6DL8900-8XX02-0XB8 *	Link to activate the dongle: siemens.com/activate	

* Must be ordered with each SIMATIC package

SIMIT Simulation Platform – Demo version V11.3 without dongle

SIMIT V11.3 demo version

- The demo version is based on SIMIT S and can be used with max. 4000 simulation tags

The following restrictions apply for this demo version:

- The simulation will only run for 45 minutes and then has to be restarted
- Only one coupling can be added to the project
- The address space is limited to 30 bytes each for the input and output area (coupling area), independent of the absolute address. A byte is considered “occupied” when at least one bit of the byte has been used
- The FLOWNET and CONTEC libraries are not supported
- The editor for dynamic graphics, the component type editor (CTE), the trend and message function, the macro component editor, the SMD Typical import and the interface for automatic control are available for test purposes in demo mode
- Projects created in demo mode cannot be executed in regular mode and are limited to the SIMIT installation in which they were created.

SIMIT Simulation Platform V11.3

Application versions

Educator (dongle owner):

- Creation, adaptation and transfer of models without restrictions
- Creation, adaptation and transfer of models for demo version within restrictions of demo version

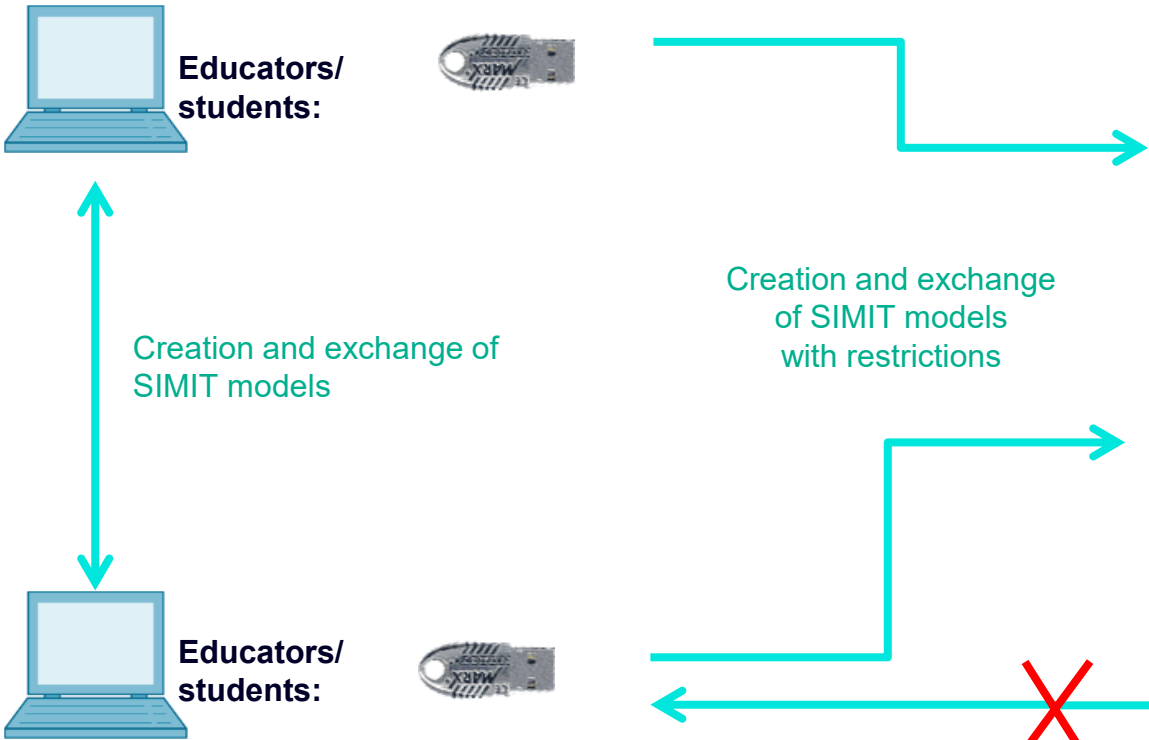

Students (demo version without dongle):

- Use of the models within the restrictions of the demo version
- Creation of own models with address space restriction
- Projects created in the demo version are restricted to the SIMIT installation in which they were created

SIMIT Simulation Platform V11.3

Application versions

SIMIT with SIMIT dongle A

SIMIT with SIMIT dongle B

SIMIT demo version

Students (demo version without dongle):

- Use the models of any dongle owner within the restrictions of the demo version
- Simulation limited to 45 minutes
- Creation of own models within the restrictions of the demo version
- Projects created in demo mode are restricted to the SIMIT installation in which they were created

SIMATIC HMI KTP700 Basic Color Panel 1er

- 1 x SIMATIC KTP700, basic color panel, key and touch operation, 7" TFT display, 65536 colors, PROFINET interface, configurable as of WinCC Basic V13/STEP 7 Basic V13
- 1 x SCALANCE XB005, unmanaged Industrial ETHERNET switch for 10/100 Mbps; with 5 x 10/100 Mbps twisted pair ports with RJ45 sockets; for configuring small star and line topologies; LED diagnostics, IP20, 24 V DC power supply, including manual
- 2 x SIMATIC NET Industrial ETHERNET, TP XP Cord RJ45/RJ45, CAT 6 A, crossed TP cable 4x2, length 6 m

SIMATIC ET 200SP digital with IO-Link communication module

- 1 x Standard mounting rail 35 mm, length 483 mm for 19" cabinet
- 1 x IM155-6PN HF including server module
- 2 x DI 8x24VDC HF
- 2 x DQ 8x24VDC/0.5A HF
- 1 x BusAdapter 2x RJ45
- 4 x BU type A0, 16 push-in, 2 infeed terminals separated (digital/analog, max. 24 V DC/10 A)
- 1 x Color-coded labels, 16 process terminals, gray/red, CC01, 10 units
- 1 x 1000 labeling strips, light gray, 10 sheets DIN A4, perforated, paper
- 1 x Color-coded labels, 16 process terminals, gray/blue, CC02, 10 units
- 1 x BU type A0, 16 push-in, 2 infeed terminals separated (digital/analog, max. 24 V DC/10 A)
- 1 x CM 4xIO-Link ST
- 1 x Color-coded labels, 16 process terminals, gray/blue, CC04, 10 units

SIMATIC NET Industrial Security Switch Technologies – IE SCALANCE S615 with SINEMA RC basic software

1 x **SIMATIC NET SCALANCE S615 LAN ROUTER**

For protection of devices/networks in automation technology and for protection of industrial communication by VPN and firewall; additional functions: address conversion (NAT/NAPT), connection to SINEMA RC, 5-port switch, 1 x digital input, 1 x digital output

1 x **SINEMA Remote Connect Virtual Appliance**; basic software package for 4 VPN connections. User, device, group management; certificate management; autoconfiguration interface SINEMA RC client: for 1 installation. Software, documentation on DVD; license key on USB flash drive; 2 languages (de, en)

1 x **SINEMA RC Client V3 for 8 installations**; Software, documentation on DVD, license key for server; 3 languages (de, en, zh)

1 x **SINEMA RC Upgrade 64** Upgrade by 64 VPN connections, only license

1 x **KEY-PLUG SINEMA RC**, Removable data storage medium for enabling the connection to SINEMA Remote Connect for S615 and SCALANCE M for simple device replacement in the event of a fault and for recording configuration data

SIMATIC MV540 S optical reader PROFINET

- 1 x SIMATIC MV540 S optical reader resolution: 800 x 600 pixels; Function: 1D/2D code reading; Image field and distance: variable (depends on lens); PoE; IP67 with 6GF3540-8ADxx; Delivery: Reader and SD card adapter
- 1 x MV440-MV500 mounting plate; material: stainless steel (4 mm), versatile use
- 1 x MINI-CX lens 25 mm, E-focus for MV500 devices
- 1 x D65 lens protection metal glass, degree of protection IP67 for MV440 and MV540 devices
- 1 x Built-in ring light MV540 red multi for MV540 devices; incl. cross-polarization filter; lighting range up to 120 cm
- 1 x Power-IO-DATA cable MV500 10 m for MV540 devices; M12 – 12-pin socket pre-assembled at one end, 10 m
- 1 x IE connecting cable M12-180/IE FC RJ45 Plug-145; IE FC Trailing cable GP pre-assembled with M12 connector (D-coded) and IE FC RJ45 plug length 3.0 m.
- 1 x Pat-Genius; Object detection license for MV540 code reading device; single license extends devices above with functionality for object detection and inspection

Current firmware for SIMATIC MV500: [Vx.x.x](#); upgrading is recommended

Suitability for operation
1D codes: Int. 2/5, Code 128, Code 93, Code 39, Code 32, EAN 13, EAN 8, UPC-A, UPC-E, GS1, Pharmacode, Postnet, **2D codes:** DMC, dot code, PDF417 (without: Truncated, Micro and Macro), Q R (without: Micro and Macro), verification uncalibrated

Sales note:	Schools, colleges and universities, for internal vocational company training centers
Technical note:	Parameter assignment with Web-based user interface, browser (as of IE5.5), JAVA-VM (MS, SUN)
Order number:	6GF3500-1TP03

SIMATIC RF200 RFID system PROFINET

2 x RF200 Reader
RF240R

1 x RFID Communication
Module RF186CI

1 x Power M12
cable connector

1 x IE Connecting
cable M12-180/IE FC RJ45

2 x SIMATIC RF,
MV connecting cable

5 x Transponder MDS
D428 for RF200/RF300

SIMATIC RF600 RFID system PROFINET

Application:

Identification of similar goods in conveyor systems; local reaction to read events

2 x Power supply cable to reader, 24 V, 5 m
2 x Industrial ETHERNET cable, 5 m
2 x Antenna cable, 5 m

2 x SIMATIC RF615R
Reader 133x155x45mm
with internal antenna

20 x SIMATIC RF645T
Transponder with
mounting cover

2 x SIMATIC RF642A
Antenna 185x185x47mm

1 x Wide-range power
supply for connecting up to
2 readers, EU power cable

SINAMICS S210 servo drive 3 AC 400 V

- 1 x SINAMICS S210 input voltage: 200-480 V 3AC; -10%/+10%; 1.6 A; 45-66 Hz; output voltage: 0-input V 1.2 A; 0-550 Hz; motor: 0.4 kW; degree of protection: IP20; frame size A; 50 x 270 x 220 (WxHxD)
- 1 x SIMOTICS S-1FK2 HD servo motor M0=1.27 Nm; PN = 0.4 kW at nN=3000 rpm (380-480 V); PN = 0.2 kW at nN=1500 rpm (200-240 V); with holding brake; degree of protection IP64; shaft D19x40 mm with feather key; absolute encoder 22-bit + 12-bit multiturn (encoder AM22DQC); with OCC interface; plug size M17, rotatable;
- 1 x Single cable connection prefabricated 4G0.75+2x0.5+4x0.2 C SPEED-CONNECT connector M17 Cores with end sleeve Data cable with IX connector UL/CSA DESINA MOTION-CONNECT 500 Dmax=10.5 mm, length(m)= 0 + 0 + 2 + 0
- 1 x SINAMICS S210 SD card 8 GB including licensing (Certificate of License, stored on the card), V6.x F01: 1x SINAMICS Safety Integrated extended

SINAMICS S120 servo drive 1 AC 230 V

Optional hardware and software

Power supply

SITOP PSU6200 24 V/20 A stabilized power supply input: 120 - 230 V AC (110 - 240 V DC)
output: 24 V DC/20 A with diagnostic interface

Cable

SIMATIC NET Industrial ETHERNET, TP XP Cord RJ45/RJ45, CAT 6 A, crossed TP cable 4x2, length 6 m

Terminal module TM31 IO expansion

For the SINAMICS S120; 12 DI, 2 DQ, 2 AI, 2 AQ

Terminal module TM54F Safety IO

For devices S120; fail-safe digital inputs and outputs

Signal line

DRIVE-CLiQ cable IP20/IP20 length: 0.95 meters

SinuTrain for SINUMERIK Operate V4.5/V4.7/V4.8/V4.9 – Basic

The SinuTrain offline programming station brings SINUMERIK Operate, including animated machine control panel, to the PC to create a training situation that is very similar to reality thus facilitating easy transition from a training environment to a practical environment. This powerful tool allows NC programs to be programmed offline on a PC in an environment that is close to reality; these NC programs can then be directly transferred to the CNC.

Using SINUMERIK Operate and the original SINUMERIK CNC kernel, all operating and programming operations can be used and CNC programs executed without any restrictions. SinuTrain for SINUMERIK Operate V4.5/V4.7/V4.8/V4.9 - Basic is based on the respective SINUMERIK CNC firmware.

The control-identical NC programming station – as a basic version with no time limit – available as a free download.

Siemens Product Lifecycle Management (PLM) Software

PLM software

➤ [NX](#), offers modern tools and technologies for product development. The latest version contains functions for increasing productivity in design, simulation and manufacturing.

➤ [PLM Software Academic Partner Program](#) ➤ [PLM Software for Students](#)

➤ [Tecnomatix](#), software for the "Digital factory", offers highly functional solutions for the entire scope of the life cycle of your products with which companies can quickly find the best strategies for increasing productivity and reducing costs in manufacturing.

➤ [Teamcenter](#), supports bringing increasingly complex products to the market throughout the entire product life cycle, with simultaneous increases in productivity and optimized worldwide cooperation.

[Velocity Series](#), a family of modular, pre-integrated software solutions for product life cycle management in small and medium-sized manufacturing companies.

The 2D/3D CAD software Solid Edge is a component of this software.

➤ [Solid Edge Educators](#) ➤ [Solid Edge Academic](#)

The ➤ [Mendix](#) all-in-one, low-code application development Platform accelerates every step of the enterprise application development lifecycle.

Contact Partners: In DE/AT/CH contact mediation via SCE promoters. & In all other countries via [siemens.com/plm/gaf](https://www.siemens.com/plm/gaf)

Partnership with WorldSkills

WorldSkills (WS) has been increasing the quality of vocational training for > 60 years

More about WorldSkills:

[↗ Cooperation](#)

[↗ Competitions](#)

Since 2010, Siemens has been a global industry partner and product sponsor and provides automation products including SIMATIC S7-1500 and LOGO! for disciplines such as Industry 4.0, Industrial Control, Electrical Installations, Industrial Mechanics and Renewable Energy for the WorldSkills competitions. The machines for the CNC Turning and CNC Milling disciplines are equipped with SINUMERIK controllers.

Every two years, a world championship with > 1,000 competitors and > 200,000 visitors takes place. London 2011, Leipzig 2013, São Paulo 2015, Abu Dhabi 2017, Kazan 2019, Lyon 2024, Shanghai 2026

Siemens supports the world championships as well as selected continental/regional competitions

Important ordering information

A specific end use agreement is required to purchase Trainer Packages

This additional supplementary agreement for classroom use of SIMATIC software at research, development and training institutions must be signed by the respective educational institution and sent to Siemens.

Trainer Packages are released for delivery by SIEMENS AG, SCE Team global: fax: 49 (0)911-958-29105, [email](#)
Siemens contact partners can find this declaration on the SCE Intranet [Additional agreement](#).

A separate release/ordering process applies to the following products:

SinuTrain: In DE/AT/CN/US/IT/TW sale only with Maintenance → Article number MCS405... Request a quote to: mcmts.software.plm@siemens.com;
In all other countries sale without Maintenance → Article number 6FC5870-1... Request for quotation to Siemens standard sales

NX MCD Software: Requests to DE/AT/CH Contact mediation via SCE promoters and siemens.com/plm/gaf

The following Trainer Packages can only be ordered from schools, colleges and universities:

- | | |
|--|---|
| • SIMATIC CFC Software – for students | 6ES7658-1EX58-0YS6 |
| • SIMOTION SCOUT SW – for students | 6AU1810-1BE57-1YA5 |
| • SinuTrain Operate | 6FC5870-1T... /MCS405... Requests to mcmts.software.plm@siemens.com |
| • SinuTrain Operate – for students | 6FC5870-1S... /MCS405... Requests to mcmts.software.plm@siemens.com |
| • NX MCD Software | Requests to DE/AT/CH contact referral via SCE promoters
In all other countries via siemens.com/plm/gaf |
