

The quality goes in
before our name goes on

SIEMENS

Industrial 5G is cellular communication that offers tremendous promise for manufacturing and industrial businesses everywhere.

It's critical to work with the right service and system development partners to **design, develop, and implement effective Industrial 5G solutions.**

SIEMENS

A young man with short dark hair, wearing a bright yellow hard hat and a blue work shirt with a high-visibility yellow safety vest, is looking upwards and to the left. He is in an industrial environment, with metal structures and blurred lights in the background. A dark blue rectangular box with white text is overlaid on the lower left side of the image.

There are a number of characteristics
one should consider when searching for
an Industrial 5G technology partner.

SIEMENS

The first question to ask:

Do you offer “purpose-built” industrial 5G solutions designed specifically for manufacturing/ plant level applications?

SIEMENS

Another important question to ask:

Is your organization able to deliver 5G specific expertise and end-to-end solution support?

It is critical to find solution providers that **understand** your specific industrial market and facility-level application requirements.

This level of vendor understanding will be **critical to a successful product implementation.**

Industrial 5G solutions should meet or exceed industry standards while helping to **increase industrial plant efficiency, productivity, and resulting output.**

SIEMENS

The reputation of an Industrial 5G solution provider is critical.

Your 5G partner should be recognized globally as a leader in advanced wireless networks and cybersecurity technologies.

SIEMENS

**Siemens has an established heritage
and impressive track record building
high-quality, durable products that last.**

SIEMENS

A man with a beard and glasses, wearing a green hard hat and a yellow safety vest, is looking intently at a piece of industrial machinery. The background is a blurred industrial environment with blue and grey structures.

Many of the world's leading industrial companies depend on the proven durability and longstanding performance of Siemens products.

SIEMENS

**Attention to detail and precision
focused German engineering
sets Siemens products apart from
the competition.**

SIEMENS

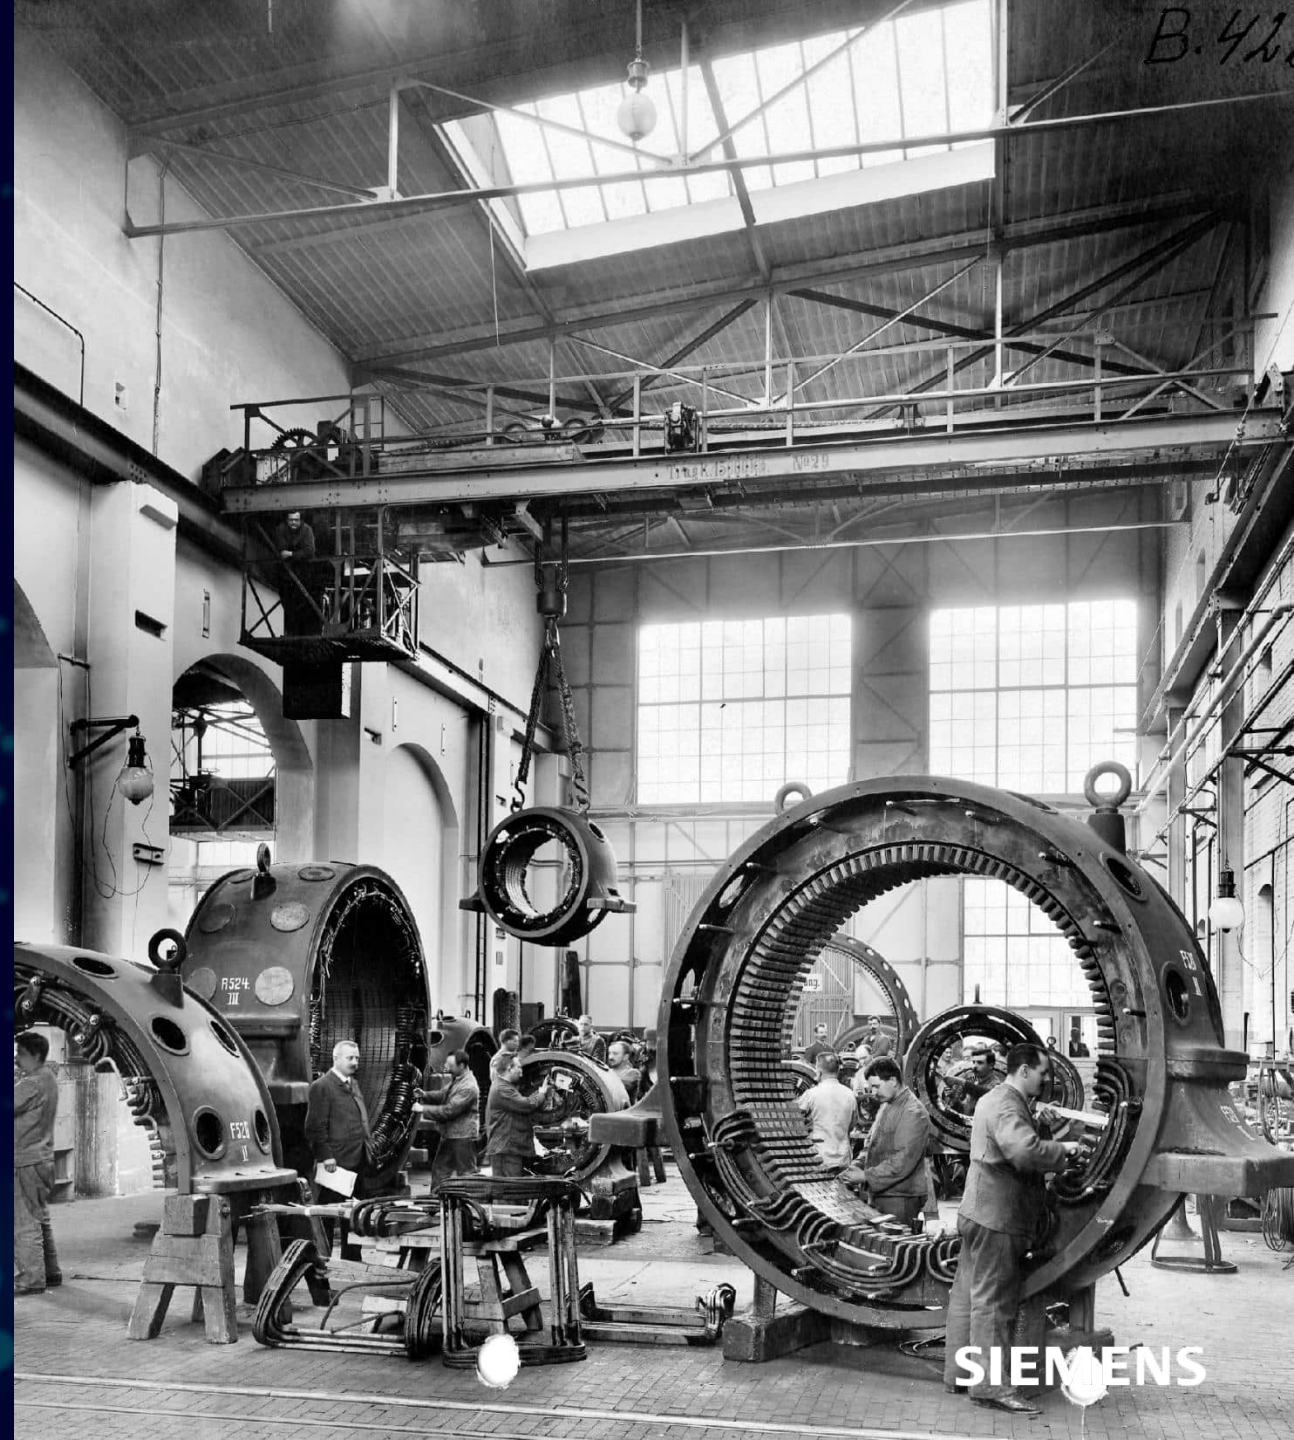

A man and a woman, both wearing white lab coats, are standing in a modern industrial factory. The man is holding a tablet and pointing at it with a pen, while the woman looks on. The background shows various industrial machines and equipment. Overlaid on the image are digital elements, including binary code (0s and 1s) and blue lines representing data flow or network connections.

Siemens' knowledge of both **5G technologies** and the **industrial space** differentiates us among Industrial 5G providers.

SIEMENS

**By partnering with Siemens,
you can be sure that your
5G solution will work as
intended in your industrial
application environment.**

Siemens brings more than **170 years of experience** to the **industrial sector** thereby positioning us to deliver **high quality and enduring industrial 5G solutions.**

SIEMENS

A large yellow offshore oil platform with multiple levels, stairs, and cranes, situated in the blue ocean under a clear sky. The platform features several tall white smokestacks and a complex network of yellow structural beams. A long yellow walkway extends from the main structure towards the right side of the frame.

Siemens has a proven track record of serving customers in a wide range of **diverse industry vertical markets.**
