

# Parking space utilization

## Scenario

### Campus parking

Campuses often have limited visibility into the number of available parking spaces and their locations; lack of available student parking can be a source of frustration

## Significance

### Revenue

Parking structures offer campuses another revenue stream; you must also assign employees to check for paid parking, meters, and violations in lieu of other programs

## Partner

### JAPA

Smart parking solution provides insight into campus parking inventory with access to occupancy data

## Integration

### JAPA + Desigo CC

Integration between JAPA and Desigo CC gives facilities managers insight into the number of spaces open, taken, and where parking is available for students, faculty, and visitors

## Benefits

### Student, faculty satisfaction

Enhance student and faculty satisfaction with the campus parking experience while helping increase parking revenues
