Siemens Xcelerator Academy

Academic membership FAQ and instructions

training.plm.automation.siemens.com/buy/academic.cfm

Introduction

All active Siemens Digital Industries Software academic customers and partners have no-cost access to Siemens Xcelerator Academy, a convenient, easy-to-use e-learning portal with over 7,000 tutorials and assessments. Further, it empowers customers with the knowledge and skills to execute digital transformation, empower a high-performing workforce and excel with continual learning. Using Siemens Xcelerator Academy, which is part of the Siemens Xcelerator business platform of hardware, software and services, you can ensure that faculty and students have the highest-quality software training available.

This document provides detailed instructions and answers to frequently asked questions (FAQ) about the self-service approach that enhances the process of

obtaining and renewing Siemens Xcelerator Academy Academic memberships.

Siemens Xcelerator Academy

Frequently asked questions

What is Siemens Xcelerator Academy?

Siemens Xcelerator Academy is a learning portal that enables users to gain skills and knowledge and prepare for industry certifications in Siemens Digital Industries Software products. Siemens Xcelerator Academy contains over 7,000 tutorials and assessments, which we update whenever we release new software versions, so users stay up to date with the latest information.

For more information, visit the Siemens Xcelerator Academy homepage: siemens.com/SiemensXceleratorAcademy

What does a free Siemens Xcelerator Academic membership include?

The Siemens Xcelerator Academic membership includes access to a library of self-paced courses that span the Siemens Xcelerator portfolio of software. The library includes exercise instructions, downloadable files for hands-on practice on your software installation and knowledge assessments to measure learning progress.

What are the benefits of accessing your Siemens Xcelerator Academy membership?

Using a Siemens Xcelerator Academy membership empowers you to quickly embrace digital transformation by

providing round-the-clock access to modularized content and practice labs. Our industry-leading customer success organization has curated engaging and continually evolving learning resources for Siemens Xcelerator Academy members. With a membership, you can customize your learning pace, accessing content whenever and wherever you need it. The extended membership duration facilitates ongoing learning and skill development, equipping you with the tools to excel in your role.

Does my academic institution have to be a Siemens customer for me to get a free membership?

Regardless of whether you are part of a Siemens-affiliated educational institution, students and educators can seamlessly verify their academic status and gain instant access to an annual Siemens Xcelerator Academy Academic membership. Once granted, you can annually renew this membership, ensuring continued access to Siemens academic resources and benefits.

How can I identify when my membership will expire and how can I renew it?

You can find the membership's expiration date under the "My Orders" section. After it expires, you can renew it by verifying your academic status.

How does an educator or student obtain their Siemens Xcelerator Academic membership?

To activate a membership, students and educators need to first create a Siemens account. Next, they will need to verify their academic affiliation using SheerID. This is outlined after this FAQ section in step-by-step instructions.

What if I am an educator that already has access to a TG200000E membership?

If an academic institution has a TG200000E license, educators can still access their Academic membership to manually enroll students. However, to save time, students can automatically verify themselves.

What if I am a student or educator in China?

We are currently unable to automatically verify academic statuses located in China. However, educators can join our [academic partner program](#) to unlock membership for themselves and their students. Once becoming an active partner, five "Academic Memberships for Educators (TG200000E)" will become available.

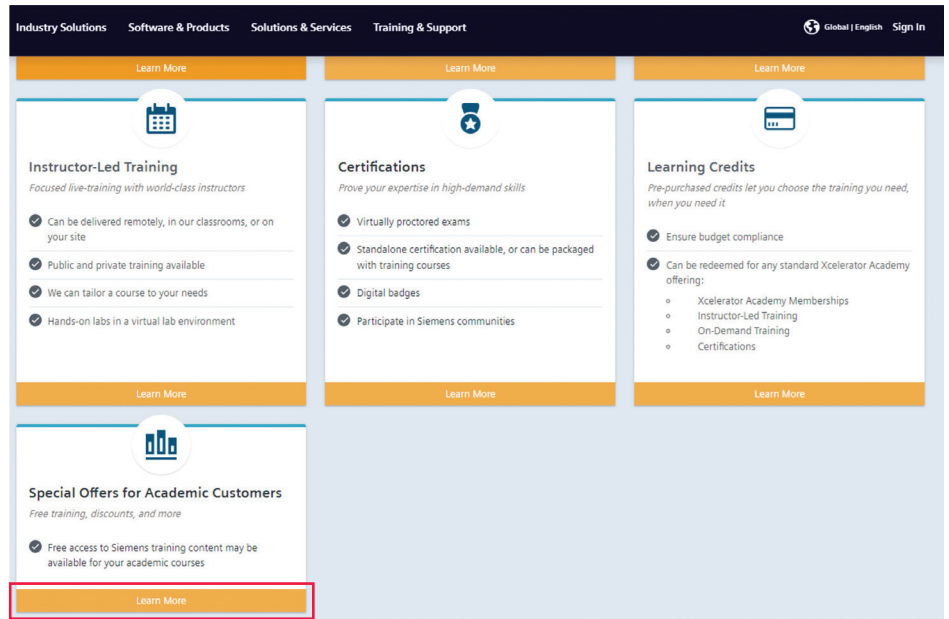

If you are an enrolled TG200000E educator at an academic institution, you can continue to manually enroll students.

Siemens Xcelerator Academy

Instructions

Redeeming an Siemens Xcelerator Academy academic student or educator membership

1. Visit the Siemens Xcelerator Academy “Browse and Buy” page and select the “Learn More” button under “Special Offers for Academic Customers.”

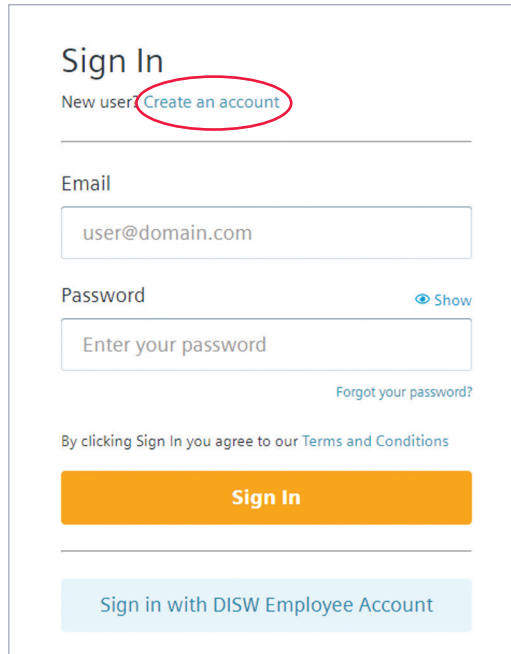

2. Under “Academic Memberships” select “Verify.”

Note: If you are an educator or student in China, we regretfully inform you that we cannot apply this verification method. Please consult the FAQ section above for specific instructions on how to obtain these academic benefits.
