XCELERATOR ACADEMY ACTIVATION

Instructions and FAQ

Introduction

All active Siemens Digital Industries Software academic customers and partners are entitled to no-cost access to Xcelerator Academy, a convenient, easy-to-use e-Learning portal with over 7,000 tutorials and assessments. This is the same learning portal that industry

customers pay to access, at no cost to our academic customers. Xcelerator Academy ensures that faculty and students have the highest-quality software training available.

Frequently Asked Questions

What is Xcelerator Academy?

Formerly known as Learning Advantage, Xcelerator Academy is a learning portal that enables users to gain skills and

knowledge, as well as prepare for industry certifications in Siemens Digital Industries Software products. Xcelerator Academy contains over 7000 tutorials and assessments that are updated whenever new software versions are released so users stay up to date with the latest information. For more information, visit the Xcelerator Academy homepage: siemens.com/plm/training

Unrestricted.

Xcelerator Academy – Academic Memberships and Certifications: instructions and FAQ

What is included in my free Xcelerator Academy academic account?

Educational institutions with active Siemens software licenses are granted access at no cost:

- Five administrator accounts. Note that additional administrator memberships are available upon request. The memberships remain active as long as the academic institution maintains active Siemens licenses. You can learn more about administrator access here: https://training.plm.automation.siemens.com/support/la_admin_guide.pdf
- Unlimited student/user accounts – students and non-administrator users can self-register for this account with a code unique to each educational institution
- Both account types have access to over 7000 learning assets. The educator account also includes group administration tools, though use of these tools is entirely optional and will not affect student access

How does an eligible academic institution redeem its Xcelerator Academy membership?

To activate your membership, your license contact will use the same webkey account they use to log on and download software. This webkey must be associated with the sold-to ID for the school's licenses. This one-time redemption process includes defining an

administrator and your academic institution's email address suffix(es). The administrator does not need to be the same as the license contact. Whoever is named administrator will receive an email with login instructions to your Xcelerator Academy corporate account.

You can set up your webkey account here:

<https://www2.industrysoftware.automation.siemens.com/webkey/>

How will a student obtain their Xcelerator Academy membership?

Students who have an active email address with the suffix defined by the administrator can self-register for their Xcelerator Academy membership. The self-registration instructions, which contain instructions and a code unique to each educational institution, are included within your Xcelerator Academy administrator console. The administrator can export the PDF and distribute it to the students or post it to the school's intranet site for student access.

Can an academic institution change the email suffix used to determine eligibility for TG22000, or add additional suffixes?

Yes. Change requests must be submitted to academic.sisw@siemens.com Note the email address suffix defines eligibility for student/user memberships, so students who currently have memberships may lose their access if their email doesn't match the change.

Is there a cost to obtain Xcelerator Academy academic memberships?

No. Memberships are offered at no cost to eligible academic institutions and every member of the campus community with an eligible email suffix is entitled to an account within that membership.

Is there a limit to how many students can register for a student/user account?

No. all students who are enrolled at the academic institution are eligible to obtain accounts if they have an active email address from that institution and the institution maintains active Siemens software licenses. Students will be prompted to verify their account via email every six months.

Can a corporate administrator remove a student's membership?

Yes, your institution administrator may remove the student's membership as well as change their account status.

Can a student be added to a group when they self-register for a student/user account?

Yes, educator/administrator members can assign students to groups.

Does a student have to repeat the self-registration process each year?

No, a student only has to self-register for their account one time.

Xcelerator Academy – Academic Memberships and Certifications: instructions and FAQ

Who should I contact if I have additional questions?

If you have any questions, please contact your academic account manager or the Global Academic Partner Program team at academic.sisw@siemens.com

With Xcelerator Academy, is there a way to select and share learning paths with my students, peers or other users?

Yes! You can select a course or courses and add them to a Quicklist. You can then share a link to that Quicklist. This is a fantastic way to embed assignments in your syllabus or distribute them via your school's LMS, share tutorials you found particularly helpful, or prepare new student team members.

You can learn more about how to use Quicklists here:

<https://blogs.sw.siemens.com/academic/learning-advantage-tip-quicklists/>

I'm part of a student team that has separate licenses for Siemens software. Should we redeem an additional Xcelerator Academy membership on top of the one the school uses?

No. Whenever possible, all students at a given school should create user accounts under the school's primary Xcelerator Academy membership. For instance, when a team has members from multiple institutions, some of whom do not have their own Xcelerator Academy membership, please reach out to your account rep for further instructions.

My racing team has a Siemens license, but my school does not. Can team members still use Xcelerator Academy?

Yes. In this instance, the faculty sponsor should redeem the membership and be the primary administrator.

I'm a faculty member or student at a school with Siemens licenses and I'm just hearing about Xcelerator Academy for the first time. How can I find out if my school has a membership?

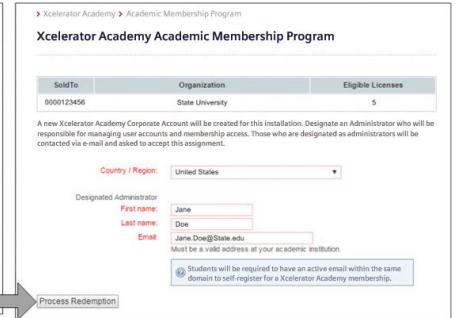

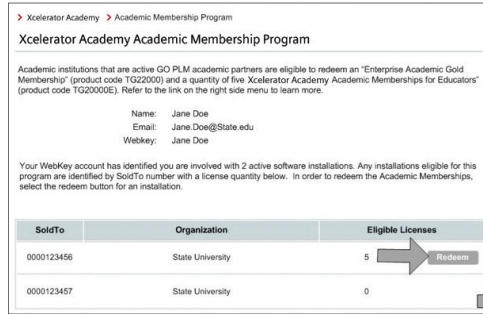

First, share this FAQ and instructions with your instructor or your school's license contact (usually someone in information technology). That person should either know if they've redeemed the membership or be able to do so using the link and instructions in this document. If the license contact runs into issues redeeming the membership, they may contact academic.sisw@siemens.com for more information.

Xcelerator Academy – Academic Memberships and Certifications: instructions and FAQ

Instructions

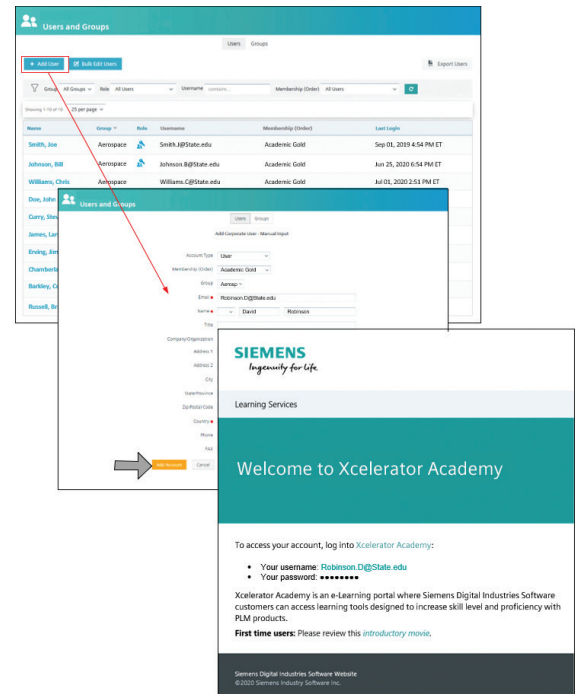

Procedure to redeem a school's Xcelerator Academy academic membership (one-time procedure)

1. Create a webkey account and associate it to your SoldTo number. <https://www2.industrysoftware.automation.siemens.com/webkey/>
2. The license contact redeems the memberships and designates an administrator (either themselves or another faculty or staff member) to manage their users' memberships. <http://training.plm.automation.siemens.com/mytraining/edu/index.cfm>
3. The designated administrator will receive an email with the option to "Agree or Decline" their role as the administrator.

Step 2. Redeem the membership and then designate an administrator.

4. The Xcelerator Academy administrator will receive an email with their login information. They can then access Xcelerator Academy and add faculty and provide them with educator/administrator membership. They will then receive an email with login instructions.

Step 4. Add faculty and receive email with login instructions.

Administrator role in Xcelerator Academy – Action required

Your institution, State University, has acquired 5 Academic Gold (for educators) membership(s) and an Enterprise Academic Gold Membership (for students) on Xcelerator Academy and you have been designated by Jane Doe (Jane.Doe@State.edu) to be the administrator of the corporate account. The administrator is responsible for managing user accounts and memberships within your corporate account. A membership provides users access to the self-paced courses and other valuable content.

You may choose to accept or decline this designation. If you accept, you will be sent a separate e-mail that will include login and usage instructions. If you decline, Jane Doe will be sent a notification to designate another person to be the administrator for this account.

Click [agree](#) to accept the administrator role. Clicking agree also certifies you have read and agree to the Xcelerator Academy [legal terms and conditions](#).

Click [decline](#) to reject the administrator role.

Step 3. Agree to the the Administrator role in the email received.

Xcelerator Academy – Academic Memberships and Certifications: instructions and FAQ

Procedure for an administrator to provide self-registration instructions to non-administrative users

1. Administrator logs into their Xcelerator Academy account and selects “Administration.”
2. Administrator selects “Memberships” and looks for Enterprise Academic Gold Memberships (TG22000), then selects “Configure Options,” toggles on “self-Registration,” generates a new code, picks self-registration contact, and updates.
3. Administrator selects “Export Instructions” and distributes the PDF to students or other non-administrator users.

Step 2. Allowing self-registration.

SIEMENS

As a member of **State University** you are eligible to obtain a Xcelerator Academy **Enterprise Academic Gold Membership**, which provides access to a library of self-paced courses for Siemens Digital Industries Software products. You may self-register for this membership through the following procedure. Contact your administrator, Jane Doe (jane.doe@state.edu), if you are unable to complete this process.

1. Go to URL <http://training.plm.automation.siemens.com/mytraining/selfreg.cfm>
2. Enter the self-registration code: ●●●●●●●●
3. Define your account:
 - Select your country
 - Enter your first and last name
 - Enter your **State.edu** Email address
4. Check your email inbox for a message titled "Welcome to Xcelerator Academy" from xceleratoracademy.sisw@siemens.com which will contain your login information. (Add xceleratoracademy.sisw@siemens.com to your Safe Senders List to ensure you receive email notifications).

1. Log into Xcelerator Academy: <http://training.plm.automation.siemens.com/mytraining/login.cfm>
2. Go to URL <http://training.plm.automation.siemens.com/mytraining/selfreg.cfm>
3. Enter the self-registration code: ●●●●●●●●
4. Complete your registration by confirming any account changes
5. Check your email inbox for a message titled "Welcome to Xcelerator Academy" from xceleratoracademy.sisw@siemens.com which will contain your login information. (Add xceleratoracademy.sisw@siemens.com to your Safe Senders List to ensure you receive email notifications).

Special terms for this membership are shown below and are in addition to the Legal Terms and Conditions posted on the Xcelerator Academy website at:
<http://training.plm.automation.siemens.com/mytraining/displayip.cfm?productID=termsconditions>

- You must have a **State.edu** email address to access this Membership. Modifying your Xcelerator Academy account to a different domain will result in a loss of your membership.
- You must verify your Xcelerator Academy account every six months to retain access to this membership. This is a simple process used to verify that the email address associated to your account is still active
- The maximum term of this membership is **48 months**.
