

TECHNOLOGY TO TRANSFORM THE EVERYDAY

The Ingenuity Center at Siemens

Where industry-leading expertise meets a state-of-the-art customer experience.

usa.siemens.com/ingenuitycenter

Managing building technologies infrastructure is a complex responsibility. Implementing new systems, or updating old ones, often brings with it a host of new questions. How do we integrate with existing systems? How intuitive is our new software? How will this all work for me in the real world?

Get answers, get confidence

The Ingenuity Center at Siemens Smart Infrastructure is the place for answers. Located at our Digital Service Center in Austin, Texas, the Ingenuity Center brings together Siemens experts from across our entire portfolio and in-person demonstrations of our newest and most popular technologies. It's where questions are addressed face to face and through hands-on experience.

Each visit to the Siemens Ingenuity Center is tailored specifically to your needs. Our guests meet with Siemens representatives who are experienced in various industries to discuss how our technologies impact those markets. Product managers are available to discuss specific technical details or talk about how today's technologies will affect tomorrow. Our 15-foot touchscreen wall provides the setting for detailed demos and interactive sessions. Bottom line, we show our guests how technology and the ingenuity of people come together to transform the everyday.

Siemens Ingenuity Center offers an ideal setting for expert presentations and demonstrations.

SIEMENS

An immersive experience, tailored to your needs

Experience your solution today

There's no substitute for experience. At the Siemens Ingenuity Center, you'll speak to our experts and view demos to learn about the integrated capabilities of our Siemens intelligent infrastructure solutions and services, including:
