Protection  
matters

## Protecting what matters.

**Protecting the backbone of modern society – power, data, connectivity, and even the irreplaceable – is what matters.**

Whether your company is small or large, it's crucial to keep people, mission critical areas, business processes as well as high-value and irreplaceable assets safe. Because when you feel protected you can concentrate on your tasks, be creative, be productive and successful.

Nowadays, everyone relies on having access to data, being connected, and having continuous power. They are the backbone of modern life. And that's exactly what our extinguishing solutions protect. Besides that they also protect irreplaceable assets such as ancient books, art work, or documents and keep the environment safe.

The extinguishing offering is part of our fire safety offering. It provides you with automated, intelligent and integrated fire protection for people, processes, assets and the environment.

**Siemens has a broad fire safety offering. It protects what matters with every element of protection.**

With Siemens, you get advanced, easy to install extinguishing solutions – fully integrated into a complete fire protection concept. They are based on decades of know-how and experience and are tailored to the specific risks of fire and challenges.

# Sinorix – intelligent extinguishing offering

### Tailored

Sinorix – customized for your unique requirements

### Reliable

Sinorix – for optimized business continuity

### Sustainable

Sinorix – to protect people, environment, processes, and assets

## Sinorix offers intelligent choices for extinguishing. Tailor-made and fully integrated into the fire protection system.

In case of a fire, seconds count – earliest and reliable fire detection, leading people out of the danger zone and initiating extinguishing are of utmost importance. But it is not only essential to react quickly and efficiently, but also that any damage to costly and sensitive equipment can be kept to a minimum. For that it is

essential to have a reliable solution tailored to the individual requirements. There is only one chance to protect what matters.

Our extinguishing offering is based on almost 110 years in extinguishing and more than 170 years in fire safety. The advanced Sinorix extinguishing portfolio for room and object protection comprises systems with natural or chemical extinguishing agents as well as gas/water-combined systems.

To make sure that the solution exactly fits your needs, it is tailored to the specific application and risk of fire as well as local requirements and regulations. The advanced systems can be seamlessly integrated into the fire safety solution. As the systems are designed for easy installation and operation, you can rest assured that people, assets, processes and the environment are protected.

## Typical applications

IT and server rooms		Electrical switching rooms		Telecommunication systems	
UPS systems		Li-ion storage systems		Closed transformers, generators	
Control rooms, technical rooms		Cable ducts		Archives, storage vaults	

People spend about 90 percent of their time indoors.

Improve the places where they spend their lives and you improve their lives.

With our people and technology, our products and services, our aim is to create perfect places.

For every stage of life.

When building technology creates perfect places – that's Ingenuity for life.
