

Armin Gruenewald

Curriculum Vitae

- **Vice President Manufacturing Business Group,
Manufacturing Engineering Software**

Armin Gruenewald is leading the global Manufacturing Business Group and is a member of the Manufacturing Engineering SW Panel, which is defining the development strategy for our Manufacturing Engineering Software Unit. This includes the Siemens PLM Digital Manufacturing Portfolio elements for Part Manufacturing, Assembly Planning, Quality Solution and TC Manufacturing.

Armin has been with Siemens PLM (former UGS) since 1996, undertaking a variety of roles as Pre-Sales Consultant, Director of COC and Head of Professional Services Germany. In 2006 he started to build the MBG global team.

Prior to joining Siemens, he spent several years in the CAD/CAM/PDM industry at Computervision as a Technical Manager in Pre-Sales Consulting and Service supporting customers in Auto, A&D and Machinery.

Armin has a degree in mechanical engineering and is a certified toolmaker in Germany and started his career at GE Fanuc Automation Center in Frankfurt.

He lives in Frankfurt with his wife and 3 sons. His hobbies are sailing, skiing and restoring historical cars.
