

SIEMENS

Ingenuity for life

Siemens Mobility Services (SIMOS™)

SIMOS™ Easy Spares®

Spare parts service for optimized availability of your systems

Rail systems require maximum reliability throughout their entire lifetime. Investments in such systems must bring long-term returns. This can only be achieved, if the availability of systems and their components is ensured. As your strong and reliable partner, Siemens Mobility Services will assist you with efficient service concepts.

Intelligent linking of proven customer solutions

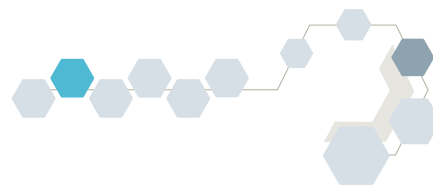

We ensure your supply of spare parts while you can focus entirely on your core business.

With SIMOS™ Easy Spares®, we take over the stocking of your spare parts and guarantee fast delivery from our central warehouse. You are no longer burdened with additional costs for stocked material and logistics services, thus released liquid assets can be used for other purposes.

Our Easy Spares concept avoids downtimes thanks to reliable delivery as early as the next working day. We offer you an efficient, end-to-end supply of spare parts on demand to ensure your systems are constantly available.

Our vision:

"Identified in 10 seconds, ordered in 3 minutes, delivered in 24 hours!"

Your requirements:

- Customized concept design
- Availability guarantees
- Short delivery times
- Minimum warehousing costs
- Around-the-clock ordering

Our service – your benefits

- Tailored spare parts supply concept
- Availability of defined spare parts
- EU-wide delivery on the next working day
- Lower investments
- Online orders (24/7) via Rail Mall

Well-established concept in practice

Many customers are convinced of the benefits of our new spare parts service concept and already rely on Easy Spares.

Our innovative Easy Spares spare part concept enables us to ensure that you receive all predefined spare parts on demand within just a few hours. This boosts the availability of your system and enhances your competitiveness. Thanks to pooling of materials in our central warehouse, you also profit from additional synergy effects and a warranty that begins with shipment of the spare part. All around Europe, you can rely on delivery on the next working day. And all that for just a modest service charge on top of the list price.

We will be pleased to offer you a supply concept aligned with your particular needs!

Easy Spares Combino

- Easy ordering around the clock via Rail Mall
- EU-wide delivery on the next working day, faster delivery by courier possible
- Selected material spectrum
- Cost benefit by pooling identical parts across several fleets

Easy Spares Vectron

- Easy ordering around the clock via Rail Mall
- EU-wide delivery on the next working day faster delivery by courier possible
- Every relevant spare part in the central warehouse
- Short delivery times, even in the case of complex components thanks to innovative production concepts – e.g. four weeks for bogies
- Attractive spare parts prices thanks to continuing series production
- Tailored replacement concepts
- Availability guarantees for an agreed material spectrum
- Obsolescence monitoring

We keep the world running.
