

FOR SIEMENS SWITCHGEAR AND CIRCUIT BREAKERS

LifeGuard™

Customizable extended warranty program
usa.siemens.com/lifeguard

LifeGuard™ is a warranty extension and a long-term maintenance program combined into a single offering that provides peace of mind to plant owners and operators. It is a completely customizable extended warranty program that can be added to the purchase of new Siemens' switchgear or applied to Siemens' brand switchgear already in service.

LifeGuard provides all preventive and corrective maintenance for the selected coverage period and offers flexibility for you to choose the extended warranty terms and conditions that meet your business needs. LifeGuard warranty extension coverage begins after the standard original equipment manufacturer (OEM) warranty expires.

Customizable options:

- Term coverage
- Maintenance cycle
- Full service or TFA for in-house maintenance team
- Up-front capitalization or yearly fixed invoicing
- Optional additional testing of ancillary equipment
- Product covered

SIEMENS

LIFEGUARD™

For stress-free service covering the entire product lifecycle

LifeGuard covers all new and existing Siemens low- and medium-voltage switchgear, as well as replacements, retrofit and modernization products supplied and manufactured by Siemens.

Some benefits and features include:

- Full equipment warranty for component failures
- Preventative and corrective maintenance costs fixed for the term of coverage
- Future corrective maintenance cost risk is eliminated for the period of coverage
- Customizable financing options available for up-front capitalization of program costs that may allow for enhanced rate of return on asset ownership or costs can be spread throughout the coverage period
- LifeGuard can be added to long-term purchasing agreements
- Switchgear and circuit breakers can be relocated and still covered under the program
- Available 24/7 phone support

Coverage: Preventive and Corrective Maintenance

Options

Customizable Terms:

- From 5-year, up to 30-year programs available
- Customizable terms

Customizable financing options:

- Select either up-front capitalization of maintenance costs to allow enhanced rate of return on asset ownership, or
- Choose yearly invoicing costs spread throughout the term of coverage

Customizable Preventive Maintenance cycle:

3, 5, 10, or custom options available (years between preventive maintenance)

Customizable Service:

- Siemens performs maintenance, or
- Customer performs maintenance with Technical Field Assistance from Siemens

Products covered:

Available for Siemens low- and medium-voltage switchgear, including replacement, retrofit and modernization products supplied and manufactured by Siemens.

Customizable equipment testing:

For additional ancillary equipment, such as relays, arrestors, battery systems, etc.

To customize your program, contact your Siemens representative or request a quote at usa.siemens.com/productsupport.
