

CREATE A BETTER TOMORROW WITH US

Graduate Trainee Engineer Program 2022

Siemens Graduate Trainee Engineer Program 2022

As a leading technology company, we strive to nurture future talents and make a positive impact to society through innovation. Through our Graduate Trainee Engineer Program, you will gain international exposure within diverse teams, as well as unlimited opportunities to engage with industrial Internet of Things (IIoT) and cloud technologies while you start your career in the traditional electrical industry.

Do you have the courage to think beyond the possible? Apply now create a better tomorrow with us!

Our four strategic priorities

Customer impact

We anticipate what our customers need before they even know they need it.

Technology with purpose

Innovative technology has been at the core of Siemens for more than 170 years and it will remain at the core of the future we're building.

Empowered people

Driving progress by empowering our customers, partners and employees.

Growth mindset

Rather than make yesterday last, we are committed to building tomorrow – by learning and being open to change.

We leverage our Company Core Technologies in all our businesses
