Pc. No. 50102A03

Installation Instructions

	<p>⚠ DANGER</p> <p>Hazardous voltage. Will cause death or serious injury.</p> <p>Turn power off supplying device before installing.</p>
---	--

SAFETY INSTRUCTIONS

NOTE: This instruction outlines the recommended installation procedure.

1. Turn power off supplying device before installing kits.
2. Remove fuse clips from load end only.
3. Mount adaptor assembly in fuse clip position with 10-24 X 1/4" round head screw and lockwasher as shown.
4. Mount fuse clip to adaptor assembly as shown below.

NOTE: When reassembling the fuse clip assemblies to the line or load position for a 240 V. installation, if the closed end of the fuse clip spring is facing in towards the fuse blade, remove the spring, rotate 180° and then reassemble to fuse clip.

NOTE: Stamp the assembly area letter adjacent to the interior label.
