## Acting Responsibly SUSTAINABILITY

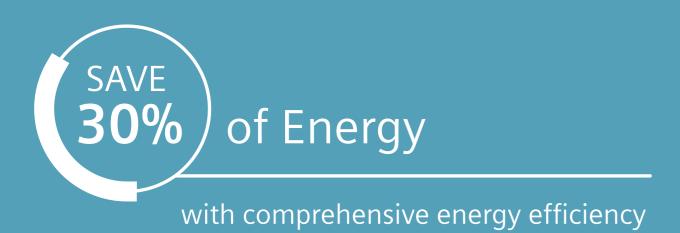

## Sustainability as a Competitive Advantage

Companies that report to a sustainability index outperform non-sustainable companies on a number of key financial measures.

Your manufacturing processes represent one way of driving sustainability and shaping a more successful future for your company and customers.

## How can Siemens help you?

and environmental portfolio.

REUSE 100% of Waste Water

with complete water treatment systems.

reduced as Siemens PLM makes requirements fully visible as developing new products.

through Totally Integrated Automation across all production steps.
