Digital Fitness Check Procurement

Unlocking the digital future of procurement

The challenge

Digitalization is disrupting everything from business models to entire industries – impacting organizations. As the current level of **digital maturity** shows, many procurement organizations **have started their digital journey** and have begun introducing digital initiatives. However, they do not necessarily have a **comprehensive picture on their digital maturity level** and require a concrete action plan.

Our approach

To unlock the **digital transformation** and the **future** of procurement, a **clear picture of your current status quo is needed**. Therefore, the Digital Fitness Check provides a comprehensive assessment to gauge your **procurement's maturity for digital transformation**.

The impact

The **Digital Fitness Check** delivers **insights to prioritize your future digital initiatives** and to **develop a digital roadmap** for your procurement organization. It supports your digital transformation journey **towards being a digital champion**.
