

JUNE 17, 2021 | 1:00 – 4:00 PM EST

## Executive Cybersecurity Forum for Electric Power

### Biography

#### David Ball, P.E.

#### Managing Director, AEP Transmission Operations

As Managing Director, Transmission Operations, Mr. Ball has responsibility for Operations Centers and personnel in New Albany, Ohio; Roanoke, Virginia; Shreveport, Louisiana; Dallas, Texas; Columbus, Ohio and Corpus Christi, Texas. The AEP Transmission Operations team includes the dispatching, real time reliability, operational technology, settlements, field meter operations, compliance and operator / dispatcher training.

Mr. Ball has been with American Electric Power (AEP) or its operating companies since 1989. Over the course of this career, David has had increased responsibility from hands-on activities associated with maintaining and installing protection and control equipment to high quality and on-time delivery of substation system protection engineering and design project deliverables within the AEP capital project portfolio. He has also had responsibility for development and maintenance of AEP substation system protection policies and procedures and NERC standard compliance related to substation system protection.

Mr. Ball has a bachelor's of science degree in Electrical Engineering from West Virginia University Institute of Technology and master's of Business Administration from Marshall University. He has also completed executive leadership programs with Ohio State University and University of Virginia.

**David Ball**

Mr. Ball will be a panelist at the Executive Cybersecurity Forum for Electric Power.
