Notes and forward-looking statements

This document contains statements related to our future business and financial performance and future events or developments involving Siemens that may constitute forward-looking statements. These statements may be identified by words such as “expect,” “look forward to,” “anticipate” “intend,” “plan,” “believe,” “seek,” “estimate,” “will,” “project” or words of similar meaning. We may also make forward-looking statements in other reports, in presentations, in material delivered to shareholders and in press releases. In addition, our representatives may from time to time make oral forward-looking statements. Such statements are based on the current expectations and certain assumptions of Siemens’ management, of which many are beyond Siemens’ control. These are subject to a number of risks, uncertainties and factors, including, but not limited to those described in disclosures, in particular in the chapter Risks in the Annual Report. Should one or more of these risks or uncertainties materialize, or should underlying expectations not occur or assumptions prove incorrect, actual results, performance or achievements of Siemens may (negatively or positively) vary materially from those described explicitly or implicitly in the relevant forward-looking statement. Siemens neither intends, nor assumes any obligation, to update or revise these forward-looking statements in light of developments which differ from those anticipated.

This document includes – in IFRS not clearly defined – supplemental financial measures that are or may be non-GAAP financial measures. These supplemental financial measures should not be viewed in isolation or as alternatives to measures of Siemens’ net assets and financial positions or results of operations as presented in accordance with IFRS in its Consolidated Financial Statements. Other companies that report or describe similarly titled financial measures may calculate them differently.

Due to rounding, numbers presented throughout this and other documents may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

Outlook Fiscal 2015

Basic earnings per share (Net income)

In €

- We believe that our business **environment will be complex in fiscal 2015**, among other things due to **geopolitical tensions**.
- We expect **revenue** on an **organic basis** to remain **flat year-over-year**, and orders to exceed revenue for a **book-to-bill ratio above 1**.
- Furthermore, we expect that **gains from divestments** will enable us to **increase basic earnings per share (EPS)** from **net income** by **at least 15% from €6.37 in fiscal 2014**.
- For our **Industrial Business**, we expect a profit **margin*** of **10–11%**.
- This outlook excludes impacts from legal and regulatory matters.

**Effective with fiscal 2015, our enhanced profit definition excludes amortization of intangible assets acquired in business combinations.*
