Sales Development Program **Digital Industries Automation:** *Internship*

Program Overview:

Are you interested in being part of the 4th industrial revolution and gaining exposure to the latest trends in automation and industrial technologies? Here at Siemens, we make real what matters through our inclusive and rewarding work environment.

In the Sales Development Program (SDP) internship within Siemens Industry, Inc., Digital Industries, you will play an integral part in supporting the sales organization to promote and sell Siemens' innovative products, solutions and services to customers in the industrial markets. This program is a direct feeder into the full-time Sales Development Program.

The SDP internship program enhances an individual's strengths in business, communications, information systems management, engineering and technology and professional selling.

We are looking for people who are inventive – true problem solvers who challenge themselves to find the most effective and efficient solutions to challenges. We provide a platform for those who want to have an impact on the future and contribute to the successes of the company, our customers and the world.

This instructional and hands-on program, when combined with results-driven, highly-motivated top graduates, is a recipe for a successful sales career with a global market leader.

Examples of Past Rotations and Projects:

- Understanding the rich history of Siemens and the Siemens values
- Learning about our business units and our TIA portfolio of products and services
- Learning about the industrial markets and our channels to serve them
- Core selling skills training
- Learning key sales processes and tools
- Establishing internal and external business relationships
- Developing professional skills and capabilities
- Access to and network with Siemens decision makers and key leaders
- Learning Siemens programs and tools to help better succeed in a sales role
