

Mounting prices Valid from May 1st 2020

In accordance with the protocol on the conclusion of the collective agreement for the electrical and electronics industry 2020 dated May 19th 2020, an increase of 1.6% in the collective minimum wages and salaries was agreed. Taking this agreement into account, the following hourly rates will apply starting May 1st 2020:

Charge rates according to the installation conditions of Siemens AG Austria, Smart Infrastructure – RSS (formerly Building Technologies)

I. Charge rates for local installations:	Normal Hour EUR
Project manager	147.93
Service technician (installation, commissioning technician) for conventional systems	130.14
Service technician (installation, commissioning technician) for semi-electronic systems	147.93
System engineer or technician for Repair / maintenance work	201.56
Software technician / programmer for fully electronic systems	230.33
II. Verrechnungssätze bei Fernmontagen:	Normal Hour EUR
Project manager	153.85
Service technician (installation, commissioning technician) for conventional systems	136.57
Service technician (installation, commissioning technician) for semi-electronic systems	153.85
System engineer or technician for Repair / maintenance work	209.41
Software technician / programmer for fully electronic systems	236.77

Normal hours (weekdays): Monday - Thursday from 07:00 to 17:00; Friday from 07.00-13.00.

The overtime surcharge is 40% of the normal hourly rate. The night, Sunday and public holiday surcharge is 80% on the normal hourly rate.

The travel time will be paid for in the actual amount incurred and the mileage allowance will also be charged in accordance with the installation conditions. Accommodation costs will be charged in the actual amount.

The smallest billing unit is one ½ hour.

These hourly rates do not include the VAT.

Insofar as the rates refer to installation conditions, these are the installation conditions of Siemens AG Austria, Smart Infrastructure - RSS (formerly Building Technologies) in the latest valid version. (<https://asc.siemens.at/recht>).

Beiblatt zu Montagesätze gültig ab 01. Mai 2020

The following explanations apply to the charge rates according to the installation conditions of **Siemens AG Austria, Smart Infrastructure - RSS for the Area Vienna**:

Special conditions for the Vienna area of operation:

- A travel flat rate of EUR 145.00 is charged for fire protection, security technology and metering, control, and regulation technologies (MSR) operations in the Vienna area.
- The travel flat rate replaces the billing of travel time and distance according to actual expenditure.

Special conditions for the St. Pölten area of operation:

- For fire protection operations in St. Pölten within a radius of 10 km around the town hall of St. Pölten a travel flat rate of EUR 145.00 is charged.
- The travel flat rate replaces the billing of travel time and distance according to actual expenditure.

Climbing aids:

If climbing aids are required for the operations and are not provided by the customer, the following will be invoiced:

The use of the Siemens Smart Infrastructure - RSS Cherry Picker is charged at EUR 250.00 (Vienna area) or EUR 300.00 (outside Vienna area).

All other access platforms, aerial work platforms, etc. rented by Siemens Smart Infrastructure - RSS for the customer will be charged as directed.
