Siemens USA has been a national asset moving America forward for more than 160 years, investing $40 billion in the United States over the past two decades.

Siemens Technology Transforms the Everyday... for Everyone

Named Fast Company’s 2022 “World Changing Company of the Year,” Siemens creates technology that supports the critical infrastructure and vital industries that form the backbone of America’s economy.

With customers in all 50 states and Puerto Rico, working with more than 100 U.S. cities, Siemens USA’s 40,000 employees and 17,000 suppliers transform the everyday – from more agile and productive factories, to more intelligent and resilient buildings and power systems, to more reliable and sustainable transportation.

Named Fast Company’s 2022 “World Changing Company of the Year,” Siemens creates technology that supports the critical infrastructure and vital industries that form the backbone of America’s economy.

Building Smarter Infrastructure
Decarbonizing cities with smart buildings, electric mobility, distributed power systems, and grid modernization.

• 70% of all power that flows around the world is analyzed by Siemens technology.

• 100K EV chargers deployed throughout the U.S.

• 40 U.S. airports utilize Siemens technology.

• 3,000 schools K-12 and higher education rely on our technology for safer and more efficient environments.

Advancing U.S. Manufacturing
Helping America’s manufacturers automate production and pursue digital transformation.

• #1 in industrial software

• 90% of Fortune 500 industrial companies rely on our technology.

• 870,000 companies and 4M+ users globally use Siemens software.

• 200,000+ Siemens developers

• Pioneering the Industrial Metaverse including an industry-first partnership with Nvidia

Moving America
Delivering American-built trains and rail technology for safe, efficient, and connected future.

• 2 out of 3 light rail vehicles in the U.S. are manufactured by Siemens.

• 9 of the 10 largest U.S. cities rely on Siemens Mobility for their transit systems.

• 2,700 vehicles and counting built at our solar-powered U.S. rolling stock hub

Advancing Cybersecurity and IoT
Creating a fair, open, digitally secure and connected future.

• 1,200 cybersecurity professionals globally protecting customer data and securing products for digitalized industry and infrastructure.

• 4,000 companies using low-code platform to build apps 10 times faster.

• 2.3 million devices connected to the industrial IoT

Leading in Environmental, Social, and Governance
Supporting sustainability and social, economic, and racial equity and inclusion.

• #1 in the Dow Jones Sustainability Index for the 21st time

• Committed to net-zero by 2030, more than halfway to our goal.

• $100M Kickstarter program to help decarbonize small and medium-sized companies.

• One of 2022 Forbes America’s Best Employers for Diversity, America’s Best Employers for New Grads, America’s Best Employers for Women, America’s Best Employers by State and America’s Best Large Employers

Preparing the Next Generation Workforce
Training and reskilling the workforce to increase opportunity and grow U.S. competitiveness.

• 15,000 students given free access to Siemens technology.

• 125,000 Siemens software licenses held by U.S. academic institutions.

• 4,000 U.S. military veterans hired in the last decade.

• Continuing our apprenticeship program to develop the manufacturing workforce.

• Invest $37M annually in workforce training and continuing education

Prioritizing R&D and Innovation
Inventing the technologies that expand what’s humanly possible.

• 1 Siemens patent filed every day

• $1B invested annually on research and development.

• Partnerships with all 17 U.S. Department of Energy national laboratories.
