

# Shaping Digitalization Innovation at Siemens

Dr. Roland Busch, Chief Technology Officer and  
Member of the Managing Board of Siemens AG –  
Siemens Innovation Day China 2017  
September 13 – 14 | Suzhou

## Autonomous Robotics Driving innovations from China to the world

Siemens China to lead the  
company's global **R&D in  
autonomous robotics**

Building a robotics center with  
**Tsinghua University** in Beijing

# New technologies and digitalization change everything

## New technologies

- Storage
- GaN inverter
- 3D printing
- LIDAR
- Low-cost edge devices
- Electric propulsion systems
- Digital twin

## Supply chain

## Ecosystems

## Business models

- Interconnected mobility
- “Availability” vs. products
- “Power” vs. turbines
- Car sharing vs. cars
- Decentralized energy systems

## Digital technologies

- Data center
- Cloud technology
- AI/ML algorithms
- Cost connectivity
- 5G
- Open source SW (TensorFlow, Cloud Foundry, Cassandra ...)
- “Containerization”
- Autonomous cars, robots

# Vision 2020 is our strategy – And our answer to changing environments

## Global trends

Digitalization

Globalization

Urbanization

Demographic  
Change

Climate Change

## Market development (illustrative)

Power  
generation

Power  
transmission,  
power distribution  
and smart grids

Efficient use  
of energy

Efficient  
healthcare  
delivery

# Global company with a strong regional footprint – Active in more than 200 countries

**€86.5bn**

Orders

**€79.6bn**

Revenue

**351,000**

Employees

**One of the world's  
largest producers  
of energy-efficient,  
resource-saving  
technologies**

**Among the top 10  
largest software  
companies worldwide**

**World leader in the  
field of automation**

All figures refer to continuing operations (as of September 30, 2016)

September 14, 2017

Dr. Roland Busch

# Digitalization provides growth momentum

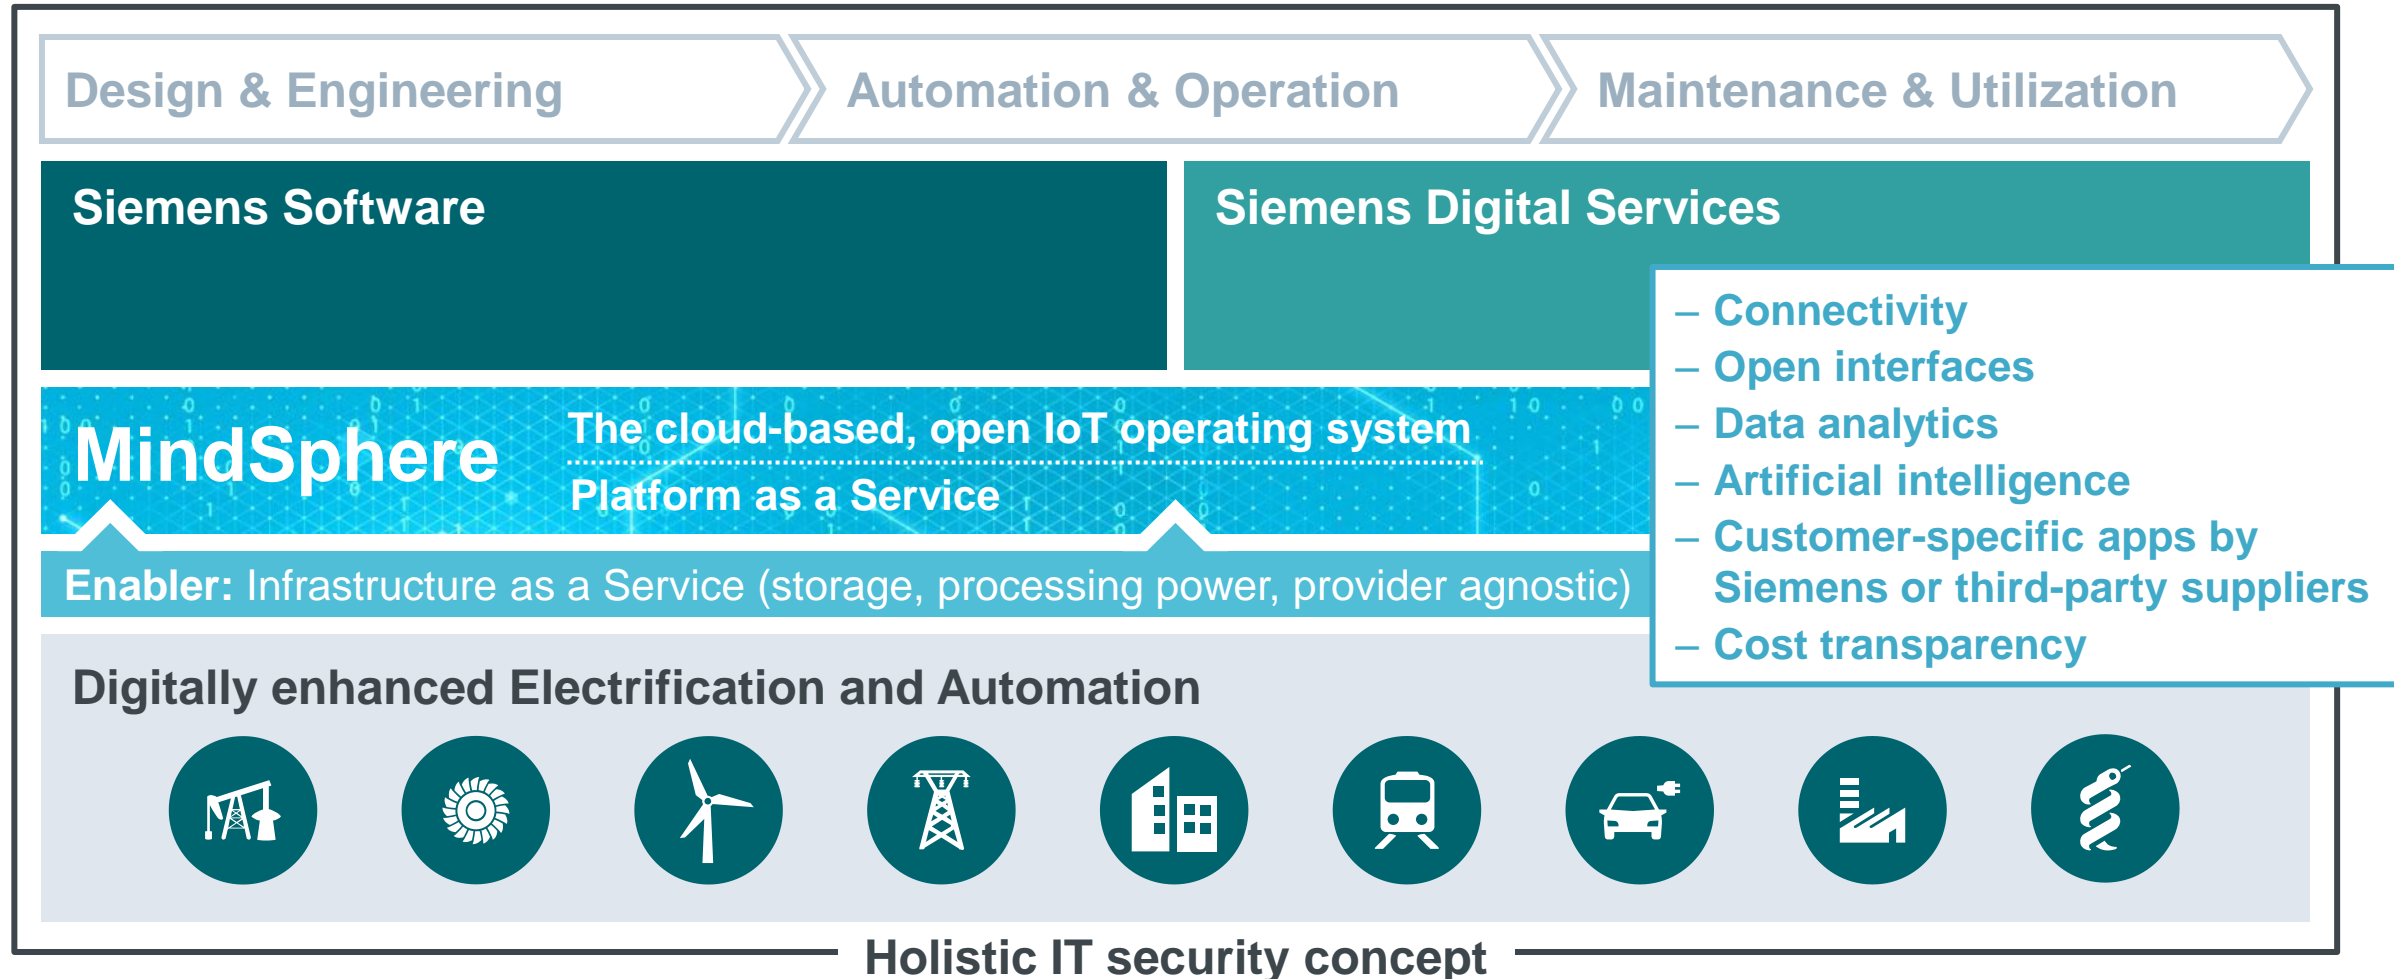

<sup>1</sup> Comparable; portfolio adjusted

## Our products and solutions clearly differentiate us from the competition

- Deep domain know-how in broad range of markets and industries
- Strong installed base/connected fleet
- Powerful ecosystem
- Unmatched digital portfolio: MindSphere, Software, Services, Security
- Numerous Siemens internal use cases as proof points

# Digitalization – Holistic approach to meet the needs of our customers worldwide

# Long-standing #1 position in automation – Now combined with the power of Siemens Software

**SIEMENS**  
*Ingenuity for life*

<sup>1</sup> In-house developments/digital upgrades

Unrestricted © Siemens AG 2017

# Open partner ecosystem

## Consulting/strategy partners

## Technology Provider

## Application Developer

## IaaS Provider

## System Integrator

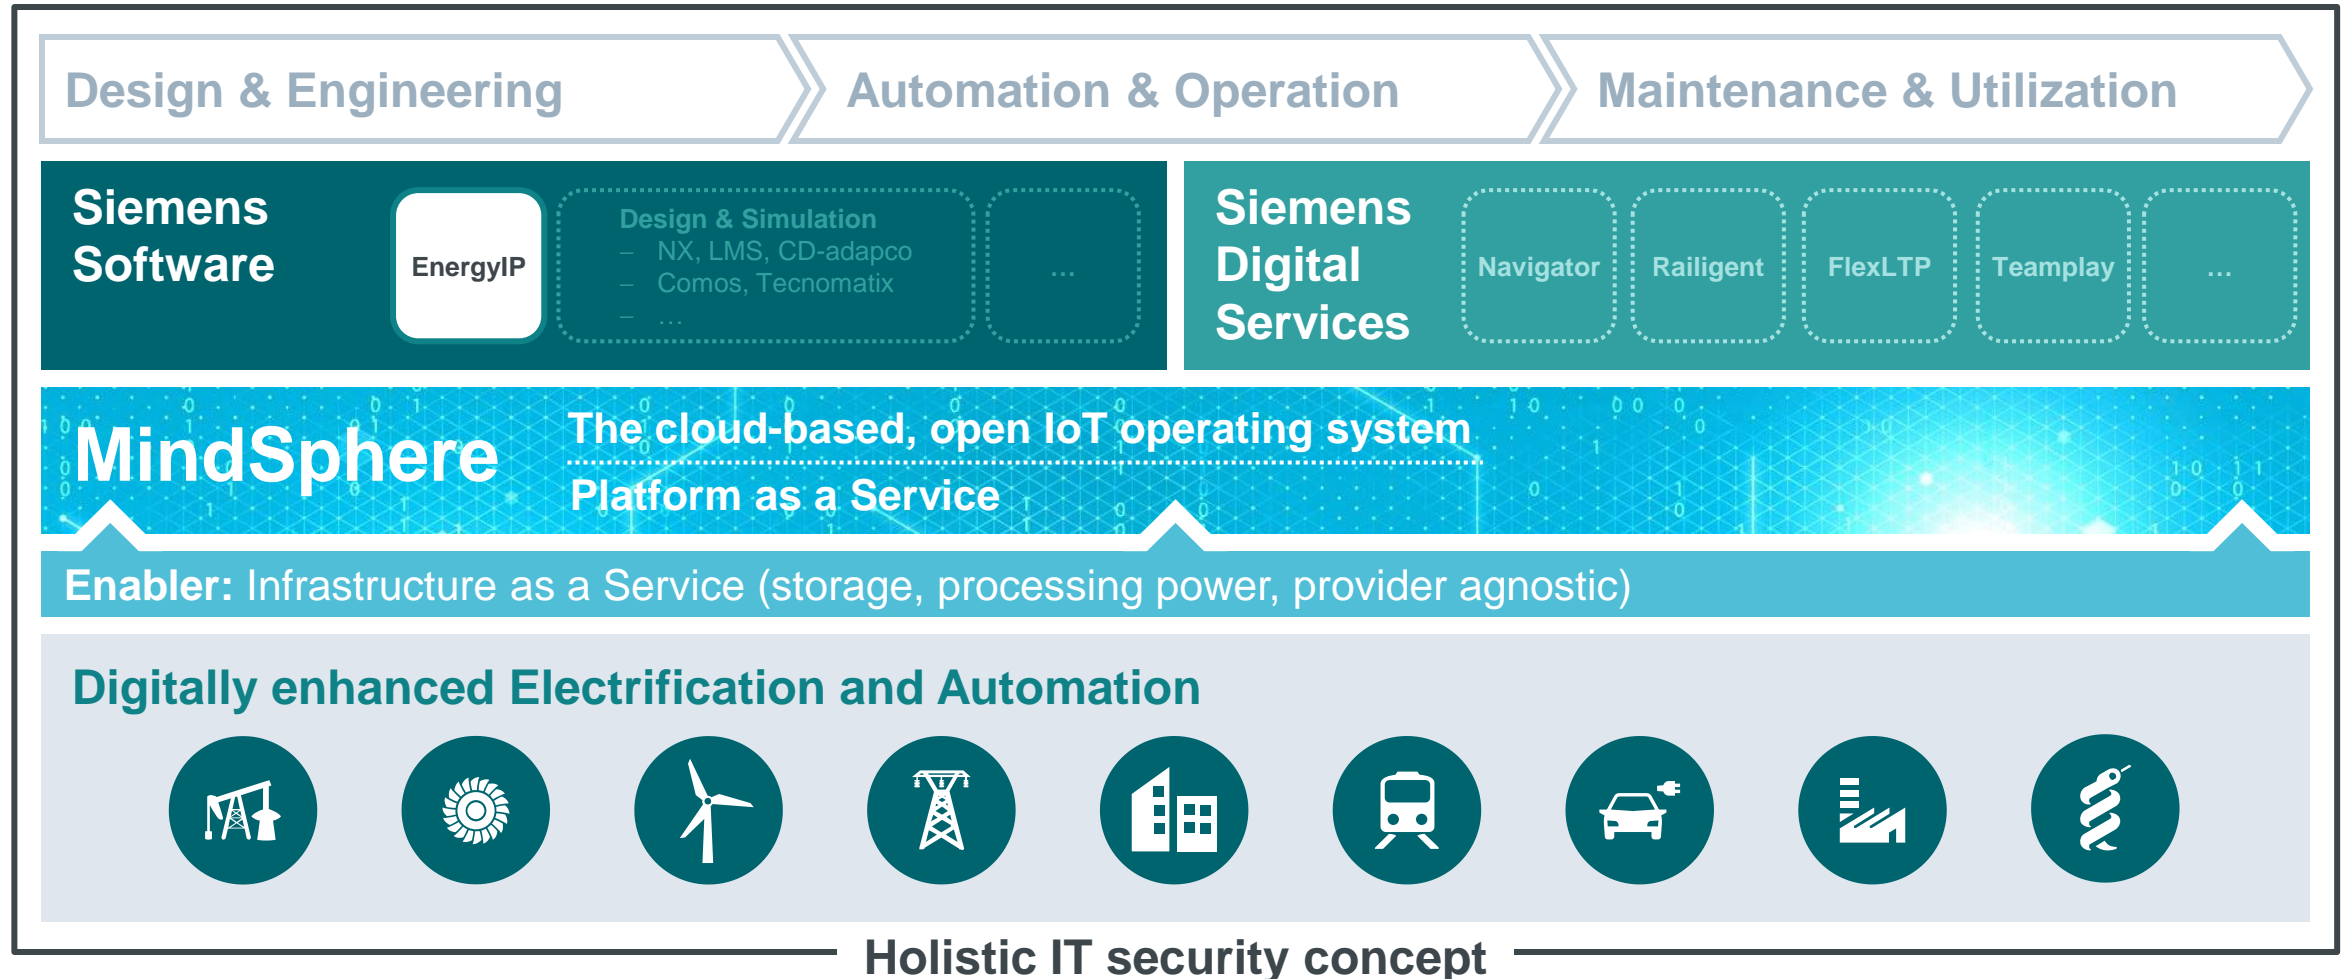

## Connectivity Developer

**MindSphere**  
The cloud-based, open  
IoT operating system

# Holistic approach to meet customer needs

## Jacksonville, USA Smart power grids

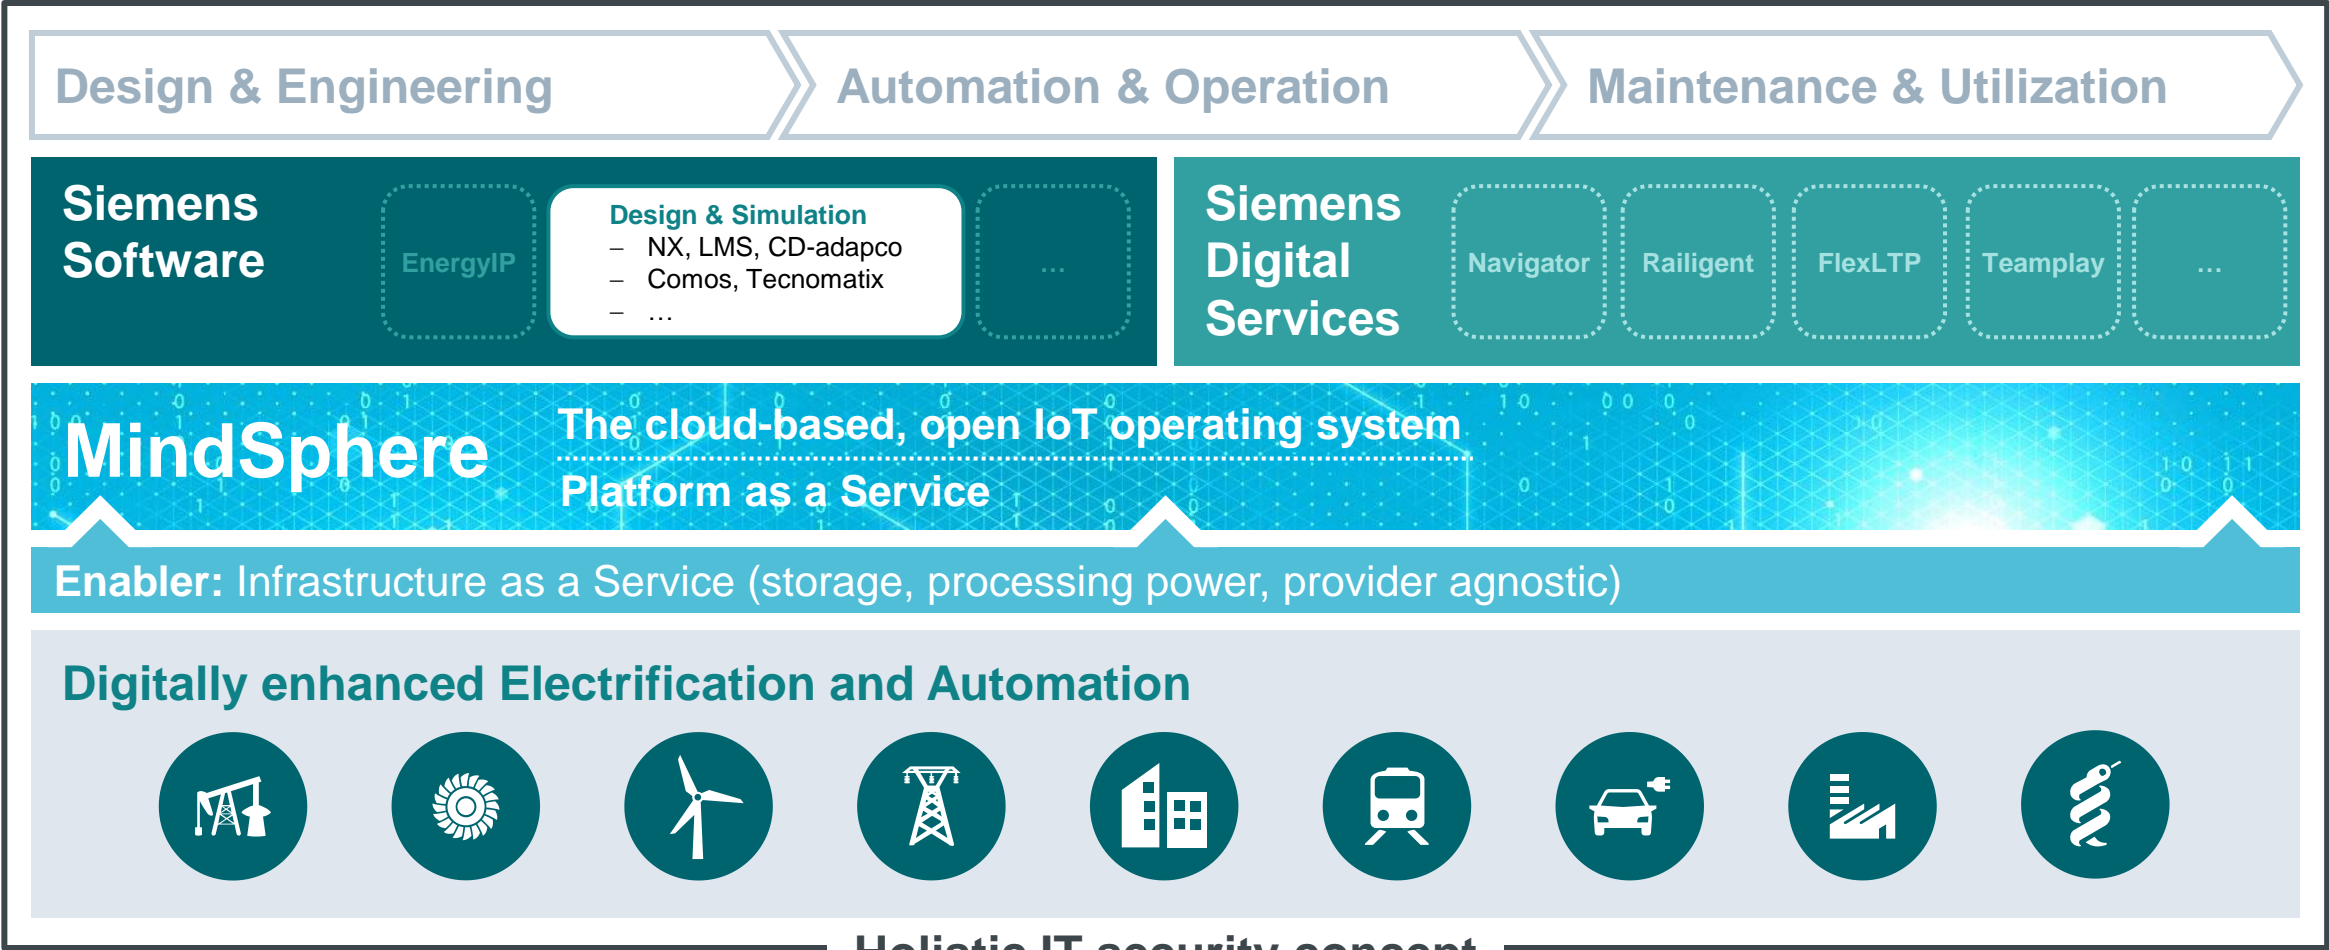

Trend in utilities sector: Upgrading infrastructure with **advanced metering**

**EnergyIP:** Collects, consolidates, validates meter data and outage events, automated workflow

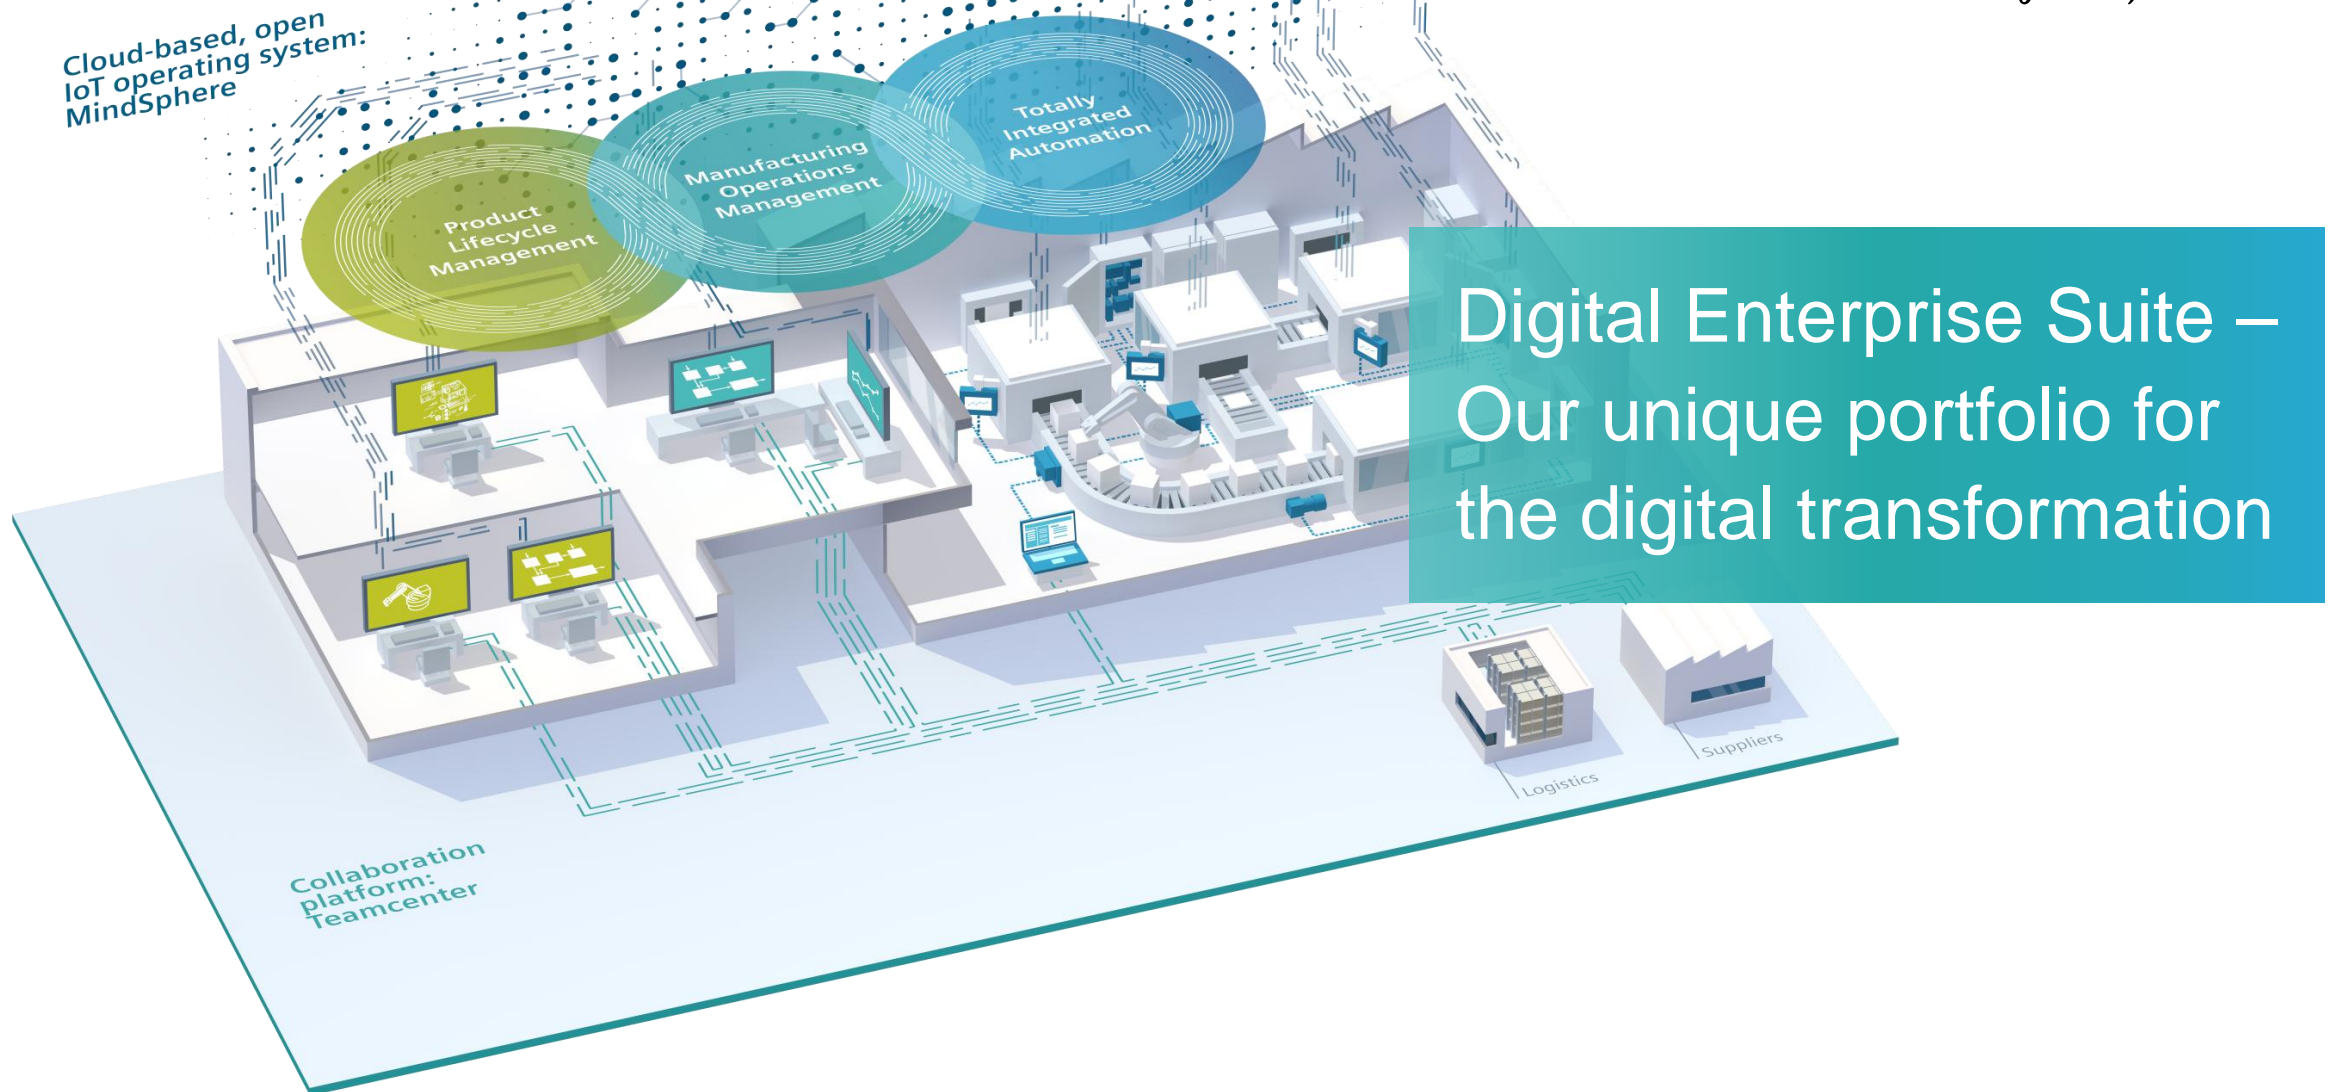

**Improved reliability,** new pre-paid offerings for customers, less maintenance: Jacksonville-based U.S. utility saves about US\$1 million per year

# Holistic approach to meet customer needs

Holistic IT security concept

## Siemens Industrie 4.0 factory Amberg, Germany

# Internal value – Improvement of own sites

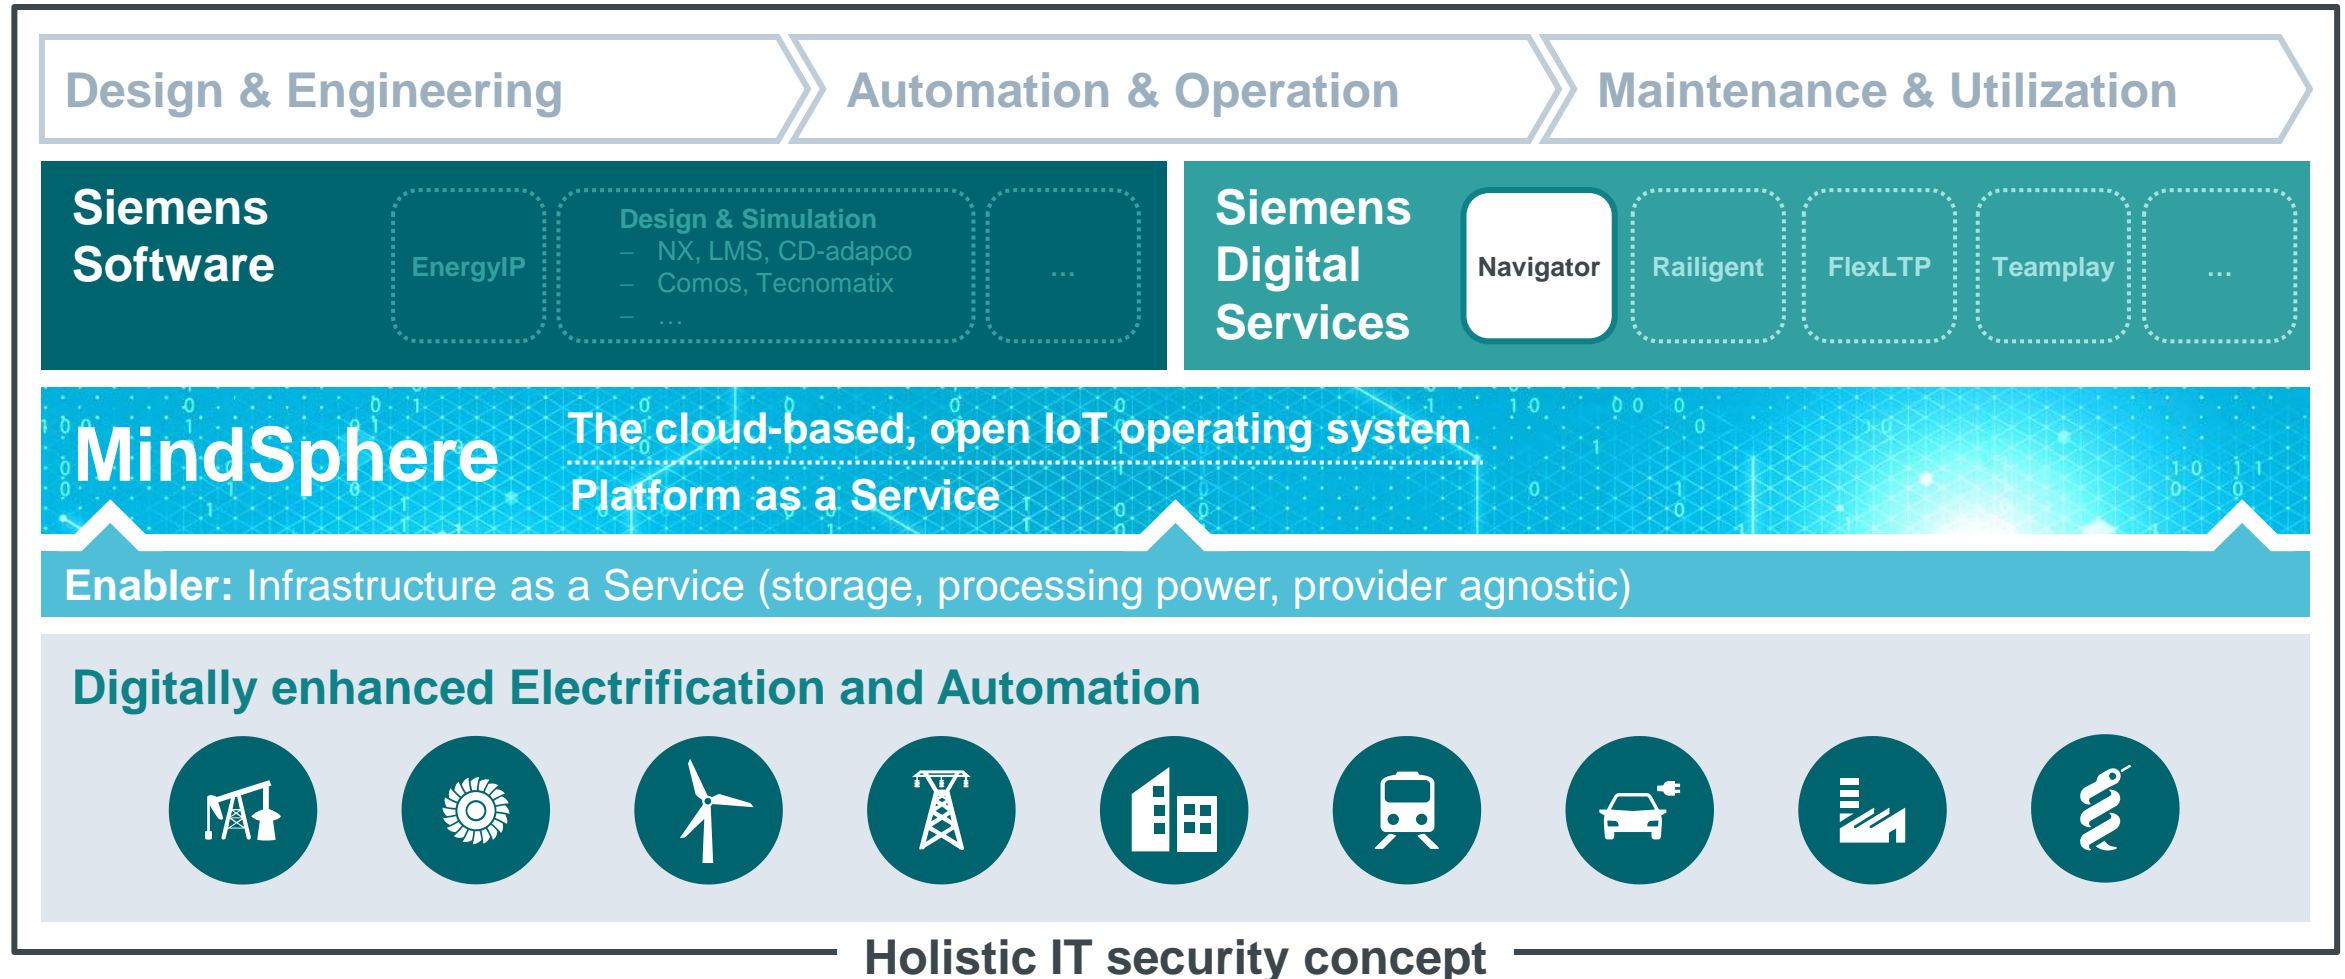

Production of more than  
**120 variants per day**

Based on **75% automation**

Less than 11 defects per million (dpm)  
equal a **quality rate of 99,9988%**

Digital twin of Amberg factory  
in Chengdu

# Holistic approach to meet customer needs

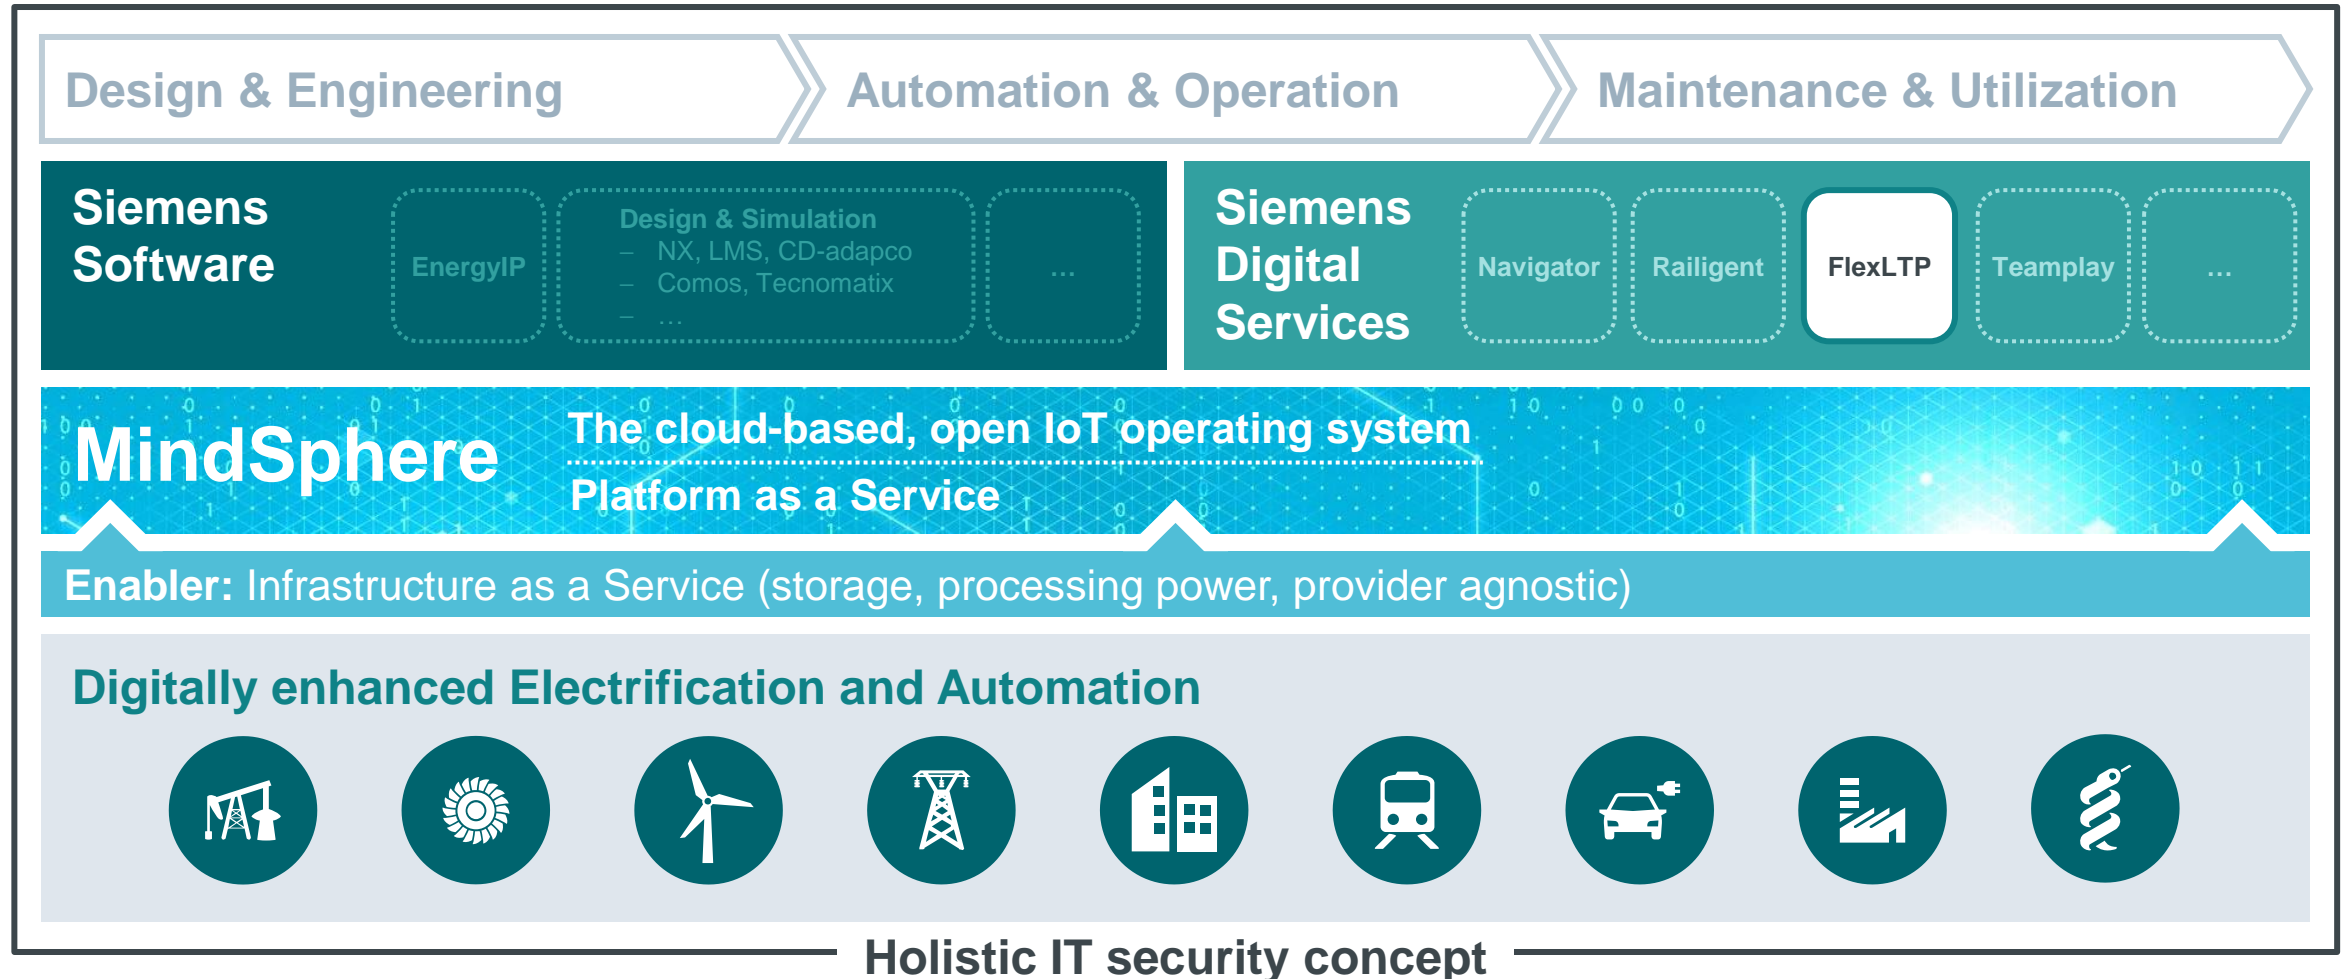

## Capital One, USA Optimized building performance

**Navigator** monitors >20 office buildings for U.S. top-ten bank holding Capital One

Analytics based on **14 million data records** per week

Energy savings of **10%.** Strong potential for more reductions

# Holistic approach to meet customer needs

## Machine learning NO<sub>x</sub> emission reduction

Reducing NO<sub>x</sub> emissions of gas turbines with **artificial intelligence**

Machine learning algorithm automatically optimizes the control parameters **better than human experts**

Benefit: **15 – 20% more** NO<sub>x</sub> reduction

# A unique digital offering for the infrastructure needs of a city

## Operating system of a city

### Siemens Software and Digital Services

# MindSphere

The cloud-based, open IoT operating system  
Platform as a Service

**Enabler:** Infrastructure as a Service (storage, processing power, provider agnostic)

### Electrical field devices of a city

## Holistic IT security concept

# Hong Kong 2016

**SIEMENS**  
*Ingenuity for life*

**7.4m**  
Inhabitants

**€290bn**  
GDP (€39,500  
per capita)

5<sup>th</sup> highest population  
density in the world

## Excelsior Hotel

7-year performance  
contract achieving  
33% energy savings  
and 12,000 tons  
CO<sub>2</sub> reduction

## Black Point

### Power Station

550 MW CCPP with  
>60% efficiency,  
achieving +20%  
O&M efficiency

## East Rail Line

Modernising MTR line  
between Chinese  
border and Hong Kong  
central business  
district, 33% higher  
train capacity

# Hong Kong 2030

**8.3m**

Inhabitants  
→ +12%

**20%**

Reduction of energy  
intensity

**-4%**

Loss of labor  
workforce

**100%**

Increase in cross-  
border commuter  
trips

**40%**

Less CO<sub>2</sub> emissions  
per capita

# Hong Kong 2030

## Sustainable buildings

Saving up to 90% of energy and 75% of water in office buildings

## Blockchain Energy trading

PV on all roofs supply 25% of the city's energy demand

## CyPT Air

Active management of air quality through technology implementation

## Car sharing

Only 3% of today's car pool necessary, if 24/7 available and managed

## MindSphere

## Siemens and Hong Kong Partner First smart city digital hub in Hong Kong

**Powered by MindSphere**, the hub will tackle the city's challenges in an open, interactive and holistic manner

Focus on connected city solutions, data analytics, cybersecurity and connectivity and edge devices

# Our innovative power – Research with a clear focus on future critical technologies

## Expenditures for research and development

Expenditures for R&D in fiscal 2016

33,000

R&D employees<sup>1</sup>

## Inventions and patents – securing our future

7,500

Inventions<sup>1</sup>

3,500

Patent  
applications<sup>1</sup>

next47

€1 billion

over five years  
in start-ups

## Our Company Core Technologies

- Additive Manufacturing
- Autonomous Robotics
- Blockchain Applications
- Connected (e)Mobility
- Connectivity & Edge Devices
- Cybersecurity
- Data Analytics/Artificial Intelligence
- Distributed Energy Systems
- Energy Storage
- Future of Automation
- Materials
- Power Electronics
- Simulation and Digital Twin
- Software Systems and Processes

<sup>1</sup> In fiscal 2016; <sup>2</sup> Centers of Knowledge Interchange

## Siemens China Cyber Defense Center Safeguarding the digitalization journey

Siemens received the official **National Grade Protection Level 3 certification** from the Ministry of Public Security of P.R.C.

The **first industrial multinational** company to be compliant with both local and international security standards

# Thank you!
