## Drive Service Extended Exchange

Drive systems are at the heart of your general motion control processes, needing to run both safely and reliably. Defects or failure of your drive - whether from mechanical component failure or aging electronic systems - affect the availability of your machines, and result in unexpected repair costs. Providing a solution to help avert these risks can significantly impact profitability while also maintaining reliable plant operation over the long term.

### Qualified, flat-rate extended warranty service

Drive Service Extended Exchange (DSEE) from Siemens gives you the option to secure your SINAMICS drive for an extended period beyond the standard warranty of your new product purchase. For your registered drive, you receive a product exchange or repair at a Siemens Repair Center or a Siemens-approved partner, offering simplified handling for service requests covered under normal warranty conditions.

With your successful product registration, we centrally store your asset's data for simplified and accurate request handling. As a bonus, you also **receive an initial 6 months "free of charge" Extended Exchange**. Options to purchase an additional 3 or 5 year extension are also available to cover drives up to 7 years from date of manufacture, helping to stabilize the cost of repairs.

### Drive Service Extended Exchange includes the following SINAMICS-drives

- SINAMICS G120 PM240-2
- SINAMICS G120C
- SINAMICS V20
- MICROMASTER (MM4)

### Benefits of choosing DSEE

- **Protect.** Safeguard your investment for an extended period.
- **Flexible.** Contractual periods available up to 60 months.
- **Predictable.** Reduce budget risk with fixed pricing and unplanned expenses.
- **Simplified.** No need to verify warranty claims during the contract period with the supplied Certificate of Registration.
- **Confidence.** Repairs from certified Siemens repair shops or qualified partners.

With our clear terms of service and agreed to contract period, you will no longer need to spend time and effort to provide proof of claims or verifying warranty. With a DSEE contract, you know the cost of repairs upfront, making budget planning easier and more transparent while also providing lifecycle protection of your SINAMICS drive. It's a simple formula that minimizes your cost and availability risk.

### Select your Service MLFB to order through IMall

List Price Level		+3 Years Extended Exchange	+5 Years Extended Exchange
	of drive	Service MLFB	Service MLFB
Level 1	<\$800	6FC8505-3EX01-0AA0	6FC8505-5EX01-0AA0
