

Being aware of today's challenges

"What would you tell a customer if he asked you about sustainability at Siemens?"

Acting sustainably means balancing the economical, ecological and social dimension – which is no contradiction but can even lead to new business opportunities.

- ↑ quality of life
- ↓ consumption of natural resources

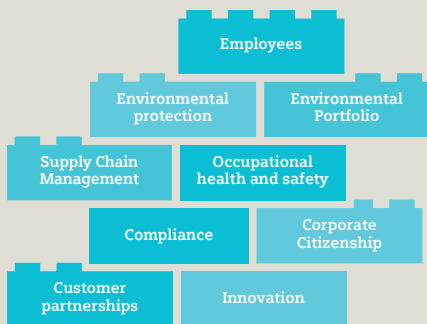

However, today humanity is already consuming the **resources of 1.5 planets** – but we only have one!

Acting sustainably

Sustainability at Siemens

is not only "green" but also covers social and economic aspects. We assemble the following topics under the umbrella of sustainability:

creating new business opportunities

Some key facts¹

Our **Environmental Portfolio** generated €33.2 billion in FY 2012 – 42% of the Company's total revenue.

In FY 2012, we could thus help our customers cut their **CO₂ emissions** by 332 million tons.

More than 1,000 suppliers took part in our **Energy Efficiency Program** until April 2013 which we also conduct internally and offer to our customers.

Digital **product lifecycle management** solutions enable faster response, boost productivity, and lower costs and resource consumption, ensuring a globally competitive situation for many of our leading manufacturing customers.

Our solutions for a reliable and sustainable **energy supply** integrate renewable energy sources and enable more efficient utilization of existing grids which reduces the need for grid extensions.

A 6-megawatt wind-turbine generates 25 million kWh of clean electricity **offshore** per annum. This could supply up to 6,000 households.

Getting valued

Honoring our success in integrating sustainability into our company activities, Siemens has been ranked **Supersector Leader** in the renowned Dow Jones Sustainability Index with 92 out of 100 points in 2012.

By 2014, we aim to provide more than a billion people **access** to our imaging systems.

€ 283 million for continuing education

In FY 2012, Siemens spent €283 million for continuing education to ensure we have the best and expertly **trained professionals** delivering value to our customers.

€ 27.1 million for donations

In FY 2012 we had a lasting impact on the development of **societies** via volunteering, product donations and €27.1 million in monetary contributions.
