Benefits

- Commissioning and parameterization of field devices.
- Displays device status and measurement values.
- Helps with identifying errors and troubleshooting in case of failures.
- Direct link to manuals, certificates, FAQs, and much more.

Application

Commissioning and parameterization of field devices:

- **Device list**
All supported devices in the environment are displayed.
- **Device Cockpit**
Overview of the connected device, device status, and current measured values.
- **Setup**
Commissioning and parameterization of the device, including graphical support.
- **Charts**
History of selected measurement and diagnostic values.

Mode of operation

Mobile devices / operating systems

SITRANS mobile IQ is compatible with supported Android and iOS mobile devices.

SITRANS mobile IQ uses a Bluetooth interface to communicate with the field devices. Your mobile device must have a Bluetooth interface, version 4.2 or better.

Currently supported field devices are listed on SIOS (<http://www.siemens.com/os/SITRANSmobileIQ>) and in the App Store and Google Play. Additional field devices are in preparation and require a new installation of the App on your mobile device. Only the listed field devices are compatible with SITRANS mobile IQ.

Data connection: internet connection is required to access additional information such as manuals of supported field devices.
