## IT Americas/CYS Internship Program: *Internship*

### **Program Overview:**

The IT / CYS Americas intern program is a 12-week summer internship consisting of multiple positions within the Information Technology organization. Based out of the Alpharetta, Georgia or Iselin, NJ offices, the program is intended to create a beneficial relationship and growth opportunity for Siemens, its employees, and collegiate students in the Atlanta area.

The positions within the IT Americas Internship Program support various IT-related functional and business activities throughout North and South America as well as global Siemens programs and initiatives. Interns will have the opportunity to work on projects that deliver innovative, world-class solutions to our business and organization.

### **Examples of Past Projects:**

- Engaging in technical tasks to drive internal improvements, such as automating manual processes, enhancing UI / Dashboards, and developing data models in Snowflake® Data Cloud.
- Assisting in regional cybersecurity governance activities, including cyber awareness campaigns, technology risk assessments, and safeguarding digital assets and systems.
- Supporting Siemens SAP and local application innovation initiatives such as low code app development, data analysis and visualization, and solution development on AI platforms.
- Working with the Sales and Ecommerce team to support the IT service delivery and rollout of a Salesforce-based application.
- Collaborating with the Finance team to streamline the annual true-up process and consolidate reporting tools into a unified reporting center.
- Enhancing quality, compliance, service portfolio management, provider relations, and security and authorizations within IT services.

**About Siemens**

Siemens Corporation is a U.S. subsidiary of Siemens AG, a leading technology company focused on industry, infrastructure, transport, and healthcare. From more resource-efficient factories, resilient supply chains, and smarter buildings and grids, to cleaner and more comfortable transportation as well as advanced healthcare, the company creates technology with purpose, adding real value for customers. By combining the real and the digital worlds, Siemens empowers its customers to transform their industries and markets, helping them to transform the everyday for billions of people. Siemens also owns a majority stake in the publicly listed company Siemens Healthineers, a global leading medical technology provider shaping the future of healthcare.
