App Store!

## Motor Toolkit

The Siemens Motor Toolkit (patent pending) is the most powerful motor app ever designed for a mobile device. Motor Toolkit delivers comprehensive industry resources and connects industry professional motor support anywhere, anytime. Available on the iPhone and iPad, Motor Toolkit provides a wealth of information to help you

broaden your knowledge of induction motors and find solutions that meet your motor challenges.

Whether you're looking to upgrade your equipment with a new motor, order spare parts or troubleshoot your application in the field, the Motor Toolkit Camera feature connects you

to our Siemens product or service teams. In a world where a failed motor can shut down processes and cost hundreds of thousands of dollars in lost product time, the Motor Toolkit contains critical information and direct communication channels with Siemens to respond preventatively and immediately to a motor problem.
