

Continuously minimise the operating costs and CO2 emissions of your buildings

Our plug-and-play solution integrates into existing BMS systems and continuously optimizes your building systems with a payback period of less than one year.

100+
buildings optimized

35%
savings possible

<1 year
payback period

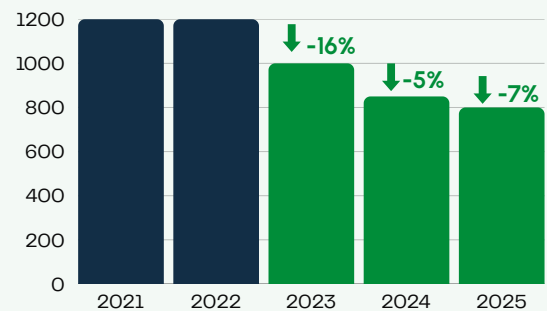

Your benefits

- ✓ Installed in just 1 day, no capital investment required
- ✓ Compatible with any building system, with or without BMS
- ✓ Savings visible within just a few weeks
- ✓ Optimal indoor climate guaranteed at all times
- ✓ Suitable for commercial, special-purpose, and mixed-use properties with energy costs > CHF/EUR 20,000 / year
- ✓ **Payback period in under one year**

Minergie-P Gebäude

Reference example: Office building, 8152 Opfikon (ZH), optimization by Oxoia since 2023

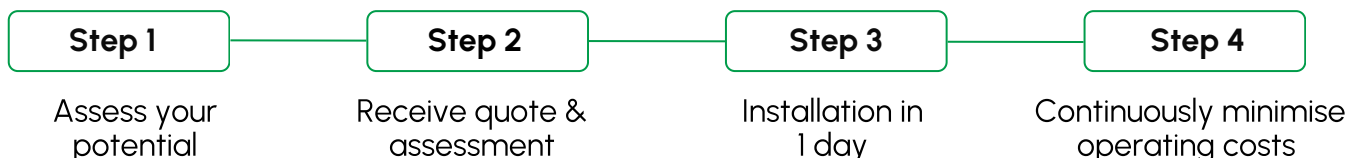

"We are impressed by the detected and unlocked savings opportunities in the Minergie-P building."

Volker Bruno, Head of SPIE IFS, SPIE Switzerland AG
