Partial spin-off of Siemens Energy planned; Siemens Energy holds about 67% of the voting rights at Siemens Gamesa Renewable Energy

The Siemens Ecosystem

Our purpose

Being responsible, excellent and innovative, we create value for our customers, employees and the society. We make real what matters.

COVID-19 | Fight virus, fight as one

What we stand for

- No. 1 priority: ensure people's health and safety
- Fast crisis response with highly motivated people
- Reliable and trusted partner in China

How we stand together

- Over 6,200 employees donated RMB 2.2 million in total, adding to company donation of RMB 15 million worth of medical equipment.
- Rushing in harm's way to deliver medical equipment to hospitals in Wuhan.
- Providing timely support to disease-hit areas, e.g. working nonstop to support construction of Leishenshan and Huoshenshan makeshift hospitals.
- Developing an intelligent disinfection robot in one week to help contain the spread of pandemic.
- Standing fast to ensure customer business continuity, e.g. bringing a customer's mask production line back to operation within 26 hours.

Our compassion, courage and solidarity

Siemens donations for fighting virus

Emergency aid to Wuhan

Racing against time to support Wuhan Leishenshan Hospital

On-site services to customer power plant

Since our founding, we shape industrial revolutions

A reliable partner with China

Siemens witnessed China’s tremendous transformation, especially since the country embarked on reform and opening-up over the years, and has also made great contributions to the prosperity of China’s economy and society.

Offering a wide array of innovation and digitalization solutions, Siemens is committed to sustainable development of the country.

Siemens presented innovation portfolio at the first China International Import Expo in 2018.

Partner with Jinyu Bio to build digital factory

Siemens entered into strategic cooperation with Jinyu Bio to fully support its digital transformation and upgrade, and also helped Jinyu Bio build the first digital factory toward “Industries 4.0” in China’s animal vaccine industry.

By fiscal 2019, Siemens supported hundreds of Chinese industrial enterprises in dozens of sectors to implement digital transformation and upgrade.

“Siemens has always been a professional, dedicated and trustworthy partner in our digital transformation.”

Zhang Chongyu
Chairman of Jinyu Bio-technology Co., Ltd.

Thinking industry further!

Collaborate with BAIC BJEV in digital manufacturing

Siemens' Digital Enterprise solutions enabled BAIC BJEV to build the group's first mass production base for new energy vehicles manufacturing in Qingdao.

BJEV also benefited from Siemens' SICAR standard which helped ensure system consistency, reduce equipment maintenance costs, and make production and maintenance more convenient.

“ Siemens has helped us build the group's first mass production base for new energy vehicles in Qingdao. This has also laid a solid foundation for building our digital factory.

Wang Qingzhou
General Manager of Qingdao Industrial Base
Beijing Electric Vehicle Co., Ltd.

Comprehensive portfolio and expertise across verticals

Operating Companies

Smart Infrastructure

SI is shaping the market for intelligent, adaptive infrastructure for today and the future. It addresses the pressing challenges of urbanization and climate change by connecting energy systems, buildings and industries. SI creates environments that care. Currently, SI has 11 factories and 9 R&D centers in China.

Creating environments that care

Ensure efficient and intelligent management of Shanghai Tower

Siemens equipped China's highest building Shanghai Tower with advanced energy management and intelligent building solutions in terms of power transmission and distribution, energy automation, fire alarm control and intelligent lighting system, enabling safe and reliable power supply and intelligent management of the building.

“ We have long-term cooperation with Siemens. Performances of Siemens products are very satisfactory.

Sun Jun
Engineering Director
Shanghai Tower Construction and Development Co., Ltd.

>1/4

of China's mid and high-end fire alarm systems came from Siemens by fiscal 2019.

Creating environments that care

Support safe and efficient operation of Beijing Daxing International Airport

Siemens' smart infrastructure solutions, including intelligent building technologies and reliable low and medium-voltage products, help ensure efficient and safe operation of Beijing Daxing International Airport.

Siemens' lighting control systems, which integrate thousands of lighting devices, are capable of automatically controlling lighting at the airport.

Operating Companies

Siemens Energy

Siemens Energy is a global pacesetter in energy, which has been working with its customers on solutions for the evolving demands of industry and society for over a century. It offers broad expertise across the entire energy value chain, along with a comprehensive portfolio for utilities, independent power producers, transmission system operators, the oil and gas industry, and other energy-intensive industries.

Making a difference for the future of energy

Set new benchmark of high-efficiency power generation

In Zengcheng, Guangzhou, China Huadian Corporation installs two H-class gas turbines from Siemens to build China's largest combined-cycle power generation project.

With high reliability and 96 percent availability, Siemens' H-class gas turbines are widely used in combined heat and power plants as one of the most efficient ways of converting fuels into usable energy.

“Backed by rich commercially operating fleet experiences worldwide, Siemens' H-class gas turbines boast not only high performance and excellent efficiency but also trustworthiness.

Wang Xin
General Manager
Huadian Fuxin Guangzhou Energy Co., Ltd.

Making a difference for the future of energy

Join hands with CR Power to build digital power plant

Siemens and CR Power have worked together to build a Centralized Supervision and Analysis Specialist System (CSASS) based on Siemens' MindSphere. The system integrates Siemens' leading technologies of digital power plant and artificial intelligence, as well as rich experiences of CR Power. It can keep learning from history and real-time data to generate valuable insights.

The CSASS has come into operation in Jiangsu Region of CR Power and connected 19 power-generating units of eight power plants.

“ Siemens is not only experienced in the area of power generation, but also a pioneer in digitalization. We hope to continue in-depth cooperation with Siemens in the future.

Chen Shihe
Deputy Dean of Technology Institute
Director of Big Data Center China Resources
Power Technology Research Institute Co., Ltd.

Shaping the renewable energy industry

Develop clean and renewable energy in Yunnan

At Yunnan Cangfang wind farm with an altitude of 3,400 meters, Siemens Gamesa's wind turbines convert wind energy into clean power for numerous households.

Corporate Development

IoT Services

With a comprehensive approach to develop strategies, and to create, plan and deliver end-to-end solutions along the entire IoT value chain, IoT Services provides customized digital paths for customers.

In China, IoT Services has hundreds of consultants and IoT design and implementation experts in Beijing, Suzhou, Shanghai, Nanjing and Guangzhou, etc. to implement projects of various scales, from strategy consulting and operation consulting to IoT solution development.

Unlocking the potential of IoT ecosystem

Empower HBIS to become the most competitive steel enterprise

Siemens entered strategic partnership with HBIS in digitalization areas including digital factory, intelligent equipment and IoT.

Meanwhile, both companies are jointly building the first unmanned material yard in China's metallurgical industry. Siemens also provided intelligent factory consulting services for Shisteel of HBIS.

“ Siemens has always been a leader and innovator in industrial transformation. We are confident in the cooperation with Siemens in industrial digitalization and intelligent manufacturing.

Yu Yong
Chairman of the Board of HBIS Group Co., Ltd.

Unlocking the potential of IoT ecosystem

Build intelligent post-leasing platform for Suzhou Financial Leasing

Suzhou Financial Leasing has launched its intelligent post-leasing platform. The platform, empowered by Siemens’ business platform, data layer and IoT services, interconnects its core business systems, and has realized integrated monitoring and management of over 700 leased assets including vehicles, power stations and large equipment, with a total value of RMB2.9 billion.

This is the first time that Siemens’ data layer technology has been applied in the financial leasing industry.

SIEMENS

Strategic Companies

Siemens Mobility

As a leading provider of transport solutions, Siemens Mobility is constantly innovating its portfolio in the core areas of rolling stock, rail automation and electrification, turnkey systems, intelligent traffic systems as well as related services. With digitalization, it is enabling mobility operators in China to make infrastructure intelligent, increase value sustainably over the entire lifecycle, enhance passenger experience and guarantee availability.

SIEMENS
Ingenuity for life

Shaping connected mobility

Provide fully automated operation solutions for Shanghai Metro

Siemens provided core components and key technologies of traction system for 50 fully automated trains in Shanghai Metro Line 18 Phase I project to ensure the line's smooth and efficient operation. Siemens' contributions also covered train circuit design, as well as unattended train operation system off-site testing plan and coordination work.

39

metro lines in 16 Chinese cities used Siemens' signaling systems by fiscal 2019.

SIEMENS
Ingenuity for life

Strategic Companies

Siemens Healthineers

As a leader of medical technology company, Siemens Healthineers China enables healthcare providers to increase value by empowering them on their journey toward expanding precision medicine, transforming care delivery, improving patient experience and digitalizing healthcare.

~1,960,000

people receive blood tests, CT and MR scans and also interventional procedures through Siemens Healthineers' products every day in China.

SIEMENS

Focus areas of research and development

Additive manufacturing	Autonomous robotics	Blockchain applications	Connected (e)mobility	Connectivity and edge devices
Cybersecurity	Data analytics, artificial intelligence	Distributed energy systems	Energy storage	Future of automation
Materials	Power electronics	Simulation and digital twin	Software systems and processes	

Co-create digital future of Greater Bay Area

Contribute to Hong Kong-Zhuhai-Macao Bridge

Siemens' intelligent control systems and fire alarm systems ensure comfortable, safe and smooth traffic environment in the 6.7-km-long subsea tunnel of Hong Kong-Zhuhai-Macao Bridge.

Siemens is the strategic partner for the Guangdong-Hong Kong-Macao Greater Bay Area. We support development of the Area with focuses on enabling clean energy, developing digital manufacturing, building smart city cluster, driving innovations and nurturing talents.

“ Thanks to our partnership with Siemens, we have got not only reliable products and solutions, but also a sense of trust for the future.”

Yue Haifeng
Engineer at the Technology Center
Taiyuan Heavy Industry Co., Ltd.

SIEMENS
Ingenuity for life

Siemens is the right partner for BRI

Enable TYHI to mine gold in extreme environment

Siemens provided robust wide-temperature PLCs for Taiyuan Heavy Industry (TYHI), supporting its rope shovels to excavate gold mine in Russia. Reliability of electrical equipment is essential to productivity of gold mining.

To support Belt and Road construction, Siemens cooperates with Chinese enterprises that are stepping onto the global stage.

>100

Chinese companies worked with Siemens to explore opportunities in over 100 countries and regions across six continents by fiscal 2019.

SIEMENS
Ingenuity for life

Nurture digital talents

Siemens partners with the Ministry of Education to jointly foster digital talents for the future. The company also collaborates with universities and vocational schools in building of labs, teachers training, engineering textbooks and scholarships.

>90

universities and research institutes in cooperation with Siemens on over 770 R&D projects in China by fiscal 2019.

~50,000

innovative engineering talents nurtured through “Siemens Cup” China Intelligent Manufacturing Challenge for 13 years.

Siemens I-Green University Students Summer Project has supported over 600 student volunteers from 15 universities to teach classes at 42 locations in 25 provinces and autonomous regions, benefitting tens of thousands of primary and secondary school students in China since 2018.

Access to education: Siemens I-Green Education Program has been rolled out at 11 schools of migrant children in 10 Chinese cities, helping over 24,000 migrant children increase awareness of environment protection and scientific innovation since 2009.

Our commitment to corporate social responsibility

Access to technology: Siemens helped upgrade and retrofit power distribution systems of Yangpo Village in Guizhou province to ensure electrical safety of the traditional village.

Sustaining community: Siemens provides social assistance to disadvantaged groups, supports development of NGOs, and provides immediate technological and humanitarian assistance in case of natural disasters.

Integrity sets us apart

Siemens has been achieving high rankings in Dow Jones Sustainability Index in the category of “Compliance” since 2009.

Siemens adheres to the highest ethical and moral standards in doing business. Only clean business is Siemens business.

>16,000

employees of Siemens in China participated in the web-based trainings of “Siemens Business Conduct Guidelines” in fiscal 2019*.

*This data doesn't include employees from Siemens Gamesa and Siemens Healthineers in China.

Employer of choice

Siemens attracts and develops talents by encouraging them to take full ownership of self-learning and career development and fostering high-performance culture.

For six consecutive years, Siemens China has been No.1 among Industrial Engineering companies on the list of Most Attractive Employers in China by Universum.

We make real what matters

SIEMENS
Ingenuity for life

Efficient thermal power generation

Over **45%** of fossil power plants in China used Siemens' highly-efficient turbine technologies.

Renewable energy

Nearly **50%** of offshore wind turbines installed in China were manufactured with Siemens technology.

Efficient power transmission and distribution

Siemens contributed to construction of **29** HVDC links already in operation in China.

Connected mobility

39 metro lines in 16 Chinese cities used Siemens' signaling systems.

Industrial applications

Siemens provided technical support for more than **186,000** Chinese industrial enterprises.

Digital manufacturing

Siemens supported hundreds of Chinese industrial enterprises in dozens of sectors to implement digital transformation and upgrade.

Talent education

Siemens nurtured nearly **50,000** innovative engineering talents by hosting "Siemens Cup" China Intelligent Manufacturing Challenge for 13 years.

Intelligent building technology

More than **1/4** of China's mid and high-end fire alarm systems came from Siemens.
