## Project Summary

Launch and implement an anti-corruption Collective Action initiative in five countries (Brazil, Egypt, India, Nigeria, and South Africa) through Global Compact Local Networks.

This project aims to establish a high-impact anti-corruption Collective Action platform in five countries – Brazil, Egypt, India, Nigeria, and South Africa. By facilitating ongoing dialogue between the private and public sector, this project will provide a wide variety of stakeholders in these five countries with an opportunity to explore how specific Collective Action initiatives can create incentives for ethical business performance, and to discuss areas for further improvement. In so doing, the project aims to scale up existing anti-corruption efforts in the target countries, and provide participants with knowledge, skills, strategies and resources to promote ethical practices and transparency in business operations, within each country, and in international cross-sectoral relations. The project will emphasize the role of local actors in each of the target countries, engaging and building the capacity of local stakeholders who are faced with corruption in their routine transactions and business relationships.
