About Siemens

- Siemens AG is a \$100B company with 370,000 employees in 190 countries, including over 60,000 professionals in 700 locations throughout all 50 states and Puerto Rico
- Global powerhouse in electronics and electrical engineering, operating in the industry, energy, healthcare, smart infrastructure and building technologies markets
- A reputation for delivering leading-edge products and services, high levels of customer satisfaction, and an unending spirit of innovation
- Siemens Smart Infrastructure offers sustainable building products, technologies, and practices for existing building operations, maintenance, and renovations
- We provide the systems, services, and resources to ensure government facilities are safe, efficient, cost-effective, and compliant
- Siemens works closely with small and diverse businesses, helping our customers meet their contracting goals
- Siemens' commitment to America's veterans is resolute; we salute them for a job well done by helping them find good jobs

Products & Solutions Portfolio

- **Smart Buildings** – leverages data to create adaptable, people-centric environments that organizations rely upon to increase competitiveness, drive productivity, and support long-term growth
- **Total Energy Management** – a new approach to energy and sustainability management
- **Building Automation** – comprehensive building automation and control systems that can be tailored to fit individual needs and easily integrate with existing systems
- **Fire & Life Safety** – integrated fire protection systems that help protect everything that is important
- **Security** – a critical business enabler to safeguard and create a more secure world
- **InterMesh®** – wireless alarm technology increases response and readiness
- **HVAC Products** – improving the mechanics that control air and water flow throughout the system can enhance performance and provide immediate savings in energy costs
- **Power Distribution** – Consistent, safe, and intelligent low- and medium-voltage power distribution and electrical installation technology
- **Distributed Energy Management Systems** – Distributed Energy Resource Management Systems (DERMS) for advanced control of the grid
- **Siemens Value-based Services** – our experts work with you to define a service program based on specific goals and outcomes you need to achieve

|-------------------------|------------------------|-----------------------|---|
| • Airports | • Government Buildings | • Manufacturing | • Pulp Mills |
| • Commercial | • GSA | • Military Facilities | • Restricted or Sensitive Areas |
| • Data Centers | • Government Waterways | • Paper Mills | • Sawmills |
| • Department of Defense | • Hospitals | • Power Plants | • Water and Wastewater Treatment Plants |
| • Federal Agencies | • Industrial | • Public Works | |

Siemens Contracts

- GSA
 - Schedule 84 (SII Contract # GS-07F-217CA)
 - Schedule 03FAC (SII Contract #GS-06F-0033P)
 - Schedule 56 (SII Contract #GS-07F-0580N)
- Utility Monitoring and Control System (UMCS)

Siemens is one of eight companies awarded a U.S. Army Corps of Engineers Indefinite Delivery/Indefinite Quantity (IDIQ) UMCS IV Contract, which allows federal agencies to procure turnkey, state-of-the-art technologies to increase operational efficiencies, safety, and security.
- Energy Savings Performance Contract (ESPC)

Siemens is one of the 16 ESCO contractors awarded DoE contracts, which allows federal agencies to complete energy-savings projects without upfront capital costs and special Congressional appropriations.
- Utility Energy Service Contracts (UESC)

Siemens partners with government installations and their local utilities to implement demand reduction measures and energy services at federal facilities.

Important Industry Codes

- NAICS: 236210, 236220, 238210, 238220, 238290, 238990, 333414, 333415, 334220, 334290, 334512, 334613, 335314, 335999, 423390, 423610, 423690, 541330, 541512, 541513, 541519, 561210, 561621, 922160
- DUNS: 010944650
