Get your SINAMICS S210 Starter Kit – for an unbelievable special price. You save up to 60%!
The information provided in this brochure contains merely general descriptions or characteristics of performance which in case of actual use do not always apply as described or which may change as a result of further development of the products. The requested performance features are binding only when they are expressly agreed upon in the concluded contract. All product designations could be trademarks or product names of Siemens AG or other companies which, if used by third parties, could infringe the rights of their owners.

To secure plants, systems and machines as well as networks against cyber attacks, a holistic industrial security concept must be implemented (and continuously updated) corresponding to current state-of-the-art technology. Products and solutions from Siemens are just one component of such a concept. You can find additional information about industrial security at siemens.com/industrialsecurity

Description:
The Starter Kit includes a SINAMICS S210 servo converter, a SIMOTICS S-1FK2 servomotor with a high dynamic performance, the appropriate cable to connect the converter to the motor and an SD card with license to use the extended safety functions of SINAMICS S210.

The new motors, teamed up with the converters, result in a solution for low loads that should be moved with a high dynamic performance – as well as average and large loads that should be moved with a very high degree of precision. These converters are equipped with integrated safety functions and can be very quickly configured. Apart from STO, SS1, SBC now additionally with SOS, SLS, SSM, SDI, SLA and SB7 usable with included license.

The converter is connected to a higher-level SIMATIC S7-1500 controller via PROFINET/PROFIsafe – and can be easily commissioned using the integrated web server with One-Button-Tuning.

Content:
• SINAMICS S210 (1AC 230V / 400W) 6SL3210-5HB10-4UF0; SD card with up to date firmware and extended safety license; SIMOTICS S-1FK2 (HD / AH30 / 400 W / without brake / with feather key / with multiturn absolute encoder) 1FK2103-4AG00-1MA0, OCC cable (3 m for connecting the power and encoder) 6FX5002-8QN04-1AD0

Article No.: 6SL3200-0AE61-0AA0

The drives can be purchased for a special price when ordering a Starter Kit. Customers can purchase a maximum of three starter kits. You can place your order here – mall.industry.siemens.com
