## RoHS / WEEE Statement Siemens Smart Infrastructure Distribution System

We fully comply with the requirements on the restriction of the use of certain hazardous substances and waste in electrical and electronic equipment.

For a long time now, we have been committed to the development and production of environmentally compatible items of equipment. This includes avoiding the use of hazardous substances in our products, without adversely affecting the benefits of these products for our customers.

This declaration is based on currently available information and on the current laws at the date of issue.

Due to the voltage range of > 1 kV AC rated voltage our products

- Medium Voltage Vacuum Interrupters

do not fall within the scope of

- EU RoHS Directive 2011/65/EU and
- EU WEEE Directive 2012/19/EU

If used in products falling within the scope of the RoHS Directive, compliance with the requirements must be agreed case by case in separate agreements.

Sincerely yours,

Siemens Aktiengesellschaft

i . V .
