Agenda

TIA Selection Tool - Schweizer-kniven

- Online og Offline version
- Cloud storage
- AML filer
- Tutorials

Maskineksempel

- PLC I/O's
- Motion Control
- Strømforsyning
- Certifikater og datablade
- Bestilling

TIA Selection Tool – quick, easy, smart configuration

For you to get the most out of our portfolio quickly and easily

Do you always need the optimum configuration for planning your project? Of course you do! For your application we offer the TIA Selection Tool to support all project planners, beginners and experts alike. No detailed portfolio knowledge is necessary. TIA Selection Tool is available for download as a free desktop version or a cloud variant.

> Start TIA Selection Tool cloud

Your Advantages

Quick

- Configure a complete project with just a few entries - without a manual, without special knowledge
- Import and export of hardware configuration to TIA Portal or other systems
- Ideal visualization of the projects to be configured

Easy

- Tool download either as desktop version or web-based cloud version
- Technically always up-to-date about product portfolio and innovative approaches
- Highly flexible, secure, cross-team work in the cloud
- Direct ordering in the Siemens Industry Mall

Smart

- Smart selection wizard for error-free configuration and ordering
- Configuration options can be tested and simulated in advance
- Library for archiving sample configurations

Cloud: TIA Selection Tool

Run TIA Selection Tool from anywhere in the world. Just use your web browser

> Start Online

Offline: TIA Selection Tool

Download TIA Selection Tool for the operating system Windows 10 to your workstation and configure without access to the internet

> Download zip-file

Siemens Industry Mall Registration

Please register at the [Siemens Industry Mall](#) to take full advantage of the TIA Selection Tool.
