These Terms and Conditions for purchase of Goods and/or Services ("Terms") by Siemens Energy, Inc. ("Siemens") and all documents attached hereto or referenced herein ("Exhibits"), including the Purchase Order form, amendments or change orders if any, shall constitute the contract for the Goods/Services purchased by Customer (collectively "Purchase Order"). "Customer" means Siemens Energy, Inc. or the Siemens entity identified in the Purchase Order. "Supplier" means the party identified in the Purchase Order. Supplier and Customer are authorized to do business or maintain a registered agent in the USA. Customer and Supplier are, individually, referred to as a "Party" and, collectively as the "Parties". "Affiliate" means, with respect to a Party, any other party who directly or indirectly, through one or more intermediaries, controls, is controlled by or is under common control with such Party. "Representatives" mean a Party's and its respective Affiliates' directors, officers, employees, agents, representatives and/or subcontractors. "Goods" mean products, materials, raw materials, supplies, equipment, information, Work Product, data, drawings, designs, specifications, reports and/or off-the-shelf software furnished by Supplier hereunder. "Services" mean the tasks/deliverables to be provided/performed by Supplier as set forth in the Purchase Order. The Purchase Order is effective and is expressly conditional upon Supplier's assent to all terms and conditions in the Purchase Order that are different from or additional to those stated in Supplier's quotation, proposal, or other offering documents. Customer hereby gives notice of objection to any different or additional terms offered by Supplier in any response to this Purchase Order. Shipment of any Goods or the performance of any Services by Supplier shall be deemed to constitute Supplier's assent to these Terms.

1. Communications and Change Orders.

(A) All written communications shall (i) be directed to the addresses set forth in the Purchase Order, (ii) refer to the Purchase Order number and (iii) be delivered in accordance with the Purchase Order.

(B) If Customer requires modifications to the Goods/Services, the Parties shall negotiate an equitable adjustment in the form of a change order or amendment. Supplier shall not make any changes without Customer's prior written consent.

2. Pricing, Terms of Payment, Taxes and Duties.

(A) The purchase price set forth in the Purchase Order shall be in US Dollars unless otherwise specified in the Purchase Order, shall be firm and shall include Supplier's overhead, insurance, packaging, storage and shipping, wages and other amounts owed to Supplier's Representatives, including all administrative and travel expenses, taxes, customs, tariffs and all other costs, and expenses (including transfer pricing) applicable to the Goods/Services. The purchase prices for Goods (both tangible and intangible) and Services shall be separately stated.

(B) Customer shall not be responsible for the payment of any taxes, customs, tariffs, fees or duties other than those required to be paid by Customer under Applicable Law (defined below) and which are clearly itemized on Supplier's invoice(s). Customer shall provide tax exemption certificates or other applicable tax documents as reasonably requested by Supplier.

(C) Unless otherwise set forth in the Purchase Order, invoices are due and payable net ninety (90) days after receipt of the Goods (including all documents required in the Purchase Order), performance of the Services, and a receipt of a correct undisputed invoice by Customer. Payment(s) shall be by electronic banking method identified in the Purchase Order.

3. Title, Risk of Loss, Delivery.

(A) Title to Goods, and title or license to Services, shall pass to Customer at the earlier of (i) payment by Customer or (ii) receipt of the Goods/Services by Customer per the delivery terms in the Purchase Order. In the event of advance or progress payments, Supplier shall (a) reasonably identify or otherwise mark the Goods/Services as Customer's property; (b) sign and deliver such documents for Customer to confirm that title or license has passed to Customer; and (c) if requested by Customer, provide an advance payment bond acceptable to Customer. Goods/Services shall be delivered free and clear of all liens or claims.

(B) For Goods purchases, the Purchase Order shall state the (i) mode, manner and timing of delivery to Customer, its end user(s) or designee(s) and (ii) address of final destination. Regardless of the shipping terms used, risk of loss to the Goods shall remain with Supplier until Goods are in the possession, custody and control of Customer.

(C) Shipments sent C.O.D. without Customer's written consent will not be accepted and will be at Supplier's risk. Supplier is instructed to ship only the quantities specified in the Purchase Order. Any deviation caused by

conditions of loading, shipping, packing, or allowances in manufacturing processes may be accepted by Customer only pursuant to a duly executed amendment or change order as set forth in Section 1(B). Customer reserves the right to return, without liability, any overshipment at Supplier's expense.

(D) Supplier shall comply with Customer's delivery dates at its sole cost unless the Parties otherwise agree in writing. If a delay originates with Supplier or its Representatives, Supplier shall be solely responsible for expedited delivery and other charges to meet delivery dates. Goods shipped in advance of Customer's delivery dates may, at Customer's option, be returned to Supplier at Supplier's expense. Customer reserves the right to delay shipment of the Goods for up to thirty (30) days at no additional cost.

4. Inspection and Quality Control. Customer, its Representatives and/or end user(s) may inspect, test, reject or accept Goods/Services during manufacture or performance. If inspections/tests are made on Supplier's premises, Supplier, without additional charge, shall provide reasonable facilities and assistance for the safety and convenience of Customer's inspectors. Customer's inspections/tests will not unduly interfere with Supplier's business. Supplier shall maintain quality control and inspection systems as mutually agreed upon by the Parties and provide Customer with quality assurance documentation, manuals or certifications. Notwithstanding prior inspection or testing, payment, or passage of title, all Goods/Services shall be subject to final inspection and written acceptance at final destination, with such rights of inspection/rejection being in addition to any other rights or remedies of Customer under this Purchase Order or Applicable Law. If Customer rejects all or part of the Goods, Customer may return Goods to Supplier, at Supplier's sole risk and expense, for rework or replacement, and Supplier shall ship conforming Goods within ten (10) days of Supplier's receipt of the rejected Goods. If Customer determines, in its sole discretion, that Supplier is unable to rework or replace Goods within the time required by Customer, Customer may: (A) rework or have another supplier rework the Goods, the cost of such rework to be paid by Supplier; (B) return Goods to Supplier for full credit and obtain replacement from an alternate source, at Supplier's expense; or (C) produce replacement Goods at Supplier's expense. All Services found to be defective or nonconforming shall be re-performed at Supplier's expense.

5. Goods and Services Warranty.

(A) Supplier represents and warrants that it shall perform the Services and furnish the Goods in a professional and workmanlike manner, and the Goods/Services furnished hereunder

(1) shall (i) be new and of merchantable quality, (ii) be fit for and capable of the intended use; (iii) be of high quality and free from any defect or nonconformity in design, workmanship or materials; (iv) not be government or commercial surplus, used, remanufactured or reconditioned or of such age or so deteriorated as to impair the usefulness or safety thereof, and (v) strictly conform to the requirements of this Purchase Order, Customer's specifications, drawings, samples and other descriptions or instructions furnished by Supplier or Supplier's Representatives, generally accepted professional, engineering, manufacturing and/or technology standards, and Applicable Law; in each instance, until the later of eighteen (18) months after the Goods are first placed into service or thirty-six (36) months after delivery, and in the case of Services, eighteen (18) months after the completion of the Services; and

(2) (i) are free of any liens, encumbrances or claims, (ii) are free of Asbestos, Asbestos containing materials or any other materials prohibited by Applicable Laws; (iii) bear all markings, labels, warnings, notices or other information required under Applicable Law; and (iv) do not contain any substance prohibited by national or international regulations applicable to the Supplier or Customer, or at the point of delivery.

(B) TECHNOLOGY WARRANTIES: Supplier represents and warrants that (i) the Goods/Services do not (a) infringe, violate or misappropriate any intellectual property right(s) of third parties or (b) violate Applicable Laws; (ii) Supplier has all of the rights, permits, licenses and authority necessary to perform its obligations hereunder; (iii) Goods/Services including any software, related documentation, updates furnished hereunder and the media it is delivered on, or any "Software as a Service" or "Cloud" service, have been scanned for viruses and other malicious code and have been found to be free from viruses and malicious code; and (iv) the Goods/Services do not (a) grant access to servers, systems or programs of Customer, its Affiliates or Representatives by person(s) other than Customer, its Affiliates or Representatives or (b) contain any program, routine, code, device or other undisclosed feature including but not limited to a time bomb, virus, software lock, trojan horse, worm or trap door ("Disabling Feature") that is designed to delete, disable or interfere with the Goods/Services, and if any Disabling Feature is discovered or reasonably suspected to be present, Supplier shall immediately notify Customer and, at its sole expense, delete such Disabling Feature and carry out the recovery necessary to remedy its impact.

(C) For a breach of Supplier's warranty, Customer's remedies shall include but not be limited to Supplier's correction of any nonconformity with the warranty at its sole expense, and at the sole discretion of Customer,

Supplier shall promptly (i) repair or replace the nonconformity (and correct any plans, specifications, or drawings affected); (ii) furnish Customer or its end users any materials, parts and instructions necessary to correct the nonconformity, including reimbursement for Customer's costs; or (iii) pay Customer a mutually agreed portion of the Purchase Order price. Customer shall also be entitled to recover all costs and expenses incurred directly by Customer, its Representatives or payable to third parties, including additional costs of Customer's personnel or other labor, evaluation, re-working or scrapping, or transportation costs, or costs incurred in removing defective or nonconforming Goods/Services from property, equipment or products from property or premises where they have been incorporated.

(D) The warranty with respect to any corrected Goods/Services shall be subject to the same terms as the original warranty except that the warranty on any corrected or replaced Goods/Services shall be the longer of (i) one year from the date of repair or replacement or (ii) until the end of the original warranty period.

(E) Customer's approval of Supplier's samples, prototypes or first articles shall not be construed as a waiver of any express or implied warranty.

(F) In addition to any other obligations set forth in this Article 5, Supplier shall pass through all assignable third-party manufacturers' warranties applicable to Goods/Services furnished by Supplier. In the event a third party warranty is not assignable, Supplier shall enforce its warranty against a third party at Supplier's expense upon Customer's reasonable request. Supplier shall immediately notify Customer in writing of product recalls and/or product safety notices that concern the Goods/Services.

(G) Customer shall have the right to assign all Supplier warranties under this Purchase Order to third parties including Customer's customers/end users who shall have all rights to enforce such warranty.

6. Customer Furnished Property.

(A) The term "Customer Furnished Property" shall mean all tools, patterns, equipment, materials or other property which is either supplied by or on behalf of Customer or its Representatives to Supplier to perform the Services or furnish the Goods, or purchased by Customer from Supplier which is to be "delivered in place" and stored at Supplier's facility. Title to Customer Furnished Property shall remain with Customer and risk of loss shall be with the Party who has possession. For Customer Furnished Property in Supplier's possession, custody or control, Supplier shall insure against loss and damage in an amount equal to full replacement cost. Customer Furnished Property shall carry no guarantee or warranty, express or implied. Supplier shall not use Customer Furnished Property on any work other than the Goods/Services. Supplier shall clearly mark Customer Furnished Property to show Customer's ownership and prevent a lien, encumbrance or challenge to Customer's title thereto. Supplier shall, at its own expense, maintain and repair Customer Furnished Property returning it to Customer in the condition in which received, reasonable wear and tear excepted. Upon expiration or termination of the Purchase Order, Supplier shall dispose of Customer Furnished Property as Customer directs in writing. Customer reserves the right to abandon Customer Furnished Property at no additional cost to Customer. This Purchase Order shall remain in effect so long as Supplier possesses Customer Furnished Property.

7. Packaging.

(A) Except where the Purchase Order includes alternative requirements, Supplier shall be responsible for packaging Goods, and the clear and conspicuous marking of Goods and packaging, in accordance with Applicable Law, industry standards and in a manner sufficient to permit efficient handling, to provide adequate protection and comply with requirements of carrier and Applicable Law.

(B) Packing slips identifying the Purchase Order number and part number must accompany each shipment. The exterior of each shipping container or package will be clearly marked with Customer's Purchase Order number and country of origin, which shall also be marked on Goods, and any specified packaging/marketing requirements stated in the Purchase Order, in a clear, conspicuous and permanent manner. Supplier shall provide all necessary shipping documents, including, but not limited to, customs invoices and packing lists in accordance with Customer's requirements and Applicable Law. Damages and costs incurred by Customer, its Representative or end user resulting from Supplier or its Representative's failure to comply with this Section shall be paid by Supplier. If Supplier imports wood packaging materials, in accordance with 7 CFR 319.40, Supplier warrants that such wood packaging material is treated and marked under an official program developed and overseen by the National Plant Protection Organization in the country of export.

8. Intellectual Property.

(A) *Ownership:* Each Party shall retain all right, title and interest it may have with respect to Items acquired or developed before the effective date or independently of this Purchase Order. "Items" means ideas, inventions,

discoveries, processes, methods, designs, know-how, strategies, techniques, formulas, models, instructions, specifications, technical information, computer programs including software (in source and object code forms), firmware and related operating instructions and documentation, trademarks, service marks, and works of authorship of all kinds, including notes, reports, memoranda, writings, plans, outlines, research, data, figures, descriptions, drawings, diagrams, charts, sketches, patterns, compilations, lists, surveys, interview guides, and recordings in any form or medium and whether or not patentable or copyrightable.

(B) As between the Parties, Customer shall be the sole owner of and shall have all right, title and interest in all Work Product, including all related copyright, patent and other intellectual property rights, including without limitation, any derivative works, or inventions or trademarks relating to existing intellectual property. "Work Product" means all Items and any other work product conceived, created, developed, produced, prepared, collected, compiled or generated by Supplier, its Affiliates or Representatives in connection with performing the Services or producing the Goods including but not limited to modifications and improvements thereto. Supplier shall not cause or permit any Work Product to be subject to any lien or encumbrance. Supplier hereby, irrevocably, in perpetuity and without further consideration, assigns to Customer all right, title and interest that Supplier, its Affiliates and/or Representatives has or may have in the future anywhere in the world in all Work Product.

(C) *Works made for Hire*: Customer will be considered the "person for whom the work was prepared" for purposes of determining the authorship of any copyright in Work Product, and all copyrightable aspects of Work Product will constitute "works made for hire" as that term is defined under Section 101 of the U.S. Copyright Act, 17 U.S.C. § 101, as amended ("Copyright Act"), or analogous provisions under other Applicable Laws, and will be owned exclusively by Customer upon creation. If (and to the extent) any of the foregoing (or any part or element thereof) is found as a matter of law not to be a "work made for hire" under Applicable Laws, Supplier hereby irrevocably, in perpetuity and without further consideration, assigns to Customer (its successors and assigns) all right, title and interest that Supplier has or may have in the future in and to all United States and foreign copyrights in Work Product and all copies thereof.

(D) *Disclosure; Further Assurances*: Supplier shall disclose and describe all Work Product to Customer and, promptly upon Customer's request, provide any requested information or documentation related to Work Product. Upon Customer's request, Supplier will execute and deliver to them all documents and provide all testimony necessary to register and enforce intellectual property rights in Work Product solely in the name of Customer (or its designee). Supplier irrevocably designates and appoints Customer (or its designee) and its legal representatives and nominees, as Supplier's agent and attorney-in-fact to prosecute and enforce any applications and intellectual property rights as to Work Product.

(E) Supplier shall promptly disclose, and hereby grants to Customer, a non-exclusive, freely transferable, royalty-free, fully paid-up, worldwide, license in and to, all Items owned or licensed by Supplier which are necessary for the use and enjoyment by Customer of Goods/Services and Work Product hereunder. Such license covers perpetual software license for software used in or required for the operation of Goods/Services, including but not limited to all modifications or additions to software, as well as all related documentation and technical information. Any software maintenance or support service shall be the subject of an Exhibit to this Purchase Order.

(F) Supplier shall not embed or incorporate any third party Items into Goods/Services without Customer's prior written consent and Supplier's providing to Customer and/or its end users a list of third party software or other intellectual property contained within or necessary to use Goods/Services together with royalty-free, paid-up licenses to Customer, its Affiliates and its or their end user(s).

9. Indemnification.

(A) Supplier shall indemnify, defend and hold harmless Customer, its Affiliates, and their Representatives and assigns from and against all claims, suits, causes of action, losses, liabilities, liens, damages, assessments, costs, expenses, demands, complaints or actions including but not limited to reasonable attorneys' fees and court costs (collectively "Claims") concerning (i) death, personal injury, or property damage arising or resulting from (a) Supplier or its Representative's negligence or willful misconduct, or (b) the Goods/Services furnished hereunder; (ii) nonpayment of wages, benefits, fees, amounts owed, and/or any taxes (including penalties and interest) associated therewith arising from Supplier's Representatives, suppliers, contractors, and/or materialmen which may include liens or encumbrances on the Goods/Services or the premises on which located; (iii) a challenge to Customer's title to the Goods/Services; (iv) infringement or misappropriation of any third party's intellectual property rights in connection with the Purchase Order or Customer's, its Representatives or Customer's end user's use of the Goods/Services; (v) violation of Applicable Law; (vi) damage or loss to, or arising out of, or

resulting from Customer Furnished Property; (vii) breach of the Siemens Data Privacy Requirements, if applicable; or (viii) breach of this Purchase Order by Supplier or its Affiliate(s) or Representative(s).

(B) If Customer receives written notice of a Claim, Customer shall give prompt written notice to Supplier. Customer's delay or deficiency in notifying Supplier shall not relieve Supplier of liability or obligation unless such delay materially impacts the defense of the Claim. If the settlement of a Claim may result in ongoing liability to or detrimentally impacts Customer, its Affiliates, Representatives or end users, then such settlement shall require the prior written consent of Customer. Customer may have its own counsel at Customer's cost at all related proceedings.

(C) In case either Party reasonably believes the Goods/Services, or any part thereof, may be the subject of an intellectual property Claim, Supplier shall at its own expense: (a) procure Customer, its Representatives and/or end user's right to continue using the Goods/Services; (b) replace with substantially equivalent non-infringing Goods/Services; or (c) modify the Goods/Services in compliance with Applicable Laws so it becomes non-infringing.

(D) Supplier expressly and specifically waives its immunity under applicable workers' compensation and/or industrial insurance laws regarding liability against Customer, its Affiliates or its or their end users for Claims brought by Supplier's employees against any of them.

10. Confidentiality.

(A) Both during and after the term of this Purchase Order, the Parties will treat as confidential all information in any form (including copies or restatements thereof) relating to, without limitation, the intellectual property, know-how, Items, businesses, operations, finances, pricing, forecasts, projections, analyses, systems, user identification numbers or passwords of a Party, and/or commercial, marketing, research and development, or other plans and strategies, end user and/or vendor information of a Party hereto marked "Confidential" or other similar markings ("Confidential Information"). Customer has the right to share confidential information with its Affiliates and Representatives, customers in connection with transactions involving or related to the Goods and Services provided hereunder, provided those recipients are subject to the same confidentiality obligations set forth herein.

(B) Receiving Party shall refrain from disclosing and/or using disclosing Party's Confidential Information other than to perform its obligations under the Purchase Order. Receiving Party shall be responsible for any breach of the confidentiality obligations hereunder by its Affiliates or Representative(s). These confidentiality restrictions shall not apply to information which (i) is or becomes generally known to the public, without the fault of the receiving Party; (ii) is disclosed to the receiving Party, without obligation of confidentiality, by a third party having the right to make such disclosure; (iii) was previously known to the receiving Party, without obligation of confidentiality, which fact can be demonstrated by means of documents which are in the possession of the receiving Party upon the date of this Purchase Order; (iv) was independently developed by receiving Party or its representatives, as evidenced by written records, without the use of disclosing Party's confidential information; or (v) is required to be disclosed by law, except to the extent eligible for special treatment under an appropriate protective order, provided that the Party required to disclose by law will promptly advise the disclosing Party of any requirement to make such disclosure to allow the disclosing Party the opportunity to obtain a protective order and assist the disclosing Party in so doing. An individual who is a Supplier Representative will be immune from liability for the confidential disclosure of trade secrets (i) to a governmental agency to report a suspected violation of law or (ii) to a court, if the individual complies with the Defend Trade Secrets Act, 18 U.S.C. Section 1833(b).

(C) The Parties will return or destroy Confidential Information of each other within ten (10) days of receipt of a written request, or upon expiration or termination of this Purchase Order. Disclosing Party shall be entitled to specific performance and injunctive relief (including any other remedies at law or in equity) plus reasonable attorneys' fees and court costs incurred in pursuing a breach of this Section.

11. Representations, Warranties and Covenants. In addition to warranties set forth elsewhere in this Purchase Order, Supplier for itself and on behalf of its Affiliates and Representatives hereby represents and warrants for the term of the Purchase Order as follows:

(B) Supplier's Representatives are legally authorized to work in the United States and Supplier shall complete as required by Applicable Law the Department of Labor's Form I-9 and to retain it for the statutorily designated period and, if requested by Customer, Supplier shall provide copies of such Forms I-9 to Customer unless such disclosure shall be prohibited by Applicable Law;

(C) For Services provided at Customer's, its end user or third party's premises, Supplier has examined the worksite in order to acquaint itself with the local conditions, including applicable regulations codes, permits, licenses, registrations, environmental standards, and notification requirements concerning site safety and/or security; and

(D) Supplier has not and will not, absent prior written approval from Customer, take any actions that: (i) create, or purport to create, any obligation on behalf of Customer, or (ii) grant, or purport to grant, any rights or immunities to any third party under Customer's intellectual property or proprietary rights.

12. Environment, Health and Safety.

(A) Supplier and its Representatives shall, in addition to other obligations set forth in this Purchase Order (i) comply with Applicable Laws concerning health, the environment, safety, or pertaining to or regulating pollutants, contaminants, or hazardous, toxic or radioactive substances, materials or wastes, including without limitation the handling, transportation and disposal thereof, or governing or regulating the health and safety of personnel, including but not limited to the Occupational Safety and Health Act of 1970, the Resource Conservation and Recovery Act, and the Toxic Substance Control Act ("TSCA"), as amended (collectively referred to as "EHS Laws") (pollutants, contaminants, substances, materials or wastes as defined under EHS Laws shall be referred to collectively as "Hazardous Materials"); (ii) ensure that Goods/Services comply at all times with EHS Laws, (iii) mitigate hazards to the environment and to the health and safety of persons, (iv) ensure the Goods/Services, and any and all parts, components, or material thereof, bear all markings, labels, warnings, notices or other information required under applicable EHS Laws, (v) select and use only equipment, including but not limited to personal protection equipment, that comports with EHS Laws, train its Representatives in the use of such equipment in a safe and lawful manner, and maintain such equipment in good working order at all times, (vi) afford Customer and/or its Representatives access to all records pertaining to environmental, health and safety matters, in any form, pursuant to Customer's audit rights herein, (vii) immediately notify Customer of any incident involving death, injury or damage to any person or property in connection with the Purchase Order, (viii) upon Customer's request, conduct an incident investigation or support such investigation (at Supplier's expense) conducted by Customer, (ix) notify Customer, its end user and/or its or their Representatives of any solid or hazardous waste (as so defined under EHS Laws) generated in the course of Supplier or its Representative's providing Goods/Services at a Work Site (as defined below) and (x) comply with the substance declarations and other requirements set forth in Exhibit A.

(B) Where the Purchase Order includes the presence of Supplier or its Representatives on the premises of Customer, Customer's end user, or any other location other than the premises of Supplier ("Work Site"), Supplier shall: (1) be solely responsible for the safety, health, medical surveillance, industrial hygiene, training and all other matters relating to safety and health of its Representatives at the Work Site, (2) appoint a competent person as its representative for environmental, health and safety who shall take part in safety discussions with Customer, its Representatives, end user, or the owner of the Work Site, (3) be solely responsible for the handling, use, transportation and disposal of any and all substances regulated under the EHS Laws which Supplier or its Representatives bring onto the Work Site or generate in the performance of this Purchase Order, including but not limited to excess, waste or residue, containers or any of such substances not consumed, and for any spills, releases or discharges of such substances, strictly in accordance with EHS Laws, and (4) ensure Supplier's Representatives participate in any site-specific safety training and comply with all rules and requirements of Customer, its end user, or such other owner of the Work Site.

If Supplier fails to comply with this Section, Customer may, at its sole option and without limiting its other rights, order Supplier or its Representatives to cease Services until Supplier complies at Supplier's sole cost and expense. If Supplier is unable or refuses to take corrective action hereunder Customer may contract with a third party or otherwise continue such Services at the Work Site and charge Supplier excess cost caused to Customer. Customer shall have the right, at its sole discretion, to remove Supplier or its Representatives from a Work Site for violation of this Section, EHS Laws, or requirements applicable to the Good or Services.

(D) Supplier warrants that every chemical substance or material sold, transferred or delivered under this Purchase Order, including any chemical substance that is or is contained in any Goods/Services, shall, at the time of sale, transfer or delivery, be (1) on the list of chemical substances published by the Administrator of the U.S. Environmental Protection Agency pursuant to TSCA, otherwise known as the TSCA Inventory, or (2) exempted from such list under 40 CFR 720.30-38, and (3) able to be lawfully and safely used and transported in any jurisdiction to or through which such Goods will likely be shipped. Without limiting its other obligations, Supplier shall comply with Section 13 of TSCA, including without limitation requirements that importers certify that such substance or material is either in compliance with TSCA (positive certification) or are not subject to TSCA (negative certification) before importing a chemical substance, mixture or article containing a chemical substance or mixture into the USA.

13. Termination.

(A) Customer may suspend or terminate for its convenience this Purchase Order upon written notice to Supplier and, upon receipt of notice, Supplier and its Representatives shall, in addition to complying with the requirements of such notice, immediately (i) stop production and delivery of all Goods/Services, (ii) accept no orders for Goods/Services and (iii) protect all Goods/Services under Supplier's control in which Customer may have a full/partial interest. In the event of a suspension, Supplier shall not resume until the suspension terminates as set forth in Customer's notice. For a terminated Purchase Order, Supplier will provide Customer with written evidence of any costs, if any, Supplier incurred resulting from the termination for convenience within thirty (30) days from the effective date of termination. If the Parties are unable to agree on compensation for such termination, Supplier shall be paid a reasonable termination charge consisting of a percentage of the Purchase Order price reflecting the percentage of work performed prior to the notice of termination plus the actual direct costs resulting from termination, with such total amount not to exceed the Purchase Order price.

(B) Without limiting any other termination rights of the Customer set forth in these Terms, a Party may terminate this Purchase Order for cause upon thirty (30) days prior written notice in the event the other Party hereto ("Non-Terminating Party") (i) materially breaches this Purchase Order and fails to cure the breach within this thirty (30) day period or (ii) becomes insolvent, ceases business as a going concern, becomes unable to pay its debts generally as they become due; has a petition for an order for relief under the bankruptcy/insolvency laws or for reorganization, composition, adjustment or other relief of debtors, makes an assignment for the benefit of creditors, has a receiver or liquidator appointed for such Non-Terminating Party or a court of competent jurisdiction orders the winding up or liquidation of the affairs of the Non-Terminating Party.

14. Open Source Software. Supplier shall inform Customer no later than five (5) days following receipt of the Purchase Order, whether the Goods/Services include "Open Source Software." As used herein "Open Source Software" means any software that is licensed royalty-free (i.e., fees for exercising the licensed rights are prohibited, whereas fees for reimbursement of costs incurred by licensor are generally permitted) under any license terms or other contract terms ("Open License Terms") which require, as a condition of modification and/or distribution of such software and/ or any other software incorporated into, derived from or distributed with such software ("Derivative Software"), either of the following: (i) that the source code of such Software and/or any Derivative Software be made available to third parties; or (ii) that permission for creating derivative works of such Software and/or any Derivative Software be granted to third parties. If Open Source Software is included, Supplier shall deliver to Customer, not later than the date of order confirmation, (i) a schedule of all Open Source Software files used, indicating the relevant license and including a copy of the complete text of such license; (ii) the source code of the Open Source Software; and (iii) a written declaration that Customer's intended use of the Open Source Software will not be subject to a "Copyleft Effect" which means the Open License Terms require that certain of the Supplier's products, as well as products derived thereby, may only be distributed further in accordance with the terms of the Open License Terms. Should Supplier not inform Customer of Open Source

Software or otherwise breach this Section, it shall be a material breach and Supplier shall indemnify and defend Customer, its Representatives and Customer's end user(s) from all Claims arising from such breach, and Customer shall be entitled to cancel the Purchase Order without penalty.

15. Export Control and Trade Regulations.

(A) For all Goods to be delivered and Services to be provided according to this Purchase Order, Supplier shall comply with all applicable export control, customs and trade regulations ("Trade Regulations") and shall obtain all necessary export licenses, unless Customer or any party other than Supplier is required to apply for the export licenses pursuant to the applicable Trade Regulations. Regardless, and upon delivery, Supplier shall provide Customer for each Good and Service delivered the following trade data as applicable: (i) "Export Control Classification Number" according to the U.S. Commerce Control List (ECCN) or the Munitions List Category Designation according to the US International Traffic in Arms Regulations, and all other export control list numbers;(ii) the statistical commodity code according to the current commodity classification for foreign trade statistics and the HS (Harmonized System) coding; (iii) the country of origin (non-preferential origin); and (iv) Supplier's declaration for preferential origin (in case of European suppliers) or preferential certificates (in case of non-European suppliers) such as NAFTA certificates of origin. Supplier shall be liable for any expenses and/or damage incurred by Customer due to any breach of its obligations under this Section. In the event Supplier has knowledge of any alterations to origin and/or characteristics of the Goods/Services and/or to the applicable Trade Regulations, it shall notify the Customer not later than three (3) days upon discovery. Supplier shall be liable for any expenses and/or damages incurred by Customer due to the lack of or inaccuracy of said export control and foreign trade data.
