

Legal Proceedings

For information regarding investigations and other legal proceedings in which Siemens is involved, as well as the potential risks associated with such proceedings and their potential financial impact on the Company, please refer to Siemens' Annual Report for the fiscal year ended September 30, 2009 (Annual Report) and its annual report on Form 20-F for the fiscal year ended September 30, 2009 (Form 20-F), and, in particular, to the information contained in "Item 3: Key Information—Risk factors" and "Item 4: Information on the Company—Legal proceedings."

Significant developments regarding investigations and other legal proceedings that have occurred since the publication of Siemens' Annual Report and Form 20-F are described below.

Public corruption proceedings

Governmental and related proceedings

On March 9, 2009, Siemens received a decision by the Vendor Review Committee of the United Nations Secretariat Procurement Division (UNPD) suspending Siemens from the UNPD vendor database for a minimum period of six months. The suspension applies to contracts with the UN Secretariat and stems from Siemens' guilty plea in December 2008 to violations of the U.S. Foreign Corrupt Practices Act. Siemens does not expect a significant impact on its business, results of operations or financial condition from this decision. On December 22, 2009, Siemens filed a request to lift the existing suspension.

In April 2009, the Company received a "Notice of Commencement of Administrative Proceedings and Recommendations of the Evaluation and Suspension Officer" from the World Bank, which comprises the International Bank for Reconstruction and Development as well as the International Development Association, in connection with allegations of sanctionable practices during the period 2004-2006 relating to a World Bank-financed project in Russia. On July 2, 2009, the Company entered into a global settlement agreement with the International Bank for Reconstruction and Development, the International Development Association, the International Finance Corporation and the Multilateral Investment Guarantee Agency (collectively, the "World Bank Group") to resolve World Bank Group investigations involving allegations of corruption by Siemens. In the agreement, Siemens voluntarily undertakes to refrain from bidding in connection with any project, program, or other investment financed or guaranteed by the World Bank Group

("Bank Group Projects") for a period of two years, commencing on January 1, 2009 and ending on December 31, 2010. Siemens is not prohibited by the voluntary restraint from continuing work on existing contracts under Bank Group Projects or concluded in connection with World Bank Group corporate procurement provided such contracts were signed by Siemens and all other parties thereto prior to January 1, 2009. The agreement provides for exemptions to the voluntary restraint in exceptional circumstances upon approval of the World Bank Group. Siemens must also withdraw all pending bids, including proposals for consulting contracts, in connection with Bank Group Projects and World Bank Group corporate procurement where the World Bank Group has not provided its approval prior to July 2, 2009. Furthermore, Siemens is also required to voluntarily disclose to the World Bank Group any potential misconduct in connection with any Bank Group Projects. Finally, Siemens has undertaken to pay US\$100 million to agreed anti-corruption organizations over a period of not more than 15 years. In fiscal 2009, the Company took a charge to Other operating expense to accrue a provision in the amount of €53 million relating to the global settlement agreement with the World Bank Group. In November 2009, Siemens Russia OOO and all its controlled subsidiaries were, in a separate proceeding before the World Bank Group, debarred for four years from participating in Bank Group Projects. Siemens Russia OOO did not contest the debarment.

In November 2009 and in February 2010, a subsidiary of Siemens AG voluntarily self-reported possible violations of South African anti-corruption regulations in the period before 2007 to the responsible South African authorities.

On December 30, 2009, the Anti Corruption Commission of Bangladesh (ACC) sent a request for information to Siemens Bangladesh Ltd. (Siemens Bangladesh) related to telecommunications projects of Siemens' former Communications (Com) Group undertaken prior to 2007. On January 4, 2010, Siemens Bangladesh was informed that in a related move the Anti Money Laundering Department of the Central Bank of Bangladesh is conducting a special investigation into certain accounts of Siemens Bangladesh and of former employees of Siemens Bangladesh in connection with transactions for Com projects undertaken in the period from 2002 to 2006. On February 16, 2010, the ACC sent a request for additional information.

On June 23, 2010, the Frankfurt public prosecutor searched premises of Siemens in Germany in response to allegations of questionable payments relating to an Industry project in Thailand. Siemens is cooperating with the authority.

The Company remains subject to corruption-related investigations in several jurisdictions around the world. As a result, additional criminal or civil sanctions could be brought against the Company

itself or against certain of its employees in connection with possible violations of law. In addition, the scope of pending investigations may be expanded and new investigations commenced in connection with allegations of bribery and other illegal acts. The Company's operating activities, financial results and reputation may also be negatively affected, particularly due to imposed penalties, fines, disgorgements, compensatory damages, third-party litigation, including by competitors, the formal or informal exclusion from public tenders or the loss of business licenses or permits. Additional expenses and provisions, which could be material, may need to be recorded in the future for penalties, fines, damages or other charges in connection with the investigations.

As previously reported, the Company investigates evidence of bank accounts at various locations, as well as the amount of the funds. Certain funds have been frozen by authorities. During the first nine months of fiscal 2010, based on binding agreements including with the relevant authority, the Company recognized an amount of €40 million in *Other operating income* from the agreed recovery of funds from one of these accounts.

Civil litigation

As already disclosed by the Company in press releases, Siemens AG asserted claims for damages against former members of the Managing and Supervisory Board. The Company based its claims on breaches of organizational and supervisory duties in view of the accusations of illegal business practices that occurred in the course of international business transactions in the years 2003 to 2006 and the resulting financial burdens for the Company. On December 2, 2009 Siemens reached a settlement with nine out of eleven former members of the Managing and Supervisory Board. As required by law, the settlements between the Company and individual board members were subject to approval by the Annual Shareholders' Meeting. The Company reached a settlement agreement with its directors and officers (D&O) insurers regarding claims in connection with the D&O insurance of up to €100 million. The Annual Shareholders' Meeting approved all nine settlements between the Company and the former members of the Managing and Supervisory Board on January 26, 2010. The shareholders also agreed to the settlement with respect to claims under the D&O insurance. During the second quarter of fiscal 2010, Siemens AG received certain benefits as required under the aforementioned settlement agreements with the result that an amount of €96 million net of related cost was recognized primarily in *Other operating income*. Thereof €84 million resulted from the settlement agreement with the D&O insurers and €12 million resulted from settlement agreements with former board members. The former board members used claims they had against the Company to set off a portion of their obligations under the aforementioned settlement agreements. The remaining amount was or will be settled by the former board members in cash. On January 25, 2010 Siemens AG filed a lawsuit with the Munich District

Court I against the two former board members who were not willing to settle, Thomas Ganswindt and Heinz-Joachim Neubürger. The defendants have not yet replied to the complaint filed by Siemens AG.

As previously disclosed, in June 2008, the Republic of Iraq filed an action requesting unspecified damages against 93 named defendants with the United States District Court for the Southern District of New York on the basis of findings made in the "Report of the Independent Inquiry Committee into the United Nations Oil-for-Food Programme." Siemens S.A.S. France, Siemens A. Ş. Turkey and OSRAM Middle East FZE, Dubai are among the 93 named defendants. Process was served upon all three Siemens affiliates.

As previously reported, the Company has been approached by a competitor to discuss claims it believes it has against the Company. The alleged claims relate to allegedly improper payments by the Company in connection with the procurement of public and private contracts. The Company is assessing whether any basis exists for such claims.

A securities class action was filed in December 2009 against Siemens AG with the United States District Court for the Eastern District of New York seeking damages for alleged violations of U.S. securities laws. The Company will defend itself against the lawsuit.

Antitrust proceedings

As previously reported, on October 25, 2007, upon the Company's appeal, a Hungarian competition court reduced administrative fines imposed on Siemens AG for alleged antitrust violations in the market of high-voltage gas-insulated switchgear from €0.320 million to €0.120 million and from €0.640 million to €0.110 million regarding VA Technologie AG. The Company and the Competition Authority both appealed the decision. In November 2008, the Court of Appeal confirmed the reduction of the fines. On December 5, 2008, the Competition Authority filed an extraordinary appeal with the Supreme Court. In December 2009, Siemens AG was notified that the Supreme Court had remanded the case to the Court of Appeal, with instructions to take a new decision on the amount of the fines. The extraordinary appeal from the Competition Authority was rejected with legally binding effect by the Court of Appeal on January 27, 2010. On April 6, 2010, the Competition Authority filed another extraordinary appeal with the Supreme Court.

In January 2010, the European Commission launched an investigation related to previously reported investigations into potential antitrust violations involving producers of flexible current transmission systems in New Zealand and the USA including, among others, Siemens AG. In April

2010, authorities in Korea and Mexico informed the company that similar proceedings had been initiated. Siemens is cooperating with the authorities. On June 1, 2010, the New Zealand Commerce Commission notified Siemens that their investigation had been closed.

On February 11, 2010, the Italian Antitrust Authority searched the premises of several healthcare companies, including Siemens Healthcare Diagnostics S.r.l. and Siemens S.p.A., in response to allegations of anti-competitive agreements relating to a 2009 public tender process for the supply of medical equipment to the procurement entity for the public healthcare sector in the region of Campania, So.Re.Sa. Siemens is cooperating with the authority.

Other proceedings

As previously reported, the Company is a member of a supplier consortium that has contracted to construct the nuclear power plant "Olkiluoto 3" in Finland for Teollisuuden Voima Oyj (TVO) on a turnkey basis. The Company's share of the consideration to be paid to the supplier consortium under the contract is approximately 27%. The other member of the supplier consortium is a further consortium consisting of Areva NP S.A.S. and its wholly-owned affiliate, Areva NP GmbH. The agreed completion date for the nuclear power plant was April 30, 2009. Completion of the power plant has been delayed for reasons which are disputed. In December 2008 the supplier consortium filed a request for arbitration against TVO demanding an extension of the construction time, additional compensation and damages in the amount of approximately €1 billion. TVO rejected the demand for an extension of time and made counterclaims against the supplier consortium. These consist primarily of damages due to the delay, claimed to amount to €1.4 billion based on estimated completion of the plant in June 2012 with a delay of 38 months. Assuming the full cooperation of all involved parties, nuclear fuel is expected to be loaded into the reactor at the end of 2012 in order to commence the commissioning phase of the overall plant. This testing phase will last several months. As of today, completion is expected to occur by the end of the 2013 calendar year.

Investigations and proceedings currently being conducted by the Greek Parliamentary Investigation Committee, the public prosecutor and the criminal courts in Greece against – among others – former board members and executives of Siemens A.E. based on bribery and fraud allegations might have a negative impact on civil proceedings currently pending against Siemens AG and Siemens A.E. and also affect the future business activities of Siemens A.E. in Greece.

The Greek tax authorities have audited Siemens A.E.'s books for the 1997 to 2003 and 2004 to 2007 tax years. In the third quarter of fiscal 2010, based on a preliminary communication of the

findings of the tax audits, Siemens A.E. made payments under a tax act enacted in April 2010 to settle certain matters for which provisions had been established.

The EU Anti-Fraud Office OLAF, its Romanian equivalent DELAF and the Romanian prosecutor DNA are currently investigating allegations of fraud in connection with the 2007 award of a contract to FORTE Business Services (now SIS Romania) to modernize the IT infrastructure of the Romanian judiciary.

This document contains forward-looking statements and information – that is, statements related to future, not past, events. These statements may be identified by words such as “expects,” “looks forward to,” “anticipates,” “intends,” “plans,” “believes,” “seeks,” “estimates,” “will,” “project” or words of similar meaning. Such statements are based on the current expectations and certain assumptions of Siemens’ management, and are, therefore, subject to certain risks and uncertainties. A variety of factors, many of which are beyond Siemens’ control, affect Siemens’ operations, performance, business strategy and results and could cause the actual results, performance or achievements of Siemens to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. For Siemens, particular uncertainties arise, among others, from changes in general economic and business conditions (including margin developments in major business areas and recessionary trends); the possibility that customers may delay the conversion of booked orders into revenue or that prices will decline as a result of continued adverse market conditions to a greater extent than currently anticipated by Siemens’ management; developments in the financial markets, including fluctuations in interest and exchange rates, commodity and equity prices, debt prices (credit spreads) and financial assets generally; continued volatility and a further deterioration of the capital markets; a worsening in the conditions of the credit business and, in particular, additional uncertainties arising out of the subprime, financial market and liquidity crises; future financial performance of major industries that Siemens serves, including, without limitation, the Sectors Industry, Energy and Healthcare; the challenges of integrating major acquisitions and implementing joint ventures and other significant portfolio measures; the introduction of competing products or technologies by other companies; a lack of acceptance of new products or services by customers targeted by Siemens; changes in business strategy; the outcome of pending investigations and legal proceedings and actions resulting from the findings of these investigations; the potential impact of such investigations and proceedings on Siemens’ ongoing business including its relationships with governments and other customers; the potential impact of such matters on Siemens’ financial statements; as well as various other factors. More detailed information about certain of the risk factors affecting Siemens is contained throughout this report and in Siemens’ other filings with the SEC, which are available on the Siemens website, www.siemens.com, and on the SEC’s website, www.sec.gov. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in the relevant forward-looking statement as expected, anticipated, intended, planned, believed, sought, estimated or projected. Siemens does not intend or assume any obligation to update or revise these forward-looking statements in light of developments which differ from those anticipated.
