| <div><div>Tuesday</div><div>15 September 2026</div></div>   |                      | How Software unlocks the full potential of your charging infrastructure | Do more with less: Expert Support that keeps fleet operators focused              | Ensure smooth operations and reduce TCO with Depotfinity | Flexible, Reliable, Economical: Introducing SICHARGE FLEX         |
| <div><div>Wednesday</div><div>16 September 2026</div></div> | On-board Pantographs | How Software unlocks the full potential of your charging infrastructure | Keeping EV Charging Reliable: From Reactive Maintenance to Predictable Operations | Ensure smooth operations and reduce TCO with Depotfinity | Flexible, Reliable, Economical: Introducing SICHARGE FLEX         |
| <div><div>Thursday</div><div>17 September 2026</div></div>  |                      | How Software unlocks the full potential of your charging infrastructure | Inverted Pantographs                                                              | Maximize your availability with Sifinity Control         | Common Challenges in EV charging operations and how to solve them |
| <div><div>Friday</div><div>18 September 2026</div></div>    |                      | How Software unlocks the full potential of your charging infrastructure |                                                                                   | Maximize your availability with Sifinity Control         | Flexible, Reliable, Economical: Introducing SICHARGE FLEX         |

# Tuesday

15 September 2026

11:00

How Software unlocks the full potential of your charging infrastructure

10 min

13:00

Do more with less: Expert Support that keeps fleet operators focused

10 min

15:00

Ensure smooth operations and reduce TCO with Depotfinity

10 min

16:00

Flexible, Reliable, Economical: Introducing SICHARGE FLEX

10 min

# Wednesday

16 September 2026

|       |                                                                                   |        |
|-------|-----------------------------------------------------------------------------------|--------|
| 10:00 | On-board Pantographs                                                              | 10 min |
| 11:00 | How Software unlocks the full potential of your charging infrastructure           | 10 min |
| 13:00 | Keeping EV Charging Reliable: From Reactive Maintenance to Predictable Operations | 10 min |
| 15:00 | Ensure smooth operations and reduce TCO with Depotfinity                          | 10 min |
| 16:00 | Flexible, Reliable, Economical: Introducing SICHARGE FLEX                         | 10 min |

# Thursday

17 September 2026

11:00

How Software unlocks the full potential of your charging infrastructure

10 min

13:00

Inverted Pantographs

10 min

15:00

Maximize your availability with Sifinity Control

10 min

16:00

Common Challenges in EV charging operations and how to solve them

10 min

# Friday

18 September 2026

11:00

How Software unlocks the full potential of your charging infrastructure

10 min

15:00

Maximize your availability with Sifinity Control

10 min

16:00

Flexible, Reliable, Economical: Introducing SICHARGE FLEX

10 min
