Notes and forward-looking statements

This document contains statements related to our future business and financial performance and future events or developments involving Siemens that may constitute forward-looking statements. These statements may be identified by words such as “expect,” “look forward to,” “anticipate,” “intend,” “plan,” “believe,” “seek,” “estimate,” “will,” “project” or words of similar meaning. We may also make forward-looking statements in other reports, in prospectuses, in presentations, in material delivered to shareholders and in press releases. In addition, our representatives may from time to time make oral forward-looking statements. Such statements are based on the current expectations and certain assumptions of Siemens’ management, of which many are beyond Siemens’ control. These are subject to a number of risks, uncertainties and factors, including, but not limited to, those described in disclosures, in particular in the chapter Report on expected developments and associated material opportunities and risks in the Annual Report and in the Half-year Financial Report, which should be read in conjunction with the Annual Report. Should one or more of these risks or uncertainties materialize, events of force majeure, such as pandemics, occur or should decisions, assessments or requirements of regulatory authorities deviate from our expectations, or should underlying expectations including future events occur at a later date or not at all or assumptions prove incorrect, actual results, performance or achievements of Siemens may (negatively or positively) vary materially from those described explicitly or implicitly in the relevant forward-looking statement. Siemens neither intends, nor assumes any obligation, to update or revise these forward-looking statements in light of developments which differ from those anticipated.

This document includes – in the applicable financial reporting framework not clearly defined – supplemental financial measures that are or may be alternative performance measures (non-GAAP-measures). These supplemental financial measures should not be viewed in isolation or as alternatives to measures of Siemens’ net assets and financial positions or results of operations as presented in accordance with the applicable financial reporting framework in its Consolidated Financial Statements. Other companies that report or describe similarly titled alternative performance measures may calculate them differently.

Due to rounding, numbers presented throughout this and other documents may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

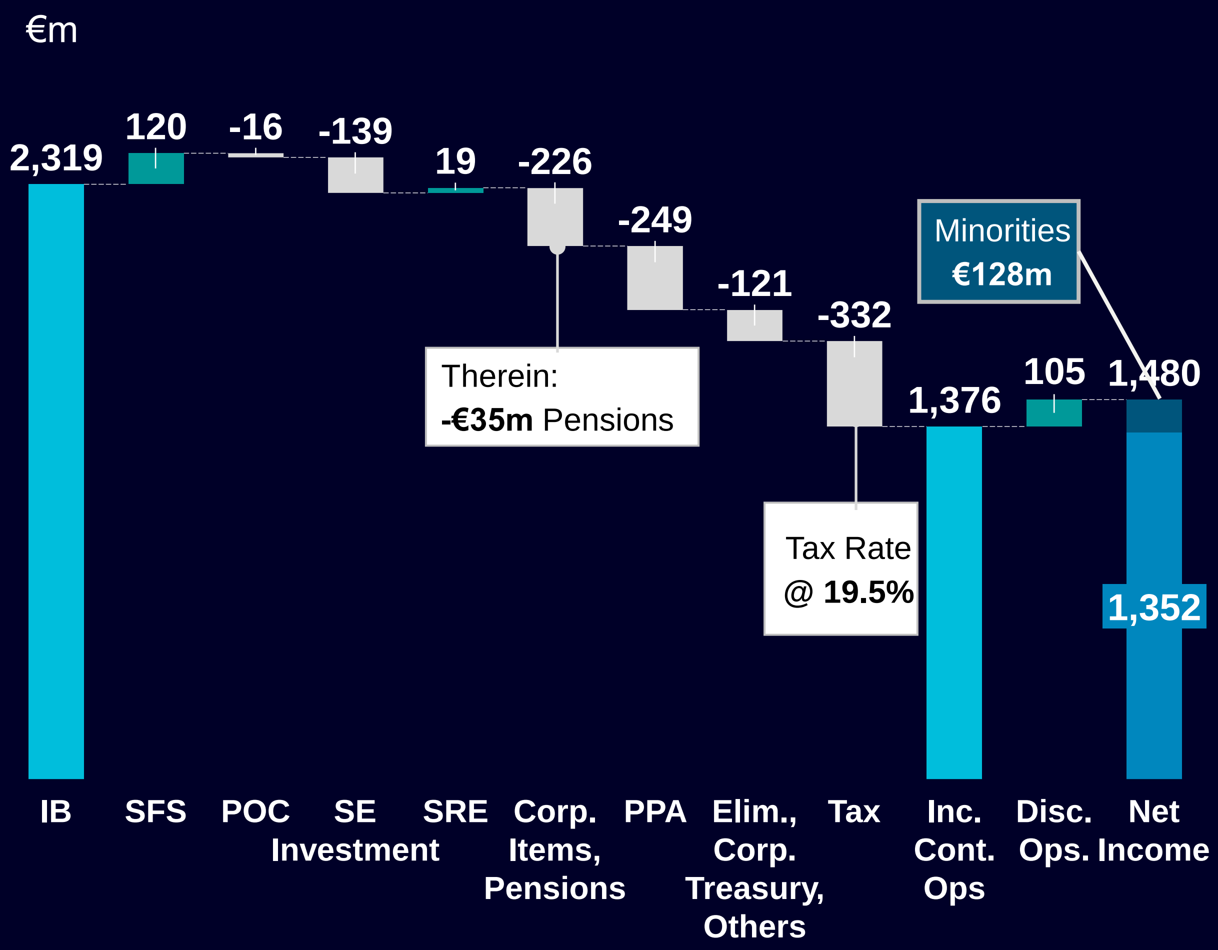
Q3 FY 21 – Performance Below IB



Below IB – Expectations for FY 2021

- **SFS:** significant improvement over FY 2020, however, not at pre-COVID-19 levels yet
- **POC:** positive contribution from fully owned businesses; overcompensated by negative result from equity investment, which remains volatile.
- **Siemens Energy Investment:** PPA-effects of ~€0.2bn and net income contribution attributable to SAG stake
- **SRE:** below prior year, dependent on disposal gains
- **Corporate Items & Pensions:** Below FY 2020 level at ~€0.9bn, H2>H1
- **PPA:** ~0.8bn including Varian effects
- **Eliminat., Corp. Treasury, Others:** Slightly **l**ower cost versus FY 2020 level
- **Tax rate:** around 25%
- **Disc. Operations (D/O):** Close to €1bn positive result, mainly from Flender divestment
